

ROCKY BRANDS INC.
2023 ANNUAL REPORT

DEAR SHAREHOLDERS:

As I reflect on one of the more difficult years in recent memory, I am both encouraged and dissatisfied by 2023. The year presented an extraordinary set of challenges including persistent inflationary pressures, wavering consumer confidence, and industry-wide inventory imbalances that weighed heavily on wholesale demand across our brand portfolio. While these headwinds led to disappointing operating results, I was encouraged by the way our team navigated this complex landscape with unwavering determination, helping to build positive momentum as the year progressed. Importantly, we weren't content to wait for the environment to turn, but rather focused on the items within our control to improve the underlying drivers of future success. We pushed forward a number of key initiatives in the year, including making significant marketing, operational efficiency and financial flexibility investments that transformed Rocky Brands as a leaner, more dynamic competitor poised to take advantage of an improving landscape. While our 2023 results ultimately fell short of expectations, our work this year has created a solid foundation for the next stage of profitable and sustainable growth which fills me with a great deal of optimism about the future of our company.

Looking at our results by channel, overall, our teams weathered the 2023 operating environment admirably. In the wholesale channel, the largest segment of our business, industry-wide excess inventories exerted substantial pressure on sales,

particularly during the first half of the year. However, as major accounts gradually normalized their inventory positions, we experienced an acceleration in at-once orders and a moderation in year-over-year sales declines towards the latter part of the year. This momentum underscored the enduring appeal of our authentic and innovative brand portfolio among consumers, as evidenced by robust sell-through performance across key categories.

While the persistent consumer demand was tempered by industry dynamics in the wholesale channel, it translated more directly in our retail channel, where we achieved low single-digit sales growth on the year. Our direct ecommerce business served as a key catalyst, with each of our branded websites experiencing strong traffic and sales growth, fueled by enhanced digital marketing initiatives that deepened our connection with our consumers. The insights and connections gained through these initiatives position us favorably for continued growth and margin expansion in the years ahead.

Examining the performance of our largest segments and brands, we witnessed resilient consumer brand interest, complemented by strategic pricing actions that drove improving trends as the year progressed. Our iconic Georgia Boot brand, at the core of our work category, regained momentum following a slow start, bolstered by successful new product launches and strategic pricing actions that enhanced accessibility. Our rubber footwear lines, anchored by the Muck and XTRATUF brands, proved to be pillars of consistency throughout 2023. The Muck brand's reinvigoration, highlighted by a targeted marketing campaign, drove impressive consumer engagement metrics, positioning the brand for

JASON BROOKS - CEO

TOM ROBERTSON - COO/CFO

continued growth. Meanwhile, XTRATUF capitalized on its surging brand presence, leaving us struggling to meet the accelerating demand for this fast-growing outdoor lifestyle cornerstone by year-end. Within our Western business, the Durango brand stabilized after a challenging start, closing the year with notable strength. Our Rocky Commercial military was a bright spot for the year. Orders from suppliers of the U.S. Army drove impressive sales growth for the year and as we head into 2024.

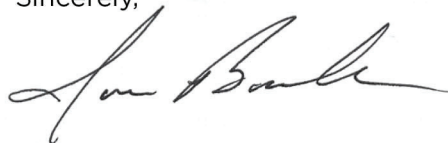

Beyond these improving channel, segment, and brand trends, 2023 was most defined by our actions to fortify our financial foundation and our continued efforts to enhance operational efficiency. We strategically reduced inventories by 28% and brought total debt levels down by more than 33% compared to 2022 year-end levels, significantly enhancing our financial flexibility to invest in future growth initiatives. We also took deliberate steps to streamline and bolster our manufacturing capabilities while simultaneously sharpening our fulfillment processes. These actions will enable greater fulfillment speed, better service, and better translation of sales growth into earnings growth going forward.

As we look ahead to 2024, I am optimistic that the improving trends that accelerated in the back-half of 2023 can continue to build momentum in the year ahead. Excess wholesale inventory levels are selectively clearing and continue to improve, consumer demand remains robust for our category-leading work, western, and outdoor footwear collections, and importantly, we have enhanced

the operating profile of our company to capitalize on these improving trends. Combined with our efforts to strengthen our product innovation, brand positioning, and consumer connections this year, I believe we are well-positioned to unlock new potential from our powerful multi-brand portfolio in 2024.

In closing, I extend my sincere gratitude to the entire Rocky Brands team for their resilient efforts and unwavering dedication that enabled us to navigate another challenging year. In the face of continued headwinds, they banded together, took decisive actions, and never lost sight of our long-term vision and potential. I also thank you, our valued shareholders, for your continued support and confidence in Rocky Brands. We begin 2024 as a stronger, more formidable company, better equipped to capitalize on the opportunities that lie ahead. I look forward to another year of significant progress toward our goal of long-term profitable and sustainable growth.

Sincerely,

Jason Brooks

Chairman, President, and Chief Executive Officer

This Annual Report on Form 10-K contains forward-looking statements within the meaning of Section 21E of the Securities Exchange Act of 1934, as amended, and Section 27A of the Securities Act of 1933, as amended. The words "anticipate," "believe," "expect," "estimate" and "project" and similar words and expressions identify forward-looking statements which speak only as of the date hereof. Investors are cautioned that such statements involve risks and uncertainties that could cause actual results to differ materially from historical or anticipated results due to many factors, including, but not limited to, the factors discussed in "Item 1A, Risk Factors." The Company undertakes no obligation to publicly update or revise any forward-looking statements.

PART I

ITEM 1. BUSINESS.

All references to "we," "us," "our," "Rocky Brands," or the "Company" in this Annual Report on Form 10-K mean Rocky Brands, Inc. and our subsidiaries.

We are a leading designer, manufacturer and marketer of premium quality footwear and apparel marketed under a portfolio of well recognized brand names including Rocky, The Original Muck Boot Company ("Muck"), Georgia Boot, Durango, XTRATUF, Lehigh, Ranger and the licensed brand Michelin. Our brands have a long history of representing high quality, comfortable, functional, and durable footwear and our products are organized around six target markets: outdoor, work, duty, commercial military, military and western. Our footwear products incorporate varying features and are positioned across a range of suggested retail price points from \$45.00 for our value priced products to \$655.00 for our premium products. In addition, as part of our strategy of outfitting consumers from head-to-toe, we market complementary branded apparel and accessories that we believe leverage the strength and positioning of each of our brands.

We report our segment information in accordance with provisions of the Financial Accounting Standards Board ("FASB") Accounting Standards Codification ("ASC") Topic 280, Segment Reporting and each of our reporting segments continue to employ consistent accounting policies. See Note 19 of our Consolidated Financial Statements for further information.

The Company's portfolio of brands is organized into the following reportable segments, in which our products are distributed:

- Wholesale
- Retail
- Contract Manufacturing

Wholesale

We distribute Rocky, Muck, Georgia Boot, Durango, XTRATUF, Lehigh, Ranger and Michelin products through a wide range of wholesale distribution channels throughout the world. Our Wholesale channels vary by product line and include sporting goods stores, outdoor retailers, independent shoe retailers, hardware stores, catalogs, mass merchants, uniform stores, farm store chains, specialty safety stores, specialty retailers and online retailers. As of December 31, 2023, our products were offered for sale at over 10,000 retail locations in the U.S. and Canada as well as several international markets, such as Europe.

We sell to wholesale accounts in the U.S. through the use of a dedicated in-house sales team, and exclusive, as well as independent, sales representatives who carry our branded products and other non-competing products. Our sales force is organized around major accounts, including Boot Barn, Tractor Supply Company and Amazon, and around our target markets: outdoor, work, duty, commercial military, and western. Our sales force is also organized around brands, regions and customers in order to target a broad range of distribution channels. All of our sales people actively call on their retail customer base to educate them on the quality, comfort, technical features and breadth of our product lines and to ensure that our products are displayed effectively at retail locations.

Our Wholesale distribution channels vary by market:

- Our outdoor products are sold primarily through sporting goods stores, outdoor specialty stores, online retailers, catalogs and mass merchants;
- Our work-related products are sold primarily through work-related retailers, farm and ranch stores, specialty safety stores, independent shoe stores, hardware stores and online retailers;
- Our duty products are sold primarily through uniform stores, catalog specialists and online retailers;

- Our commercial military products are sold primarily through base exchanges, such as the Army Air Force Exchange Store (AAFES), and consumer e-commerce websites; and
- Our western products are sold through western stores, work stores, specialty farm and ranch stores, online retailers, and fashion-oriented footwear retailers.

Retail

We market products directly to consumers through three retail strategies:

- Lehigh business-to-business including direct sales and through our CustomFit websites;
- Consumer e-commerce websites (B2C) and third-party marketplaces; and
- Brick and Mortar Stores, which include our outdoor gear and retail store.

Lehigh

We sell our Lehigh brand of safety shoes along with in-house and third-party branded work product to our business customers directly through our CustomFit websites, that are tailored to the specific needs of our customers. Our customers' employees order directly through their employers' established CustomFit website, and the footwear is delivered directly to the customer via a common freight carrier.

Websites

We sell our product lines on our websites at *rockyboots.com*, *georgiaboot.com*, *durangoboot.com*, *muckbootcompany.com*, *xtratuf.com*, *lehighoutfitters.com*, *lehighsafetyshoes.com* and *slipgrips.com*, as well as through online marketplaces. We believe that our internet presence allows us to showcase the breadth and depth of our product lines in each of our target markets and enables us to educate our consumers about the unique technical features of our products.

Outdoor Gear and Retail Store

We operate the Rocky Outdoor Gear Store in Nelsonville, Ohio. Our outdoor gear store primarily sells first quality current and discontinued products in addition to a limited amount of factory damaged goods. Related products from other manufacturers are also sold in the store. Our outdoor gear store allows us to showcase the breadth of our product lines as well as to cost-effectively sell slow-moving inventory. Our outdoor gear store also provides an opportunity to interact with consumers to better understand their needs. Additionally, Lehigh has one retail store located at the Puget Sound Naval Base where we sell select product directly to customers.

Contract Manufacturing

While we are focused on continuing to build our Wholesale and Retail business, we also actively bid, from time to time, on eligible footwear contracts with the U.S. Military. In addition to contracts with the U.S. Military, we bid on private label contracts. Our sales under such contracts are dependent on us winning the bids for these contracts.

In 2023, we fulfilled two multi-year contracts for the U.S. Military. We expect to continue to actively bid on U.S. Military contracts.

Brands and Product Lines

Our products are marketed under eight well-recognized, proprietary brands: Rocky, Muck, Georgia Boot, Durango, XTRATUF, Lehigh and Ranger, in addition to the licensed brand Michelin.

Rocky

Rocky, established in 1979, is our premium priced line of branded footwear, apparel and accessories. We currently design Rocky products for each of our six target markets and offer our products at a range of suggested U.S. retail price points: \$92.00 to \$405.00 for our footwear products; and \$18.00 to \$160.00 for our apparel and accessory lines.

The Rocky brand originally targeted outdoor enthusiasts, particularly hunters, and has since become a market leader in the hunting boot category. In 2002, we also extended into hunting apparel, including jackets, pants, gloves and caps. Our Rocky products for hunters and other outdoor enthusiasts are designed for specific weather conditions and the diverse terrains of North America. These products incorporate a range of technical features and designs such as waterproof breathable fabric, 3M Thinsulate insulation, nylon Cordura fabric and camouflaged uppers featuring either Venator, Mossy Oak or Realtree patterns. We use rugged outsoles made by industry leaders like Vibram, as well as our own proprietary design features, to make the products durable and easy to wear.

We also produce Rocky duty and commercial military, public service footwear targeting law enforcement professionals, military, security workers, fire industry professionals and postal service employees, and we have established leading market share positions in these categories.

In 2002, we introduced Rocky work footwear designed for varying weather conditions or difficult terrain, particularly for people who make their living outdoors such as those in lumber, forestry, and oil & gas occupations. These products typically include many of the proprietary features and technologies that we incorporate in our hunting and outdoor products.

We have also introduced western influenced work boots for farmers and ranchers. Most of these products are waterproof, insulated and utilize our proprietary comfort systems.

Muck

Muck was founded in 1999 and has pioneered the premium rubber and neoprene boot category by delivering high quality, innovative, weatherproof and comfortable products. Our current line of Muck footwear products is offered at suggested U.S. retail price points ranging from \$55.00 to \$265.00. Through widespread consumer validation in the farm, agriculture, hunt and equestrian segments, Muck has been able to expand to new segments such as outdoor, gardening, industrial and general work, as well as to new international regions such as the U.K., Norway and Germany to reach new consumers who have adopted the brand and its offerings. Both new and existing consumer groups have welcomed line extensions from the brand as the total catalog expands beyond its core offering into premium leather and other new footwear categories.

Georgia Boot

Georgia Boot was launched in 1937 and is our moderately priced, high quality line of work and rugged lifestyle footwear. Georgia Boot footwear is sold at suggested U.S. retail price points ranging from \$76.00 to \$292.00. This line of products primarily targets blue collar workers across various trades, including construction, logging, warehousing, landscaping and farming. Many of our boots incorporate safety toes and non-slip outsoles to prevent injuries in the workplace. We also offer other more specialized protective features, such as puncture resistance, as well as metatarsal guards that protect wearers' feet from heavy objects. Each boot is designed to meet the demands of specific trades while also integrating cutting-edge technology and materials to create the most comfortable and durable footwear that is tough enough to handle the rigors found on job sites across America.

Durango

Durango Boots was established in 1966 and manufactures premium western footwear for men, women and kids. Over the last 50 years, Durango has earned a reputation for building authentic western boots using exceptional materials and innovative constructions. Our current line of Durango products is offered at suggested U.S. retail price points ranging from \$120.00 to \$655.00. Our brand portfolio categories include work-western, farm and ranch, western-performance, premium exotics, fashion-forward and casual wear.

Many of our western products are marketed to core western and aspirational western consumers who have an affinity and loyalty to the western lifestyle. Such products include high-performance technologies that include our patented Dually Shank System which provides twice the torsion stability and midfoot support and various footbeds that offer flexibility, comfort and support for immediate gratification.

XTRATUF

Since the early 1950s, XTRATUF has been a leading outfitter in the commercial, sport, and recreational fishing segment, having provided fishermen with capable, comfortable and reliable footwear for use in the harshest conditions. With roots in Alaska and continued widespread use by those who live there, the XTRATUF brand has been able to expand to other regions throughout North America and most recently in the U.K. and Japan. Fueled by the strong growth in the outdoor segment; particularly white boat lifestyle and sport fishing, the brand has been adopted by non-fishermen seeking quality, functional footwear. Our current line of XTRATUF footwear products is offered at suggested U.S. retail price points ranging from \$45.00 to \$195.00.

Lehigh

The Lehigh brand was established in 1922 as a high-quality line of occupational safety footwear that later expanded into a full-service program offering. While still manufacturing and selling branded core product, the brand primarily focuses on providing managed programs to corporations that require and provide a subsidy to their employees to wear safety footwear. Most of the footwear incorporates a protective toe and can include a metatarsal guard, puncture-resistant, slip-resistant outsole and special materials to combat caustic substances. Lehigh offers an extensive selection of styles to fit any work environment. Lehigh's unique business model provides companies with customizations to fit their needs and digital tools for greater visibility and control of their program. As the established leader in the industry, Lehigh introduced and utilizes 3DFit technology and wellness foot products as a way to elevate safety and improve productivity. By providing an accurate fit, body aligning orthotics and anti-fatigue compression, Lehigh helps companies go beyond accident protection to full body wellness protection. Lehigh provides and improves safety and health to a wide range of customer accounts in the industrial, distribution, hospitality and healthcare industries.

The Lehigh brand line of safety shoes has suggested U.S. retail price points ranging from \$91.00 to \$274.00.

Ranger

Ranger primarily serves the outdoor recreational market and offers a range of pac-boots that are built for wet and cold weather that provide exceptional comfort and function at a value price. Our current line of Ranger footwear products is offered at suggested U.S. retail price points ranging from \$74.00 to \$100.00.

Michelin

Michelin is a premier price point line of work footwear targeting specific industrial professions, primarily indoor professions. The license to design, develop and manufacture footwear under the Michelin name was secured in 2006. Suggested U.S. retail prices for the Michelin brand are from \$157.00 to \$237.00. The license agreement for the Michelin brand expires on December 31, 2025, with the option to renew.

Product Lines

Our brands are organized into six distinct product lines, which consist of high-quality products that target the following markets:

- *Outdoor.* Our outdoor product line consists of footwear, apparel and accessory items marketed to outdoor enthusiasts who spend time actively engaged in activities such as hunting, fishing, camping and hiking. Our consumers demand high quality, durable products that incorporate the highest level of comfort and the most advanced technical features, and we are committed to ensuring our products reflect the most advanced designs, features and materials available in the marketplace. Our outdoor product lines consist of all-season sport/hunting and fishing footwear, apparel and accessories that are typically waterproof and insulated and are designed to keep outdoor enthusiasts comfortable on rugged terrain or in extreme weather conditions.
- *Work.* Our work product line consists of footwear and apparel marketed to industrial and construction workers, as well as workers in the hospitality industry, such as restaurants or hotels and those who partake in farm and ranch work. All of our work products are specially designed to be comfortable, incorporate safety features for specific work environments or tasks and meet applicable federal and other standards for safety. This category includes products such as safety toe footwear for industrial and construction workers and non-slip footwear for hospitality workers.
- *Western.* Our western product line currently consists of authentic footwear products marketed to farmers and ranchers who generally live in rural communities in North America. In addition, we have western styles that are marketed for fashion and casual wear.
- *Duty.* Our duty product line consists of footwear products marketed to law enforcement, security personnel and postal employees who are required to spend a majority of their time at work on their feet. All of our duty footwear styles are designed to be comfortable, flexible, lightweight, slip resistant and durable. Duty footwear is generally designed to fit as part of a uniform and typically incorporates stylistic features, such as black leather uppers in addition to the comfort features that are incorporated in all of our footwear products.

- *Commercial Military.* Our commercial military product line consists of footwear products marketed to military personnel as a substitute for the government issued military boots. Our commercial military boots are designed to be comfortable, lightweight, and durable and are marketed under the Rocky brand name.
- *Military.* Our military product line consists of footwear products designed specifically for U.S. Military personnel. These footwear products are designed and manufactured to meet rigorous specification requirements, which include lightweight, durable, waterproof footwear products manufactured in the U.S. The U.S. Military products are marketed under the Rocky brand name.

Competitive Strengths

Our competitive strengths include:

- *Strong portfolio of brands.* We believe the Rocky, Muck, Georgia Boot, Durango, XTRATUF, Lehigh, Ranger and Michelin brands are well recognized and established names that have a reputation for performance, quality and comfort in the markets they serve: outdoor, work, western, duty, commercial military and military. We plan to continue strengthening these brands through product innovation in existing footwear markets, by extending certain of these brands into our other target markets and by introducing complementary apparel and accessories under our own brands.
- *Commitment to product innovation.* We believe a critical component of our success in the marketplace has been a result of our continued commitment to product innovation. Our consumers demand high quality, durable products that incorporate the highest level of comfort and the most advanced technical features and designs. We have a dedicated group of product design and development professionals, including well recognized experts in the footwear and apparel industries, who continually interact with consumers to better understand their needs and are committed to ensuring our products reflect the most advanced designs, features and materials available in the marketplace.
- *Long-term retailer relationships.* We believe that our long history of designing, manufacturing and marketing premium quality, branded footwear has enabled us to develop strong relationships with our retailers in each of our distribution channels. We reinforce these relationships by continuing to offer innovative footwear products, by continuing to meet the individual needs of each of our retailers and by working with our retailers to improve the visual merchandising of our products in their stores. We believe that strengthening our relationships with retailers will allow us to increase our presence through additional store locations and expanded shelf space, improve our market position in a consolidating retail environment and enable us to better understand and meet the evolving needs of both our retailers and consumers.
- *Diverse product sourcing and manufacturing capabilities.* We believe our strategy of utilizing both company operated and third-party facilities for the sourcing of our products offers several advantages. Operating our own facilities significantly improves our knowledge of the entire production process, which allows us to more efficiently source product from third parties that is of the highest quality and at the lowest cost available. We intend to continue to source a higher proportion of our products from third-party manufacturers, which we believe will enable us to obtain high quality products at lower costs per unit.

Growth Strategy

We intend to increase our sales through the following strategies:

- *Expand into new target markets under existing brands.* We believe there is significant opportunity to extend certain of our brands into our other target markets. We intend to continue to introduce products across varying feature sets and price points in order to meet the needs of our customers.
- *Cross-sell our brands to our retailers.* We believe that many retailers of our brands target consumers with similar characteristics and, as a result, we believe there is significant opportunity to offer each of our retailers a broader assortment of footwear and apparel that target multiple markets and span a range of feature sets and price points.
- *Expand business internationally.* We intend to extend certain of our brands into international markets. We believe this is a significant opportunity because of the long history and authentic heritage of these brands. We intend to grow our business internationally through a network of distributors.

- *Grow our e-commerce business.* We intend to drive business to our branded e-commerce websites as well as third-party marketplace platforms. We believe there is an opportunity to capitalize on the changes in the market to online shopping as we focus advertising efforts and maximize our distribution capabilities.
- *Increases in our Lehigh business.* We believe that our business-to-business CustomFit platform has ample opportunity to grow as we continue to pursue large manufacturers, distributors, and other companies who are reliant on safety footwear programs. We feel that diversifying our product lines and continuing to provide an easy, no hassle approach to purchasing will allow us to expand within the market.
- *Acquire or develop new brands.* We intend to continue to acquire or develop new brands that are complementary to our portfolio and could leverage our operational infrastructure and distribution network.

Marketing and Advertising

We believe that our brands have a reputation for high quality, comfort, functionality and durability built through their long history in the markets they serve. To further increase the strength and awareness of our brands, we have developed comprehensive marketing and advertising programs to gain national exposure and expand brand awareness for each of our brands in their target markets.

We have focused the majority of our advertising efforts on both digital advertising and consumer advertising in support of our retail partners. Digital advertising includes online brand level marketing, search engine pay-per-click, retargeting and social media targeting. A key component to supporting our retail partners includes in-store point of purchase materials that add a dramatic focus to our brands and the products our retail partners carry. We also advertise through targeted national and local cable programs, radio advertisements and print publications aimed at audiences that share the demographic profile of our typical customers. In addition, we promote through event sponsorships which provide significant national exposure for all of our brands as well as a direct connection to our target consumer. Our print advertisements and television commercials emphasize the technical features of our products as well as their high quality, comfort, functionality and durability.

We also support independent dealers by listing their locations in our national print advertisements. In addition to our national advertising campaigns, we have developed attractive merchandising displays and store-in-store concept fixturing that are available to our retailers who purchase the breadth of our product lines. We also attend numerous tradeshows which allow us to showcase our entire product line to retail buyers and have historically been an important source of new accounts.

Product Design and Development

We believe that product innovation is a key competitive advantage for us in each of our markets. Our goal in product design and development is to continue to create and introduce new and innovative footwear and apparel products that combine our standards of quality, functionality and comfort and that meet the changing needs of our retailers and consumers. Our product design and development process is highly collaborative and is typically initiated both internally by our development staff and externally by our retailers and suppliers, whose employees are generally active users of our products and understand the needs of our consumers. Our product design and development personnel, marketing personnel and sales representatives work closely together to identify opportunities for new styles, patterns, design improvements and newer, more advanced materials. We have a dedicated group of product design and development professionals, some of whom are well recognized experts in the footwear and apparel industries, who continually interact with consumers to better understand their needs and are committed to ensuring our products reflect the most advanced designs, features and materials available in the marketplace.

Manufacturing and Sourcing

We manufacture footwear in facilities that we own and operate in the Dominican Republic, Puerto Rico, and Chuzhou, China and source footwear, apparel and accessories from third-party facilities in China, Vietnam, India, Dominican Republic and Mexico. We do not have long-term contracts with any of our third-party manufacturers. We believe that operating our own facilities significantly improves our knowledge of the entire raw material sourcing and manufacturing process, which enables us to more efficiently source finished goods from third parties that are of the highest quality and at the lowest cost available, as well as reduce our lead times. In addition, our Puerto Rico facility allows us to produce footwear for the U.S. Military and other commercial businesses that require production by a U.S. manufacturer. Sourcing products from offshore third-party facilities generally enables us to lower our costs per unit while maintaining high product quality and limits the capital investment required to establish and maintain company operated manufacturing facilities. Because quality is an important part of our value proposition to our retailers and consumers, we source products from manufacturers who have demonstrated the intent and ability to maintain the high quality that has become associated with our brands.

Quality control is stressed at every stage of the manufacturing process and is monitored by trained quality assurance personnel at each of our manufacturing facilities, including our third-party factories. In addition, we utilize a team of procurement, quality control and logistics employees in our China office and a third-party quality control service provider to visit factories to conduct quality control reviews of raw materials, work in process inventory and finished goods. We also utilize quality control personnel at our finished goods distribution facilities to conduct quality control testing on incoming sourced finished goods and raw materials and inspect random samples from our finished goods inventory from each of our manufacturing facilities to ensure that all items meet our high-quality standards.

Foreign Operations and Sales Outside of the U.S.

Our products are primarily distributed in the U.S., Canada, U.K. and other international markets, mainly in Europe. We ship our products from our finished goods distribution facilities located in Ohio and Nevada. Certain of our retailers receive shipments directly from our manufacturing sources, including all of our U.S. Military sales, which are shipped directly from our manufacturing facility in Puerto Rico. Net sales to foreign countries represented approximately 5.1% of net sales in 2023 and 6.2% of net sales in 2022.

As previously mentioned, we maintain manufacturing facilities that we operate in the Dominican Republic and Chuzhou, China. In addition, we utilize an office in China to support our contract manufacturers.

The net book value of fixed assets located outside of the U.S. totaled \$11.9 million at December 31, 2023, of which approximately \$3.9 million resides in the Dominican Republic and approximately \$8.0 million resides in China.

Resources and Suppliers

We purchase raw materials from sources worldwide. We do not have any long-term supply contracts for the purchase of our raw materials, except for limited blanket purchase orders on leather to protect wholesale selling prices for an extended period of time. The principal raw materials used in the production of our products, in terms of dollar value, are leather, Gore-Tex waterproof breathable fabric, Cordura nylon fabric and soling materials. We believe these materials will continue to be available from our current suppliers. However, in the event these materials are not available from our current suppliers, we believe these products, or similar products, would be available from alternative sources.

Seasonality and Weather

Historically, we have experienced significant seasonal fluctuations in our business as many of our footwear products are used by consumers in adverse weather conditions. In order to meet these demands, we must manufacture and source footwear year-round to be in a position to ship advance and at-once orders for these products during the last two quarters of each year. Accordingly, average inventory levels have been highest during the second and third quarters of each year and sales have been highest in the last two quarters of the year. In addition, mild or dry weather conditions historically have had a material adverse effect on sales of our outdoor products, particularly if they occurred in broad geographical areas during late fall or early winter.

Backlog

The dollar amount of our order backlog as of any date may not be indicative of actual future shipments and, accordingly, is not material to an understanding of the business taken as a whole.

Intellectual Property

We rely on a combination of our trademarks, patents, trade dress, and other intellectual property rights, as well as contractual provisions to protect our brands, product designs, technology, marketing materials, and other proprietary research and development, although no such methods can afford complete protection. We own numerous design and utility patents for footwear and footwear components (such as insoles and outsoles) in the U.S. and in several countries where our products are sold or manufactured, including China. We own numerous U.S. and foreign registrations for the patents and trademarks used in our business, including our major brands Rocky, Muck, Georgia Boot, Durango, XTRATUF, Lehigh, and Ranger. In addition, we license the use of third-party trademarks, including Gore-Tex and Michelin, in order to market our products.

Our license with W. L. Gore & Associates, Inc. ("Gore") permits us to use the Gore-Tex and related marks on products and styles that have been approved in advance by Gore. The license agreement has a one-year term that automatically renews each year, unless either party elects to terminate by giving advance written notice to the other party by October 1 for termination effective December 31 of that same year.

Similarly, our license with Michelin Lifestyle Limited permits us to use the Michelin brand and related marks on our products. Our license agreement with Michelin Lifestyle Limited to use the Michelin name expires on December 31, 2025, with the option to renew.

In the U.S. and China, our design patents are generally in effect for 15 years from the date of issuance. Our utility patents are generally in effect for 20 years from the date of the filing of the patent application. Our trademarks are generally valid as long as they are in use and their registrations are properly maintained.

While we have an active program to protect our intellectual property by filing for patents and trademark registrations, we do not believe that our overall business is materially dependent on any individual patent or trademark. We are not aware of any material infringement of our intellectual property rights or that we are infringing any intellectual property rights owned by third parties. Moreover, we are not aware of any material conflicts concerning our trademarks or those owned by others. We actively enforce our trademarks and patents, and pursue those who infringe upon them, whether domestically or internationally, as we deem appropriate.

Competition

We operate in a very competitive environment. Product function, design, comfort, quality, technological and material improvements, brand awareness, timeliness of product delivery and pricing are all important elements of competition in the markets for our products. We believe that the strength of our brands, the quality of our products and our long-term relationships with a broad range of retailers allow us to compete effectively in the footwear and apparel markets that we serve. However, we compete with footwear and apparel companies that have greater financial, marketing, distribution and manufacturing resources than we do. In addition, many of these competitors have strong brand name recognition in the markets they serve.

The footwear and apparel industry is also subject to rapid changes in consumer preferences. Some of our product lines are susceptible to changes in both technical innovation and fashion trends. Therefore, the success of these products and styles are more dependent on our ability to anticipate and respond to changing product, material and design innovations, as well as fashion trends and consumer demands in a timely manner. Our inability or failure to do so could adversely affect consumer acceptance of these product lines and styles and could have a material adverse effect on our business, financial condition and results of operations.

Human Capital

At December 31, 2023, we had approximately 2,100 employees of which approximately 2,060 are full time employees. Approximately 1,600 of our employees work in our manufacturing facilities in the Dominican Republic, Puerto Rico and Chuzhou, China. We believe our relations with our employees are in good standing.

Employee Well Being

Founded from the humble beginnings of a small, family owned business, our employees have always been the key to making our Company successful. As such, we believe that fostering an environment that advocates for all areas of employee health (including physical, mental and emotional) is crucial. We offer a tuition assistance reimbursement program and an employee assistance program, which can assist employees in various aspects of their personal life and overall well-being. We also encourage our employees to take continuing education classes that will aid in their day-to-day work responsibilities and we promote a healthy lifestyle through monthly newsletters and various health focused events throughout the year.

The health and safety of our employees is one of our highest priorities. Our Health and Wellness Committee strives to educate our employees on the importance of taking care of yourself both inside and outside the workplace. Throughout the year we contract with various health and wellness professionals outside of our organization to hold educational sessions for our employees both in-person and virtually. Nothing is more fundamental than providing our employees with an environment where they feel safe, secure and supported.

Talent Recruitment, Retention and Development

Our employee culture is built on our core values of integrity, responsibility and humility. The ability to attract, retain and develop talented employees is crucial to our long-term success. We focus on attracting, developing and retaining highly talented individuals through practices that promote inclusion, diversity and equality. We recruit through a variety of outreach methods including our rockybrands.com/careers website and other online platforms, such as LinkedIn, college recruitment efforts, network relationships and direct communication with career centers. When new employment opportunities within our Company arise, we send out internal communications to inform all associates of new openings. We review internal applications for consideration before considering external applicants.

We strive to maximize engagement with our employees in a variety of ways, including scheduled meetings between employees and executive leadership within the first few months of employment, face-to-face and virtual interviews with employees following 60 days and one year of employment, annual performance evaluations, regular check-in surveys and exit surveys. We also rely on our management team to influence growth and develop a path for success with employees on each team within our organization. Quarterly, our CEO and COO hold all-employee communication meetings to keep our employees apprised of recent happenings within our organization and to allow employees a forum for their voice to be heard.

We are committed to having a diverse and inclusive workforce which is reflected in a wide range of cultures, religions, ethnicities and nationalities as well as varied professional and educational backgrounds. We believe that the inclusion of diverse perspectives results in better outcomes and policies. We aim to foster an inclusive workplace through recruitment and development efforts, and through the retention of diverse talent with a goal of expanding representation across all dimensions of equality and inclusion. We strive to provide an environment that allows our employees to bring their authentic selves to work every day, and we are committed to fostering a workplace that is free of discrimination, harassment, and which promotes allyship, advocacy and an overall sense of belonging.

Compensation and Benefits

Our compensation structure is set up to reward employees for performance. We regularly evaluate employee compensation to ensure it is competitive and in-line with market benchmarks and to reward employees who perform at a high level. We offer comprehensive benefit programs to our employees including medical, dental and vision. We also provide a 401(k) match and safe harbor contribution, paid time off, including maternal and paternal leave, life insurance and long-term and short-term disability.

Available Information

As required by the Securities Exchange Act of 1934, as amended (the "Exchange Act"), we file annual, quarterly and current reports, proxy statements and other information with the Securities and Exchange Commission ("SEC"). The SEC maintains a website that contains information about issuers, like us, who file electronic reports with the SEC. The address of the SEC's website is www.sec.gov. In addition, we make available free of charge on our corporate website, www.rockybrands.com, our annual report on Form 10-K, quarterly reports on Form 10-Q, current reports on Form 8-K and, if applicable, amendments to those reports filed or furnished pursuant to Section 13(a) or 15(d) of the Exchange Act as soon as reasonably practicable after such reports are electronically filed with or furnished to the SEC. Except as specifically incorporated by reference into this Annual Report on Form 10-K, information on those websites is not part of this report.

ITEM 1A. RISK FACTORS.

An investment in our common stock is subject to certain risks inherent in our business. Before making an investment decision, investors should carefully consider the risks and uncertainties described below, together with all of the other information included or incorporated by reference in this Annual Report on Form 10-K. If any of the following risks occur, our business, results of operations, financial condition and cash flows could be materially and adversely affected. These described risks are not the only risks facing us. Additional risks and uncertainties not known to us or that we deem to be immaterial also may materially adversely affect our business, results of operations, financial condition and cash flows. If any of these risks were to materialize, the value of our common stock could decline significantly.

Business Risks

Expanding our brands into new footwear and apparel markets may be difficult and expensive, and if we are unable to successfully continue such expansion, our brands may be adversely affected, and we may not achieve our planned sales growth.

Our growth strategy is founded substantially on the expansion of our brands into new footwear and apparel markets. New products that we introduce may not be successful with consumers or one or more of our brands may fall out of favor with consumers. If we are unable to anticipate, identify or react appropriately to changes in consumer preferences, we may not grow as fast as we plan to grow or our sales may decline, and our brand image and operating performance may suffer.

Furthermore, achieving market acceptance for new products will likely require us to exert substantial product development and marketing efforts, which could result in a material increase in our operating expenses, and there can be no assurance that we will have the resources necessary to undertake such efforts. Material increases in our operating expenses could adversely impact our results of operations and cash flows.

We may also encounter difficulties in producing new products that we did not anticipate during the development stage. Our development schedules for new products are difficult to predict and are subject to change as a result of shifting priorities in response to consumer preferences and competing products. If we are not able to efficiently manufacture newly-developed products in quantities sufficient to support retail distribution, we may not be able to recoup our investment in the development of new products. Failure to gain market acceptance for new products that we introduce could impede our growth, reduce our profits, adversely affect the image of our brands, erode our competitive position and result in long term harm to our business.

A majority of our products are produced outside the U.S. where we are subject to the risks of international commerce and other international conditions.

A majority of our products are produced in China, the Dominican Republic, and Vietnam. Therefore, our business is subject to certain risks of doing business offshore including:

- the imposition of additional U.S. legislation and regulations relating to imports, including quotas, duties, taxes or other charges or restrictions;
- foreign governmental regulation and taxation, including tariffs, import and export controls and other non-tariff barriers;
- fluctuations in foreign exchange rates;
- changes in economic conditions, including expropriation and nationalization;
- transportation conditions and costs in the Pacific and Caribbean;
- changes in the political stability of these countries;
- labor disputes and other work stoppages or interruptions;
- changes in relationships between the U.S. and these countries; and
- the occurrence of contagious disease or illness.

Changes in any of these factors could materially increase our costs of products or cause us to experience delays and we may not be able to recover all of our cost increases or missed sales. If any of these factors were to render the conduct of business in these countries undesirable or impracticable, we would have to manufacture or source our products elsewhere. There can be no assurance that additional sources or products would be available to us or, if available, that these sources could be relied on to provide product at terms favorable to us. The occurrence of any of these developments could have a material adverse effect on our business, financial condition, results of operations and cash flows.

Our success depends on our ability to anticipate consumer trends.

Demand for our products may be adversely affected by changing consumer trends. Our future success will depend upon our ability to anticipate and respond to changing consumer preferences and technical design or material developments in a timely manner. The failure to adequately anticipate or respond to these changes could have a material adverse effect on our business, financial condition, results of operations and cash flows.

We depend on a limited number of suppliers for key production materials, and any disruption in the supply of such materials could interrupt product manufacturing and increase product costs.

We purchase raw materials from a number of domestic and foreign sources. We do not have any long-term supply contracts for the purchase of our raw materials, except for limited blanket orders on leather. The principal raw materials used in the production of our footwear, in terms of dollar value, are leather, Gore-Tex waterproof breathable fabric, Cordura nylon fabric and soling materials. Availability or change in the prices of our raw materials could have a material adverse effect on our business, financial condition, results of operations and cash flows.

Our ability to import products in a timely and cost-effective manner may also be affected by conditions at ports or issues that otherwise affect transportation and warehousing providers, such as fluctuations in freight costs, port and shipping capacity, labor disputes or severe weather due to climate change. These issues have in the past and may in the future delay importation of products or require us to locate alternative ports or warehousing providers to avoid disruption to customers. These alternatives may not be available on short notice or could result in higher costs, which could have an adverse impact on our business and financial condition.

The emergence or persistence of geopolitical instability may disrupt the global economy, the impacts of which may negatively impact our business, financial, condition and results of operations.

The emergence or persistence of geopolitical instability creates risks for disruptions in the global economy which may negatively impact our business, financial condition, and results of operations. Factors such as shipping disruptions in the Red Sea, uncertainties related to the political environment in China, and ongoing conflicts such as the war between Russia and Ukraine have adversely affected the global economy and contributed to geopolitical instability. While we have managed to navigate impacts from these conflicts thus far, the ongoing instability resulting from these disruptions or other future disruptions could potentially harm our business, financial condition, results of operations, supply chain, intangible assets, partners, customers, or employees, should tensions escalate. Moreover, an escalation of geopolitical tensions may lead to broader impacts, including but not limited to cyberattacks, supply chain and logistics disruptions, lower consumer demand, and changes to foreign exchange rates and interest rates. Any of these factors may adversely affect our business and supply chain.

Our outdoor and insulated products are seasonal and sales of such products are sensitive to weather conditions.

We have historically experienced significant seasonal fluctuations in our business because we derive a significant portion of our revenues from sales of our outdoor products. Many of our outdoor products are used by consumers in cold or wet weather. As a result, a majority of orders for these products are placed by our retailers in January through April for delivery in July through October. In order to meet demand, we must manufacture and source outdoor footwear year-round to be in a position to ship advance orders for these products during the last two quarters of each year. Accordingly, average inventory levels have been highest during the second and third quarters of each year and sales have been highest in the last two quarters of each year. There is no assurance that we will have either sufficient inventory to satisfy demand in any particular quarter or have sufficient demand to sell substantially all of our inventory without significant markdowns. Mild or dry weather has in the past and may in the future have a material adverse effect on sales of our products, particularly if mild or dry weather conditions occur in broad geographical areas during late fall or early winter. Climate change may exacerbate these conditions.

Our business could suffer if our third-party manufacturers violate labor, environmental or other applicable laws or fail to conform to generally accepted ethical standards.

We require our third-party manufacturers to meet our standards for working conditions and other matters before we are willing to place business with them. As a result, we may not always obtain the lowest cost production. Moreover, we do not control our third-party manufacturers or their respective business practices. If one of our third-party manufacturers violates generally accepted labor standards by, for example, using forced or indentured labor or child labor, failing to pay compensation in accordance with local law, failing to operate its factories in compliance with local safety regulations or diverging from other labor practices generally accepted as ethical, we likely would cease dealing with that manufacturer, and we could suffer an interruption in our product supply. Similarly, if one or more of our third-party manufacturers violate applicable environmental or other laws and regulations, we could suffer an interruption in our product supply. In addition, such actions by a manufacturer

could result in negative publicity and may damage our reputation and the value of our brand and discourage retail customers and consumers from buying our products.

The growth of our business will be dependent upon the availability of adequate capital.

The growth of our business will depend on the availability of adequate capital, which in turn will depend largely on cash flow generated by our business and the availability of equity and debt financing. We cannot assure that our operations will generate positive cash flow or that we will be able to obtain equity or debt financing on acceptable terms or at all. Our credit facilities contain provisions that restrict our ability to incur additional indebtedness or make substantial asset sales that might otherwise be used to finance our expansion. Security interests in substantially all of our assets, which may further limit our access to certain capital markets or lending sources, secure our obligations under our credit facilities. Moreover, the actual availability of funds under our credit facilities is limited to specified percentages of our eligible inventory and accounts receivable. Accordingly, opportunities for increasing our cash on hand through sales of inventory would be partially offset by reduced availability under our credit facilities. As a result, we may not be able to finance our current expansion plans.

Our current level of indebtedness could adversely affect our business by increasing our borrowing costs and decreasing our overall business flexibility.

Our current level of indebtedness could adversely affect our business by increasing our borrowing costs and decreasing our overall business flexibility. We have debt outstanding under two credit facilities, which contain customary restrictive covenants imposing operating and financial restrictions, including restrictions that may limit our ability to engage in certain actions that may be in our long-term best interests.

We must comply with the restrictive covenants contained in our credit facilities.

Our credit facilities require us to comply with certain financial restrictive covenants that impose restrictions on our operations, including our ability to incur additional indebtedness, make investments of other restricted payments, sell or otherwise dispose of assets and engage in other activities. Any failure by us to comply with the restrictive covenants could result in an event of default under those borrowing arrangements, in which case the lenders could elect to declare all amounts outstanding thereunder to be due and payable, which could have a material adverse effect on our financial condition. Our credit facilities contain restrictive covenants which requires us to maintain a maximum total average ratio and a minimum fixed charge coverage ratio.

Interest rate increases could adversely affect our financial results.

An increase in interest rates under our credit facilities would adversely affect our financial results, as our loan agreements provide for adjustments in our interest rates based on changes to the Secured Overnight Financing Rate (SOFR) and/or the prime rate.

We face intense competition, including competition from companies with significantly greater resources than ours, and if we are unable to compete effectively with these companies, our market share may decline and our business could be harmed.

The footwear and apparel industries are intensely competitive, and we expect competition to increase in the future. A number of our competitors have significantly greater financial, technological, engineering, manufacturing, marketing and distribution resources than we do, as well as greater brand awareness in the footwear market. Our ability to succeed depends on our ability to remain competitive with respect to the quality, design, price and timely delivery of products. Competition could materially adversely affect our business, financial condition, results of operations and cash flows.

Our financial success is influenced by the success of our customers, and the loss of a key customer could have a material adverse effect on our financial condition and results of operations.

Much of our financial success is directly related to the ability of our retailer and distributor partners to successfully market and sell our brands directly to consumers. If a retailer or distributor partner fails to satisfy contractual obligations or to otherwise meet our expectations, it may be difficult to locate an acceptable substitute partner. If we determine that it is necessary to make a change, we may experience increased costs, loss of customers, or increased credit or inventory risk. In addition, there is no guarantee that any replacement retailer or distributor partner will generate results that are more favorable than the terminated party. We currently do not have long-term contracts with any of our retailers. Sales to our retailers and distributors are generally on an order-by-order basis and are subject to rights of cancellation and rescheduling by our wholesale customers. We use the timing of delivery dates for our wholesale customer orders as a key factor in forecasting our sales and earnings for future periods. If any of our major customers experience a significant downturn in business or fail to remain committed to our products or brands, these customers could postpone, reduce, or discontinue purchases from us, which could result in us failing to meet our forecasted results. These risks have been exacerbated recently as our key retail customers are operating within a retail industry that continues

to undergo significant structural changes fueled by technology and the internet, changes in consumer purchasing behavior and a shrinking retail footprint. We may lose key retail and wholesale customers if they fail to manage the impact of the rapidly changing retail environment. Any loss of one of these key customers, the financial collapse or bankruptcy of one of these customers, or a significant reduction in purchases from one of these customers could result in a significant decline in sales, write-downs of excess inventory, or increased discounts to our customers, any of which could have a material adverse effect on our financial condition or results of operations.

Certain of our larger wholesale customers may develop and manufacture competing products under their own brands and reduce purchases of our branded products.

Certain of our larger wholesale customers may develop, and in certain cases have developed, products under their own brands that compete with our branded products. Wholesale customers who increase the concentration of their own brands may result in a reduction or elimination of purchases of our branded products, which could have a material adverse effect on our business, financial condition, results of operations and cash flows.

We currently manufacture a portion of our products, and we may not be able to do so in the future, at costs that are competitive with those of competitors who source their goods.

We currently plan to retain our internal manufacturing capability in order to continue benefiting from expertise we have gained with respect to footwear manufacturing methods conducted at our manufacturing facilities. We continue to evaluate our manufacturing facilities and third-party manufacturing alternatives in order to determine the appropriate size and scope of our manufacturing facilities. There can be no assurance that the costs of products that continue to be manufactured by us can remain competitive with products sourced from third parties.

We rely on our distribution centers in Ohio and Nevada and manufacturing facilities in the Dominican Republic, Puerto Rico, and China and if there is a natural disaster or other serious disruption at any of these facilities, we may be unable to deliver merchandise effectively to our retailers and consumers.

We rely on our distribution centers located in Ohio and Nevada and our manufacturing facilities in the Dominican Republic, Puerto Rico, and China. Any natural disaster or other serious disruption at any of these facilities due to fire, tornado, flood, terrorist attack or any other cause could damage our ability to manufacture our products, a portion of our inventory, or impair our ability to use our distribution center as a docking location for merchandise. Any of these occurrences could impair our ability to adequately supply our retailers and consumers and harm our operating results.

If our efforts to establish and protect our trademarks, patents and other intellectual property are unsuccessful, the value of our brands could suffer.

We regard certain of our footwear designs as proprietary and rely on patents to protect those designs. We believe that the ownership of patents is a significant factor in our business. Existing intellectual property laws afford only limited protection of our proprietary rights, and it may be possible for unauthorized third parties to copy certain of our footwear designs or to reverse engineer or otherwise obtain and use information that we regard as proprietary. If our patents are found to be invalid, however, to the extent they have served, or would in the future serve, as a barrier to entry to our competitors, such invalidity could have a material adverse effect on our business, financial condition, results of operations and cash flows.

We own U.S. registrations for many our trademarks, trade names and designs, including such marks as Rocky, Muck, Georgia Boot, Durango, XTRATUF, Lehigh and Ranger. Additional trademarks, trade names and designs are the subject of pending federal applications for registration. We also use and have common law rights in certain trademarks. Over time, we have increased distribution of our goods in several foreign countries. Accordingly, we have applied for trademark registrations in a number of these countries. We intend to enforce our trademarks and trade names against unauthorized use by third parties.

An impairment of intangibles, including goodwill, could have an adverse impact to the Company's results of operations.

The carrying value of intangibles represents the fair value of trade names and other acquired intangibles as of the acquisition date. Acquired intangibles expected to contribute indefinitely to the Company's cash flows are not amortized but must be evaluated by the Company at least annually for impairment. If the carrying amounts of one or more of these assets are not recoverable based upon discounted cash flow and market-approach analyses, the carrying amounts of such assets are impaired by the estimated difference between the carrying value and estimated fair value. An impairment charge could adversely affect the Company's results of operations.

Our success depends on our ability to forecast sales.

Our investments in infrastructure and product inventory are based on sales forecasts and are necessarily made in advance of actual sales. The markets in which we do business are highly competitive, and our business is affected by a variety of factors, including brand awareness, changing consumer preferences, product innovations, susceptibility to fashion trends, retail market conditions, weather conditions and economic conditions, and other factors. One of our principal challenges is to improve our ability to predict these factors in order to enable us to better match production with demand. In addition, our growth over the years has created the need to increase the investment in infrastructure and product inventory and to enhance our systems. To the extent sales forecasts are not achieved, costs associated with the infrastructure and carrying costs of product inventory would represent a higher percentage of revenue, which would adversely affect our business, financial condition, results of operations and cash flows.

Our dividend policy may change.

Although we have paid dividends to our shareholders, we have no obligation to continue doing so and may change our dividend policy at any time without notice to our shareholders. Holders of our common stock are only entitled to receive such cash dividends as our Board of Directors may declare out of funds legally available for such payments.

Industry Risks

Because the footwear market is sensitive to decreased consumer spending and slow economic cycles, if general economic conditions deteriorate, many of our customers may significantly reduce their purchases from us or may not be able to pay for our products in a timely manner.

The footwear industry has been subject to cyclical variation and decline in performance when consumer spending decreases or softness appears in the retail market. Many factors affect the level of consumer spending in the footwear industry, including:

- general business conditions;
- interest rates;
- the availability of consumer credit;
- weather;
- increases in prices of nondiscretionary goods;
- taxation; and
- consumer confidence in future economic conditions.

Consumer purchases of discretionary items, including our products, may decline during recessionary periods and also may decline at other times when disposable income is lower. A downturn in regional economies where we sell products also reduces sales.

The continued shift in the marketplace from traditional independent retailers to large mass merchandisers may result in decreased margins.

A continued shift in the marketplace from traditional independent retailers to large mass merchandisers has increased the pressure on many footwear manufacturers to sell products to these mass merchandisers at less favorable margins. Because of competition from large discount mass merchandisers, a number of our small retailing customers have gone out of business, and in the future more of these customers may go out of business, which could have a material adverse effect on our business, financial condition, results of operations and cash flows.

If we do not effectively respond to the shift of consumer shopping moving to online retailers, including third-party marketplaces, it may negatively impact our business.

The retail industry is rapidly changing and we must ensure we are evolving both our own online e-commerce websites and third-party marketplaces. We must also provide digital assistance to our wholesale customers to support their e-commerce websites. Failure to timely identify and effectively respond to the online trends of the retail industry could negatively impact our product reach and market share. We are making technology investments in our websites and mobile applications. If we are unable to improve or develop relevant technology in a timely manner, our ability to compete and our results of operations could be adversely affected.

General Risk Factors

Changes to U.S. tax, tariff and import/export regulations may have a negative effect on global economic conditions, financial markets and our business.

The current political climate has introduced greater uncertainty with respect to trade policies, tariffs and government regulations affecting trade between the U.S. and other countries. We source products from manufacturers located outside of the U.S., primarily in China and Vietnam. Major developments in tax policy or trade relations, such as the disallowance of tax deductions for imported products or the imposition of unilateral tariffs on imported products, could have a material adverse effect on our business, results of operations and liquidity.

There are risks, including stock market volatility, inherent in owning our common stock.

The market price and volume of our common stock have been, and may continue to be, subject to significant fluctuations. These fluctuations may arise from general stock market conditions, the impact of risk factors described in this Item 1A on our results of operations and financial position, or a change in opinion in the market regarding our business prospects or other factors, many of which may be outside our immediate control. Changes in the amounts and frequency of share repurchases or dividends also could adversely affect the value of our common stock.

Disruption of our information technology systems could adversely affect our business

Our information technology systems are critical to our business operations. Any interruption, unauthorized access, impairment or loss of data integrity or malfunction of these systems could severely impact our business, including delays in product fulfillment and reduced efficiency in operations. In addition, costs and potential problems and interruptions associated with the implementation of new or upgraded systems, or with maintenance or adequate support of existing systems, could disrupt or reduce the efficiency of our operations. Disruption to our information technology systems may be caused by natural disasters, accidents, power disruptions, telecommunications failures, acts of terrorism or war, denial-of-service attacks, computer viruses, physical or electronic break-ins, or similar events or disruptions. System redundancy may be ineffective or inadequate, and our disaster recovery planning may not be sufficient for all eventualities. Such failures or disruptions could prevent access to our online services and preclude retail transactions. System failures and disruptions could also impede the manufacturing and shipping of products, transactions processing and financial reporting. Additionally, we may be adversely affected if we are unable to improve, upgrade, maintain, and expand our technology systems.

Some of our employees are working remotely which could strain our information technology systems and impact business continuity plans. Remote work could also introduce operational risk such as, but not limited to, cyber security risks.

A cyber-security breach could have a material adverse effect on our business and reputation.

We rely heavily on digital technologies for the successful operation of our business, including electronic messaging, digital marketing efforts and the collection and retention of customer data and employee information. We also rely on third parties to process credit card transactions, perform online e-commerce and social media activities and retain data relating to our financial position and results of operations, strategic initiatives and other important information. Despite the security measures we have in place, our facilities and systems and those of our third-party service providers, may be vulnerable to cyber-security breaches, acts of vandalism, computer viruses, misplaced or lost data, programming and/or human errors or other similar events. Any misappropriation, loss or other unauthorized disclosure of confidential or personally identifiable information, whether by us or by our third-party service providers, could damage our reputation and our customers' willingness to purchase our products, which may adversely affect our business. In addition, we could incur liabilities and remediation costs, including regulatory fines, reimbursement or other compensatory costs, additional compliance costs, and costs for providing credit monitoring or other benefits to customers or employees affected. We maintain cyber risk insurance, but this insurance may not be sufficient to cover all of our losses from any future breaches of our systems.

Compliance with data privacy and marketing laws may subject us to increased additional costs, and our ability to effectively engage customers via personalized marketing may be impacted, all of which may have a material adverse effect on our business operations.

As data privacy and marketing laws change, we may incur additional costs to ensure we remain in compliance. If applicable data privacy and marketing laws become more restrictive at the federal or state level, our compliance costs may increase, our ability to effectively engage customers via personalized marketing may decrease, opportunities for growth may be curtailed by our compliance capabilities or reputational harm and the potential liability for security breaches may increase. We are also subject to U.S. and international data privacy and cybersecurity laws and regulations, which may impose fines and penalties for noncompliance and may have an adverse effect on our operations. For example, the European Union's General Data Protection Regulation (the "GDPR"), which became effective in May 2018, extends the scope of the European Union's data protection laws to all companies processing data of European Union residents, regardless of our location, and imposes significant new requirements on how we collect, processes and transfer personal data.

In addition, California adopted the California Consumer Privacy Act ("CCPA"), which became effective January 1, 2020 and limits how we may collect and use personal data. Various other states have followed with similar laws governing the collection and use of personal data. As a result, GDPR, CCPA and other state law compliance increased our responsibility and potential liability in relation to personal data that we process, and we may be required to put in place additional mechanisms to ensure compliance with the new data protection rules. Any failure to comply with these rules and related national laws of European Union member states, could lead to government enforcement actions and significant penalties and fines against us, and could adversely affect our business, financial condition, cash flows and results of operations. Continued compliance with the foregoing laws and regulations, as well as any new laws or regulations that may be enacted in the future, can be costly.

We are subject to certain environmental and other regulations.

Some of our operations use substances regulated under various federal, state, local and international environmental and pollution laws, including those relating to the storage, use, discharge, disposal and labeling of, and human exposure to, hazardous and toxic materials. Compliance with current or future environmental laws and regulations could restrict our ability to expand our facilities or require us to acquire additional expensive equipment, modify our manufacturing processes or incur other significant expenses. In addition, we could incur costs, fines and civil or criminal sanctions, or incur liability for third-party property damage or personal injury claims, or we could be required to incur substantial investigation or remediation costs if we were to violate or become liable under any environmental laws. Liability under environmental laws can be joint and several and without regard to comparative fault. There can be no assurance that violations of environmental laws or regulations have not occurred in the past and will not occur in the future as a result of our inability to obtain permits, human error, equipment failure or other causes, and any such violations could harm our business, financial condition, results of operations and cash flows.

Many governmental and regulatory bodies globally are implementing regulations to address the impacts of climate change. Compliance with these laws and regulations, whether mandated or voluntarily adopted by us, our suppliers, or third-party manufacturers, may lead to heightened costs across various aspects of our operations. These increased costs may encompass energy, production, transportation, raw materials, capital expenditures, as well as insurance premiums and deductibles. Such financial impacts have the potential to adversely affect our business, financial condition and results of operations. We maintain an ongoing assessment and monitoring processes to gauge the impact that future climate change disclosures, regulations, or industry standards, and international treaties may have on our business and results of operations.

We are subject to periodic litigation and other regulatory proceedings, which could result in the unexpected expenditure of time and resources.

We are a defendant from time to time in lawsuits and regulatory actions relating to our business and to our past operations. Due to the inherent uncertainties of litigation and regulatory proceedings, we cannot accurately predict the ultimate outcome of any such proceedings. An unfavorable outcome could have a material adverse impact on our business, financial condition and results of operations. In addition, regardless of the outcome of any litigation or regulatory proceedings, such proceedings are expensive and will require that we devote substantial resources and executive time to defend, thereby diverting management's attention and resources that are needed to successfully run our business.

Loss of services of our key personnel could adversely affect our business.

The development of our business has been, and will continue to be, dependent upon execution at all levels of our organization which requires an experienced and talented executive team. The loss of service of any of the executive officers or key employees could have an adverse effect on our business and financial condition. We have entered into employment agreements with several executive officers and key employees, and also offer compensation packages designed to attract and retain talent.

ITEM 1B. UNRESOLVED STAFF COMMENTS.

None.

ITEM 1C. CYBERSECURITY.

Risk Management & Strategy

Rocky Brands recognizes the critical importance of developing, implementing, and maintaining a robust information security program to safeguard our information systems and protect the confidentiality, integrity, and availability of our data. We have established information security programs and policies, including processes for identifying, assessing, and managing risks arising from cybersecurity threats. These processes involve regular assessments of our information systems and infrastructure to identify vulnerabilities and threats. We focus on executing a centralized information technology and cybersecurity program. Our Company-wide approach is to be positioned as one security program, one posture and one roadmap for the enterprise. This platform is administered across our departments by our cybersecurity team led by our Senior Vice President of Information Technology. Our information security programs and policies are aligned with those of the Center for Internet Security (CIS), Control Objectives for Information Technologies (COBIT), and National Institute of Standards Technology (NIST).

We are integrating our information security programs and cybersecurity risk management processes into our overall enterprise risk management (“ERM”) strategy. We are developing an entity-wide information technology ERM framework and will take steps to monitor, report on and communicate to stakeholders consistent with our ERM strategy. Recognizing the cybersecurity risk landscape is complex and ever evolving, we engage with a broad group of external experts and consultants, and auditors in evaluating and testing our information security programs. We leverage this specialized expertise to manage threat detection and response management, conduct regular audits and consult on our overall information security programs.

We are acutely aware of risks associated with third-party service providers and we incorporate cybersecurity into our third-party vendor management policy. We conduct thorough security assessment to determine the category of risk third parties pose to Rocky Brands, with a priority focus on vendors with products or services that will have access to private and sensitive information. Vendor assessments incorporate inputs, including for example, BitSight and Service Organization Control Type 2 (“SOC2”) information available for our third-party vendors. Our assessments and monitoring are designed to mitigate risks related to data breaches or other security incidents originating from third parties.

Although no cybersecurity incidents during the year ended December 31, 2023 had a material impact on our business strategy, results of operations or financial condition, the scope and impact of any future incident cannot be predicted. See Item 1A Risk Factors for more information about our information security and cybersecurity risks.

Governance

Our Board of Directors has established governance protocol over risk management, including general oversight of information technology security and cybersecurity risk. The Audit Committee is central to the Board’s oversight of cybersecurity risks and is primarily responsible for this domain. The Audit Committee actively participates in discussions with management, external experts, and amongst themselves regarding cybersecurity risks. The Audit Committee is comprised of Board members with broad expertise, including technology, risk management and finance, enabling them to effectively oversee and govern cybersecurity risks. One Audit Committee member is certified under the National Association of Corporate Directors Certificate in Cyber-Risk Oversight Program.

We have developed a robust organizational structure to manage and oversee our information technology and cybersecurity programs, including full-time information security associates dedicated to cybersecurity. These individuals possess relevant experience and expertise in cybersecurity and risk management. Our Senior Vice President of Information Technology leads our information security, data privacy and protection, and information technology compliance programs. Guided by management, our information technology teams maintain a detailed Cyber Incident Response Plan (“CIRP”) and hold frequent meetings to ensure the proper communication and execution of our security controls and procedures. The Senior Vice President of Information Technology regularly reports to and maintains ongoing dialog with our CEO, CFO and COO, and Board of Directors regarding our information security programs. This reporting includes updates on matters evaluated under our CIRP, the current threat landscape, cybersecurity initiatives, and the effectiveness of our cybersecurity programs.

Our Senior Vice President of Information Technology has more than 20 years of cybersecurity experience, is an active Certified Information Systems Security Professional, and trained in assessing and managing cyber risks.

ITEM 2. PROPERTIES.

We own the following properties as of December 31, 2023:

Purpose	Location	Square Footage	Utilized Segments
Executive Office	Nelsonville, Ohio	24,400	Wholesale, Retail, Contract Manufacturing
Executive Office and Outlet Store	Nelsonville, Ohio	52,300	Wholesale and Retail
Executive Office	Nelsonville, Ohio	8,800	Wholesale, Retail, Contract Manufacturing
Storage Facility	Nelsonville, Ohio	8,400	Wholesale, Retail, Contract Manufacturing
Distribution Center	Logan, Ohio	316,000	Wholesale, Retail, Contract Manufacturing
Manufacturing Facility	Chuzhou, China	576,000	Wholesale and Retail

We lease the following properties as of December 31, 2023:

Purpose	Location	Square Footage	Utilized Segments	Lease Expiration
Office Building	China	5,600	Wholesale and Retail	2024
Distribution Center	Reno, Nevada	355,680	Wholesale, Retail, Contract Manufacturing	2026
Manufacturing Facility	Puerto Rico	84,600	Wholesale and Contract Manufacturing	2027
Manufacturing Facility	Puerto Rico	22,700	Wholesale and Contract Manufacturing	2027
Manufacturing Facility	Dominican Republic	29,700	Wholesale and Contract Manufacturing	2023 ⁽¹⁾
Manufacturing Facility	Dominican Republic	34,400	Wholesale and Contract Manufacturing	2023 ⁽¹⁾
Manufacturing Facility	Dominican Republic	20,100	Wholesale and Contract Manufacturing	2023 ⁽¹⁾
Manufacturing Facility	Dominican Republic	93,700	Wholesale and Contract Manufacturing	2024
Manufacturing Facility	Dominican Republic	36,200	Wholesale and Contract Manufacturing	2024
Manufacturing Facility	Dominican Republic	16,800	Wholesale and Contract Manufacturing	2026
Manufacturing Facility	Dominican Republic	30,200	Wholesale and Contract Manufacturing	2025

⁽¹⁾ These leases expired in 2023 and we are currently occupying the spaces on a month-to-month basis until a new agreement is reached.

ITEM 3. LEGAL PROCEEDINGS.

We are, from time to time, a party to litigation which arises in the normal course of our business. Although the ultimate resolution of pending proceedings cannot be determined, in the opinion of management, the resolution of these proceedings in the aggregate will not have a material adverse effect on our financial position, results of operations, or liquidity. A discussion of legal matters is found in Note 21 of our Consolidated Financial Statements included in Part II - Item 8. Financial Statements and Supplementary Data of this Annual Report on Form 10-K.

ITEM 4. MINE SAFETY DISCLOSURES.

Not applicable.

PART II

ITEM 5. MARKET FOR REGISTRANT'S COMMON EQUITY, RELATED STOCKHOLDER MATTERS AND ISSUER PURCHASES OF EQUITY SECURITIES.

Market Information

Our common stock trades on the NASDAQ Global Select Market under the symbol "RCKY."

As of February 29, 2024, there were 69 shareholders of record of our common stock.

Dividends

In 2013, our Board of Directors approved a dividend policy pursuant to which the Company intends to continue paying comparable cash dividends on its common stock.

Share Repurchases

Our previous \$7,500,000 share repurchase program expired on March 4, 2022. We have not announced a new repurchase program since the prior program's expiration and there have been no purchases of common stock since the repurchase program expired.

Performance Graph

The following performance graph compares our cumulative shareholder return on our common shares with the NASDAQ Composite Index and the Standard & Poor's Footwear Index, which is a published industry index. The comparison of the cumulative total return to shareholders for each of the periods assumes that \$100 was invested in our common stock on December 31, 2018 and in the NASDAQ Stock Market (U.S.) Index and the Standard & Poor's Footwear Index and that all dividends were reinvested. This comparison includes the period ended December 31, 2018 through the period ended December 31, 2023.

For information regarding Rocky Brands' equity compensation plans, see Part III, Item 12 of this Annual Report on Form 10-K.

ITEM 6. [RESERVED]

ITEM 7. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS.

This Management's Discussion and Analysis of Financial Condition and Results of Operations ("MD&A") describes the matters that we consider to be important to understanding the results of our operations for each of the two years in the period ended December 31, 2023 and 2022, and our capital resources and liquidity as of December 31, 2023 and 2022. For the discussion of the changes in our results of operations between the years ended December 31, 2022 and December 31, 2021, refer to Item 7, "Management's Discussion and Analysis of Financial Condition and Results of Operations", of our Annual Report on Form 10-K for the year ended December 31, 2022, filed with the SEC on March 10, 2023, which is available on the SEC's website at <https://www.sec.gov/edgar/search/> and our corporate website at www.rockybrands.com. We analyze the results of our operations for the last two years (including trends in the overall business), followed by a discussion of our cash flows and liquidity, our credit facilities, and our contractual commitments. We then provide a review of the critical accounting policies and estimates we have made that we believe are most important to the understanding of our MD&A and our Consolidated Financial Statements. We conclude our MD&A with information on recent accounting pronouncements which we adopted during the year, as well as those not yet adopted that are expected to have an impact on our financial accounting practices.

The following discussion should be read in conjunction with our Consolidated Financial Statements and the notes thereto, included elsewhere herein. The forward-looking statements in this section and other parts of this Annual Report on Form 10-K involve risks and uncertainties including statements regarding our plans, objectives, goals, strategies and financial performance. Our actual results could differ materially from the results anticipated in these forward-looking statements as a result of factors set forth under the caption "Safe Harbor Statement under the Private Securities Litigation Reform Act of 1995" below. The Private Securities Litigation Reform Act of 1995 provides a "safe harbor" for forward-looking statements made by or on behalf of the Company.

BUSINESS OVERVIEW

We are a leading designer, manufacturer and marketer of premium quality footwear and apparel marketed under a portfolio of well recognized brand names including Rocky, Muck, Georgia Boot, Durango, XTRATUF, Lehigh, Ranger and the licensed brand Michelin.

Our brands have a long history of representing high quality, comfortable, functional, and durable footwear, and our products are organized around six target markets: outdoor, work, duty, commercial military, military and western. Our footwear products incorporate varying features and are positioned across a range of suggested retail price points from \$45.00 for our value priced products to \$655.00 for our premium products. As a part of our strategy of outfitting consumers from head-to-toe, we market complementary branded apparel and accessories that we believe leverage the strength and positioning of each of our brands.

Our products are distributed through three distinct business segments: Wholesale, Retail and Contract Manufacturing. In our Wholesale business, we distribute our products through a wide range of distribution channels representing over 10,000 retail store locations in the U.S., Canada, U.K., and other international markets such as Europe. Our Wholesale channels vary by product line and include sporting goods stores, outdoor retailers, independent shoe retailers, hardware stores, catalogs, mass merchants, uniform stores, farm store chains, specialty safety stores, specialty retailers, and online retailers. Our Retail business includes direct sales of our products to consumers through our business-to-business web platform, e-commerce websites, third-party marketplaces and our Rocky Outdoor Gear Store. Our Contract Manufacturing segment includes sales to the U.S. Military, private label sales and any sales to customers in which we are contracted to manufacture or source a specific footwear product for a customer.

During the first quarter of 2023, we divested the Servus brand. The gain of approximately \$1.3 million on the sale of the Servus brand during the first quarter was recorded within Interest Expense and Other - net in the Consolidated Statements of Operations for the year ended December 31, 2023. The Servus brand was sold to allow us to focus on our more profitable core brands and allocate resources toward growth and development of additional opportunities with those brands moving forward.

During the third quarter of 2023, we closed our manufacturing facility in Rock Island, Illinois. Acquired in March of 2021 as a part of our acquisition of the performance and lifestyle footwear business of Honeywell International Inc, this facility primarily manufactured product for the Servus brand. Following the sale of the Servus brand in the first quarter of 2023, the Rock Island facility was underutilized, prompting our decision to close the facility during the third quarter of 2023.

In 2023, we were also awarded a new multi-year contract with the U.S. Military pursuant to which we will produce and ship a minimum number of pairs to the U.S. Military through 2026, with an option to extend. The sales under this contract are included in our Contract Manufacturing segment.

We completed the sale of the NEOS brand during the third quarter of 2022. The sale of NEOS inventory was recorded within net sales and cost of goods sold within the Consolidated Statements of Operations for the year ended December 31, 2022. The gain on sale of the NEOS assets is recorded as a reduction of operating expenses within the Consolidated Statements of Operations for the year ended December 31, 2022.

ECONOMIC CONDITIONS AND UNCERTAINTIES

Our growth strategy is founded substantially on the expansion of our brands into new footwear and apparel markets. New products that we introduce may not be successful with consumers or one or more of our brands may fall out of favor with consumers. If we are unable to anticipate, identify or react appropriately to changes in consumer preferences, we may not grow as fast as we plan to grow, or our sales may decline, and our brand image and operating performance may suffer.

Furthermore, achieving market acceptance for new products will likely require us to exert substantial product development and marketing efforts, which could result in a material increase in our operating expenses to which there can be no assurance that we will have the resources necessary to undertake such efforts. Material increases in our operating expenses could adversely impact our results of operations and cash flows.

We may also encounter difficulties in producing new products that we did not anticipate during the development stage. Our development schedules for new products are difficult to predict and are subject to change as a result of shifting priorities in response to consumer preferences and competing products. If we are not able to efficiently manufacture newly developed products in quantities sufficient to support retail distribution, we may not be able to recoup our investment in the development of new products. Failure to gain market acceptance for new products that we introduce could impede our growth, reduce our profits, adversely affect the image of our brands, erode our competitive position, and result in long term harm to our business.

As the macroeconomic environment is continuously evolving, we are aware that global trends, such as inflationary pressures, are weakening consumer sentiment, negatively impacting consumer spending, and creating differing traffic patterns across channels. These conditions have led to elevated inventory levels in certain markets and an increased promotional environment. We have also experienced higher interest rates which have resulted in increased borrowing costs. There is ongoing uncertainty surrounding the global economy and macroeconomic environment, which we expect to continue and could potentially cause disruption and near-term challenges for our business.

We continue to monitor pressures on the global supply chain, which have shifted the timing of shipments across our brands, resulting in increased inventory levels outpacing our sales growth. However, we have seen improvements in transit lead times and related freight costs compared to the prior period, which have had a positive impact on the results of our operations through 2023.

2023 FINANCIAL OVERVIEW

- Net sales decreased 25.0% to \$461.8 million
- Gross margin increased 210 basis points to 38.7%
- Operating income decreased 19.7% to \$35.4 million
- Net income decreased 49.1% to \$10.4 million, or \$1.41 per diluted share
- Total debt, net of debt issuance costs, decreased 32.6% to \$173.1 million
- Inventory decreased 28.1% to \$169.2 million
- Cash provided by operating activities increased 285% to \$54.5 million

We experienced a decline in sales of 25.0% to \$461.8 million for the year ending December 31, 2023 compared to the year ending December 31, 2022, primarily attributable to our Wholesale segment. The sales decline in our Wholesale segment was due to a challenging macroeconomic environment, coupled with our wholesale partners working through excess inventories. Additionally, distribution challenges in 2021 led to delayed delivery of Fall 2021 inventory into the first half of 2022, creating a difficult year-over-year comparison for the first nine months of 2023. While our 2023 performance was challenged by a difficult macroeconomic backdrop and a tough year-over-year comparison for our Wholesale segment, we experienced strong retail sell-through and increased performance of our own e-commerce websites, which partially offset the decrease in Wholesale sales.

During the year ending December 31, 2023, our gross margin improved 210 basis points to 38.7%. The increase in gross margin for the year ending December 31, 2023 compared to the year ending December 31, 2022 was due to several factors. First, higher Wholesale segment gross margins resulted from the realization of pricing actions taken the second half of 2022 and a reduction in inbound logistics costs. Secondly, a greater proportion of Retail segment sales, which carry higher gross margins than our Wholesale and Contract Manufacturing segments, also contributed to the increase.

Operating income decreased to \$35.4 million in 2023. As a percentage of net sales, operating income was 7.7% in 2023 compared to 7.2% in 2022. The increase in operating income as a percentage of net sales was attributed to reorganization changes made during 2023 in an effort to leverage top-line sales and decrease operating expenses. As a percentage of net sales, our gross margin increased 210 basis points year over year while operating expenses only increased 160 basis points. The overall increase in operating expenses as a percentage of net sales for full year 2023, when compared to the year ago period, was attributable to costs incurred prior to realizing the benefits from cost-savings reviews and operational efficiencies implemented by management through strategic initiatives, particularly in the first half of 2023. This was partially offset by lower variable costs associated with lower net sales. Additionally, operating expenses as a percentage of net sales decreased in the latter half of 2023 compared to the same period a year ago.

As of December 31, 2023 we held \$4.5 million in cash and cash equivalents and our total indebtedness stood at \$173.1 million, a reduction of \$84.6 million or 32.6% when compared to December 31, 2022. Of total debt paydown, \$40.8 million of this reduction in indebtedness occurred in the fourth quarter of 2023. This created a reduction in interest expense in the fourth quarter of 2023 over the prior period for the first time since incurring our debt, despite increased interest rates on both of our credit facilities.

The reduction in indebtedness was attributable to our strategic efforts to optimize inventory levels. At the end of the fourth quarter, inventories totaled \$169.2 million, reflecting a decrease of \$66.2 million or 28.1% compared to \$235.4 million a year ago.

Our business generated cash flows from operations of \$73.6 million for the year ending December 31, 2023, an increase of 285%, from \$19.1 million of cash flows from operations generated for the year ending December 31, 2022. The 2023 cash flow from operations was primarily attributable to strategic inventory management, and improved collections on outstanding accounts receivable, partially offset by payments on our accounts payable. In terms of cash flows from investing activities, we generated \$17.3 million from the sale of the Servus brand, partially offset by \$3.9 million in fixed assets purchases. As noted above, cash used for financing activities included an \$84.6 million debt paydown and \$4.6 million dividend payment to our shareholders.

Despite facing challenges in 2023 due to a challenging macroeconomic backdrop and elevated inventory levels at several Wholesale partners, we believe the underlying fundamentals of our business and brand portfolio remain robust. Operationally and financially, we believe we are well-positioned to make strategic investments in growth in future years. Throughout 2023, our reported results showed improvement, driven by strong sell-through of our products, and ongoing improvements to overall inventory levels at the majority of our wholesale accounts, positively influencing our sell-in. Our focus on product innovation, brand building, consumer connections and fulfillment capabilities, has continued to strengthen with these efforts starting to yield positive results in the second half of 2023.

Analysis of Results of Operations

The following table sets forth consolidated statements of operations data as percentages of total net sales:

	Twelve Months Ended December 31,	
	2023	2022
NET SALES:	100.0%	100.0%
Cost of goods sold	61.3	63.4
Gross margin	38.7	36.6
Operating expenses	31.0	29.4
Income from operations	7.7%	7.2%

Gross margin in 2023 was \$178.6 million, or 38.7% of net sales, compared to \$225.2 million, or 36.6% of net sales, in 2022. The 210-basis point improvement was driven primarily by a 150-basis point improvement in Wholesale segment gross margins combined with a higher mix of Retail segment sales, which carry higher gross margins than the Wholesale and Contract Manufacturing segments. Operating expenses were \$143.2 million, or 31.0% of net sales, in 2023 compared to \$181.2 million, or 29.4% of net sales, in 2022. Net sales were slightly deleveraged in 2023 due to the divestures of our Servus and NEOS brands as well as elevated inventory levels at our retail partners within our Wholesale channel, resulting in a higher percentage of operating expenses of net sales in 2023 compared to 2022. Income from operations in 2023 was \$35.4 million, or 7.7% of net sales, compared to \$44.0 million, or 7.2% of net sales, in 2022. This increase was due to the increases in gross margin as a percentage of net sales noted above.

(\$ in thousands)	Twelve Months Ended December 31,			
	2023	2022	Inc./ (Dec.)	Inc./ (Dec.)
NET SALES:				
Wholesale	\$ 337,019	\$ 484,779	\$ (147,760)	(30.5)%
Retail	116,960	115,354	1,606	1.4
Contract Manufacturing	7,854	15,342	(7,488)	(48.8)
Total Net Sales	\$ 461,833	\$ 615,475	\$ (153,642)	(25.0)%

The decrease in Wholesale sales for the twelve months ended December 31, 2023 was due to elevated inventory levels at our retail partners within our Wholesale channel and a softer demand environment compared to the year ago period. Furthermore, the twelve months ended December 31, 2023 included only three months of net sales from the Servus brand, which was divested in the first quarter of 2023 (Note 4), compared to the year ago period including twelve months of net sales from the Servus brand and nine months of net sales from the NEOS brand, which was divested in the third quarter of 2022 (Note 5).

Retail net sales for the twelve months ended December 31, 2023 increased due to strong growth in our direct-to-consumer e-commerce business. We have enhanced our targeted marketing efforts, primarily through digital marketing, allowing us to increase brand awareness and engage more directly with consumers, which led to increased traffic on our branded websites throughout the year.

The decrease in Contract Manufacturing sales for the twelve months ended December 31, 2023 compared to the twelve months ended December 31, 2022 was due to the expiration of certain contracts with the U.S. Military.

(\$ in thousands)	Twelve Months Ended December 31,		
	2023	2022	Inc./ (Dec.)
GROSS MARGIN:			
Wholesale Margin \$'s	\$ 119,485	\$ 165,059	\$ (45,574)
Margin %	35.5%	34.0%	1.5%
Retail Margin \$'s	\$ 58,391	\$ 57,817	\$ 574
Margin %	49.9%	50.1%	(0.2)%
Contract Manufacturing Margin \$'s	\$ 722	\$ 2,343	\$ (1,621)
Margin %	9.2%	15.3%	(6.1)%
Total Margin \$'s	\$ 178,598	\$ 225,219	\$ (46,621)
Margin %	38.7%	36.6%	2.1%

The increase in Wholesale gross margin as a percentage of net sales for the twelve months ended December 31, 2023 compared to the year ago period was due to realization of pricing actions taken in 2022, as well as lower in-bound logistics costs compared to the year ago period.

Retail gross margins as a percentage of net sales decreased slightly for the twelve months ended December 31, 2023 compared to the same period a year ago primarily due to the Lehigh business accounting for a larger percentage of Retail sales which carries lower margins.

Contract Manufacturing gross margin as a percentage of net sales decreased for the twelve months ended 2023 compared to 2022 due to certain private label contracts that carried lower margins.

(\$ in thousands)	Twelve Months Ended December 31,			
	2023	2022	Inc./ (Dec.)	Inc./ (Dec.)
OPERATING EXPENSES:				
Operating Expenses	\$ 143,226	\$ 181,181	\$ (37,955)	(20.9)%
% of Net Sales	<u>31.0%</u>	<u>29.4%</u>	<u>1.6%</u>	

The reduction in operating expenses for the twelve months ending December 31, 2023 was driven by lower out-bound freight expense and other variable expenses stemming from decreased sales volumes. In addition, the decrease in operating expenses was primarily attributable to cost saving reviews and operational efficiencies achieved through strategic restructuring initiatives implemented over the past year.

(\$ in thousands)	Twelve Months Ended December 31,			
	2023	2022	Inc./ (Dec.)	Inc./ (Dec.)
INTEREST EXPENSE AND OTHER - NET:				
Other (Expense) Income	\$ (21,218)	\$ (18,270)	\$ (2,948)	<u>16.1%</u>

The increase in other expenses is due to an increase in interest rates on the senior term loan and credit facility, partially offset by lower debt levels in 2023 compared with 2022. Additionally, the gain of \$1.3 million on the sale of the Servus brand that occurred in the first quarter of 2023 partially offset this increase.

(\$ in thousands)	Twelve Months Ended December 31,			
	2023	2022	Inc./ (Dec.)	Inc./ (Dec.)
INCOME TAXES:				
Income Tax (Benefit) Expense	\$ 3,728	\$ 5,303	\$ (1,575)	(29.7)%
Effective Tax Rate	<u>26.3%</u>	<u>20.6%</u>	<u>5.7%</u>	

The increase in our effective tax rate for the twelve months ended December 31, 2023 compared to the same year ago period was driven primarily by a return to provision adjustment resulting from foreign tax credits recognized in the fourth quarter of 2023.

LIQUIDITY AND CAPITAL RESOURCES

Overview

Our principal sources of liquidity have been our income from operations, cash provided by operating activities and borrowings under our credit facilities.

Over the last several years, our principal uses of cash have been for working capital and capital expenditures to support our growth, as well as dividend payments. Our working capital consists primarily of trade receivables and inventory, offset by accounts payable and accrued expenses. Our working capital fluctuates throughout the year as a result of our seasonal business cycle and business expansion, and is generally lowest in the months of January through March of each year and highest during the months of May through October of each year. We historically utilize our revolving credit facility to fund our seasonal working capital requirements. As a result, balances on our revolving credit facility could fluctuate significantly throughout the year. Our working capital decreased to \$186.6 million at December 31, 2023, compared to \$244.8 million at the end of the prior year primarily due to a decrease in inventory and accounts receivable offset by a decrease in accounts payable.

Our capital expenditures relate primarily to projects relating to our corporate offices, property, merchandising fixtures, molds and equipment associated with our manufacturing and distribution operations and for information technology. Capital expenditures were \$4.3 million for 2023 and \$7.3 million in 2022. Capital expenditures for 2024 are anticipated to be approximately \$5.5 million.

We lease certain machinery, equipment, and manufacturing facilities under operating leases that generally provide for renewal options. Future minimum lease payments under non-cancelable operating leases are outlined in further detail in Note 11 of our Consolidated Financial Statements.

We believe that our credit facilities coupled with cash generated from operations will provide sufficient liquidity to fund our operations for at least the next twelve months. Our continued liquidity, however, is contingent upon future operating performance, cash flows and our ability to meet financial covenants under our credit facility. For more information regarding our credit facilities please see Note 10.

Cash Flows and Material Cash Requirements

(\$ in millions)	Twelve Months Ended December 31,	
	2023	2022
Operating activities	\$ 73.6	\$ 19.1
Investing activities	13.4	(1.2)
Financing activities	(88.2)	(18.1)
Net change in cash and cash equivalents	\$ (1.2)	\$ (0.2)

Operating Activities. Cash provided by operating activities for the year ended December 31, 2023 was \$73.6 million compared to \$19.1 million for the year ended December 31, 2022. Adjusting for non-cash items, net income provided a cash in-flow of \$22.3 million and \$35.1 million for the years ended December 31, 2023 and 2022, respectively. The net change in working capital and other assets and liabilities resulted in an increase to cash provided by operating activities of \$51.3 million for the year ended December 31, 2023, compared to a decrease of \$16.0 million for the year ended December 31, 2022.

During the year ended December 31, 2023, the net change in working capital was primarily impacted by a decrease in inventory and accounts receivable of \$60.0 million and \$18.2 million, respectively, partially offset by a decrease in accounts payable of \$21.2 million. The decrease in inventory during the year ended December 31, 2023 compared to the prior period was due to a concentrated effort to optimize inventory levels in 2023 through increased promotions aimed at selling discontinued inventory, lower production and purchasing. The decrease in accounts receivable was due to collection on our outstanding accounts receivables throughout the year combined with lower sales. The decrease in accounts payable was due to a decrease in our days payable outstanding year-over-year.

Investing Activities. Cash provided by investing activities for the twelve months ended December 31, 2023 was primarily derived from the proceeds from sale of the Servus brand (see Note 4). The principal use of net cash in 2022 was related to investments in molds and equipment associated with our manufacturing operations, investments in information technology and improvements made to our distribution facility.

Financing Activities. Cash used in financing activities for the twelve months ended December 31, 2023 and 2022 was primarily related to payments on our revolving credit facility and term loan.

Our prior \$7,500,000 share repurchase program expired on March 4, 2022. For additional information regarding this share repurchase program, see Note 14 of our Consolidated Financial Statements. We have not announced a new repurchase program since the expiration of the prior program.

Contractual Obligations and Commercial Commitments

The following table summarizes our contractual obligations at December 31, 2023 resulting from financial contracts and commitments. These amounts are generally consistent from year to year, closely reflect our levels of production, and are not long-term in nature (less than three months). The following table does not include information on our recurring purchases of materials for use in our manufacturing operations.

Contractual Obligations at December 31, 2023:

<i>(\$ in millions)</i>	Total	Less than 1 Year	1-3 Years	3-5 Years	Over 5 Years
Long-term debt (Note 10)	\$ 175.0	\$ 2.7	\$ 5.4	\$ 166.9	-
Long-Term Taxes payable	0.2	-	0.2	-	-
Minimum operating lease commitments (Note 11)	8.5	2.8	5.6	0.1	-
Contract Liabilities (Note 17)	0.9	0.9	-	-	-
Total contractual obligations	<u>\$ 184.6</u>	<u>\$ 6.4</u>	<u>\$ 11.2</u>	<u>\$ 167.0</u>	<u>\$ -</u>

From time to time, we enter into purchase commitments with our suppliers under customary purchase order terms. Any significant losses implicit in these contracts would be recognized in accordance with generally accepted accounting principles. At December 31, 2023, no such losses existed.

Our ongoing business activities continue to be subject to compliance with various laws, rules and regulations as may be issued and enforced by various federal, state and local agencies. With respect to environmental matters, costs are incurred pertaining to regulatory compliance. Such costs have not been, and are not anticipated to become, material.

We are contingently liable with respect to lawsuits, taxes and various other matters that routinely arise in the normal course of business. See Note 21 of our Consolidated Financial Statements for further discussion of legal matters. We do not have off-balance sheet arrangements, financings, or other relationships with unconsolidated entities, also known as "Variable Interest Entities." Additionally, we do not have any related party transactions that materially affect the results of operations, cash flow or financial condition.

OFF-BALANCE SHEET ARRANGEMENTS

We have no off-balance sheet arrangements as of December 31, 2023.

CRITICAL ACCOUNTING POLICIES AND ESTIMATES

The preparation of the Company's Consolidated Financial Statements, which have been prepared in accordance with accounting principles generally accepted in the U.S. ("U.S. GAAP"), requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. On an ongoing basis, management evaluates these estimates. Estimates are based on historical experience and on various other assumptions that are believed to be reasonable under the circumstances, the results of which form the basis for making judgements about the carrying values of assets and liabilities that are not readily apparent from other sources. Historically, actual results have not been materially different from the Company's estimates. However, actual results may differ materially from these estimates under different assumptions or conditions. The Company has identified the following critical accounting policies used in determining estimates and assumptions in the amounts reported. Management believes that an understanding of these policies is important to an overall understanding of the Company's Consolidated Financial Statements. Significant accounting policies are summarized in Note 1 to the Company's Consolidated Financial Statements.

Revenue recognition

Revenue principally consists of sales to customers, and, to a lesser extent, license fees. See Note 1 and Note 17 of our Consolidated Financial Statements for additional information regarding revenues.

Allowance for Credit Losses

Management maintains allowances for uncollectible accounts and estimated losses resulting from the inability of our customers to make required payments. We evaluate the allowance for credit losses based on a review of current customer status and historical collection experience along with current and reasonable supportable forecasts of future economic conditions. If the financial condition of our customers were to deteriorate, resulting in an impairment of their ability to make payments, additional allowances may be required.

Sales returns and allowances

We record a reduction to gross sales based on estimated customer returns and allowances. These reductions are influenced by historical experience based on customer returns and allowances. The actual amount of sales returns and allowances realized may differ from our estimates. If we determine that sales returns or allowances should be either increased or decreased, then the adjustment would be made to net sales in the period in which such a determination is made.

Sales returns and allowances as a percentage of sales for the years ended December 31, 2023 and 2022 were 8.4% and 6.7%, respectively.

Inventories

Management identifies slow moving inventories and estimates appropriate loss provisions related to these inventories. Historically, these loss provisions have not been significant as the vast majority of our inventories are considered saleable and we have been able to liquidate slow moving or obsolete inventories at amounts above cost through our factory outdoor gear stores or through various discounts to customers and e-commerce channels. Should management encounter difficulties liquidating slow moving or obsolete inventories, additional provisions may be necessary. Management regularly reviews the adequacy of our inventory reserves and makes adjustments as required. See Note 6 of our Consolidated Financial Statements for additional information regarding inventories.

Goodwill and Indefinite-Lived Intangibles

Goodwill and intangible assets deemed to have indefinite lives are not amortized but are evaluated for impairment annually or whenever we identify certain triggering events or circumstances that would more likely than not reduce the fair value of the assets below their carrying amount. Events or circumstances that might indicate an interim evaluation is warranted include, among other things, unexpected adverse business conditions, macro and reporting unit specific economic factors, supply costs, and unanticipated competitive activities.

We test goodwill and indefinite-lived intangible assets for impairment annually in the fourth quarter each fiscal year by quantitatively comparing the fair values of the Wholesale and Retail reporting units and indefinite-lived intangibles to their carrying amounts. There was no goodwill allocated to our Contract Manufacturing reporting unit.

For goodwill, we estimated the fair value of each reporting unit by weighing the results of the income and market approaches. These valuation approaches consider a number of factors that include, but are not limited to, prospective financial information, growth rates, discount rates, and comparable multiples from publicly traded companies in our industry and require us to make certain assumptions and estimates regarding industry economic factors and future profitability of our business. When performing the income approach, we utilize the present value of cash flows to estimate fair value. The future cash flows for our reporting units were projected based on our estimates, at that time, of future revenues, operating income, and other factors (such as working capital and capital expenditures). The discount rates used were based on a weighted-average cost of capital determined from relevant market comparisons and take into consideration the risk and nature of the respective reporting unit's cash flows. For the market approach, we use the guideline public company method which relies upon valuation multiples derived from stock prices and enterprise values of publicly traded companies that are comparable to the reporting unit being evaluated.

The fair value of our trade names was determined based on the Income Approach using the Relief from Royalty Method. This method requires us to estimate the future revenues for the related brands, the appropriate royalty rate, and the weighted average cost of capital.

After completing our annual impairment test for each reporting unit and our indefinite-lived intangible assets during the fourth quarter of 2023 and 2022, we concluded there was no impairment in either of these years.

We did not have any reporting units that were at risk of failing the first step of the goodwill impairment test. The estimated fair values of the Wholesale reporting unit and the Retail reporting unit exceeded their carrying amounts at the date of testing by more than 20% for both 2023 and 2022.

Income taxes

Management records a valuation allowance to reduce its deferred tax assets for a portion of state and local income tax net operating losses that it believes may not be realized. We have considered future taxable income and ongoing prudent and feasible tax planning strategies in assessing the need for a valuation allowance; however, in the event we were to determine that we would not be able to realize all or part of our net deferred tax assets in the future, an adjustment to the deferred tax assets would be charged to income in the period such determination was made. For additional information see Note 13 of our Consolidated Financial Statements.

RECENT FINANCIAL ACCOUNTING PRONOUNCEMENTS

Refer to Note 2 to Consolidated Financial Statements for new accounting pronouncements adopted during the current year and the expected impact of accounting pronouncements recently issued but not yet required to be adopted. To the extent the adoption of new accounting standards materially affects financial condition, results of operations, or liquidity, the impacts are discussed in the applicable section of this MD&A and the Notes to Consolidated Financial Statements.

SAFE HARBOR STATEMENT UNDER THE PRIVATE SECURITIES LITIGATION REFORM ACT OF 1995

This report, including Management's Discussion and Analysis of Financial Conditions and Results of Operations, contains forward-looking statements within the meaning of Section 21E of the Securities Exchange Act of 1934, as amended, and Section 27A of the Securities Act of 1933, as amended, which are intended to be covered by the safe harbors created thereby. Those statements include, but may not be limited to, all statements regarding our and management's intent, belief, expectations, such as statements concerning our future profitability and our operating and growth strategy. Words such as "believe," "anticipate," "expect," "will," "may," "should," "intend," "plan," "estimate," "predict," "potential," "continue," "likely," "would," "could" and similar expressions are intended to identify forward-looking statements. Investors are cautioned that all forward-looking statements involve risk and uncertainties including, without limitations, dependence on sales forecasts, changes in consumer demand, seasonality, impact of weather, competition, reliance on suppliers, risks inherent to international trade, changing retail trends, the loss or disruption of our manufacturing and distribution operations, cyber security breaches or disruption of our digital systems, fluctuations in foreign currency exchange rates, economic changes, as well as other factors set forth under the caption "Item 1A, Risk Factors" in this Annual Report on Form 10-K and other factors detailed from time to time in our filings with the Securities and Exchange Commission. Although we believe that the assumptions underlying the forward-looking statements contained herein are reasonable, any of the assumptions could be inaccurate. Therefore, there can be no assurance that the forward-looking statements included herein will prove to be accurate. In light of the significant uncertainties inherent in the forward-looking statements included herein, the inclusion of such information should not be regarded as a representation by us or any other person that our objectives and plans will be achieved. We assume no obligation to update any forward-looking statements.

ITEM 7A. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK.

In the normal course of business, our financial position and results of operations are routinely subject to a variety of risks, including market risk associated with interest rate movements on borrowings and currency rate movements on non-U.S. dollar denominated assets, liabilities and cash flows. We are also subject to commodity pricing risk via changes in the price of materials used in our manufacturing process. We regularly assess these risks and have established policies and business practices that should mitigate a portion of the adverse effect of these and other potential exposures.

Interest Rate Risk

Our primary exposure to market risk includes interest rate fluctuations in connection with our senior term facility and revolving credit facility. Our senior term and revolving credit facilities are tied to changes in applicable interest rates, including SOFR, company performance and total borrowings under our revolving credit facility.

As of December 31, 2023, we had \$175.0 million of debt consisting of \$77.9 million under our senior term facility and \$97.1 million under our revolving credit facility. For additional information about our credit facilities see Note 10.

We do not hold any market risk sensitive instruments for trading purposes.

We do not have any interest rate management agreements as of December 31, 2023.

Commodity Risk

We are also exposed to changes in the price of commodities used in our manufacturing operations. However, commodity price risk related to our current commodities is not material as price changes in commodities can generally be passed along to the customer.

Foreign Exchange Risk

We face market risk to the extent that changes in foreign currency exchange rates affect our foreign assets, liabilities and inventory purchase commitments. We regularly assess these risks and have established policies and business practices that should mitigate a portion of the adverse effect of these and other potential exposures.

REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

To the Board of Directors and Shareholders of
Rocky Brands, Inc. and Subsidiaries
Nelsonville, Ohio

Opinion on the Financial Statements

We have audited the accompanying consolidated balance sheets of Rocky Brands, Inc. and Subsidiaries (the “Company”) as of December 31, 2023 and 2022, and the related consolidated statements of operations, shareholders’ equity, and cash flows for each of the years in the three-year period ended December 31, 2023, and the related notes and the financial statement schedule listed in the index at Item 15(a)(2), (collectively referred to as the “financial statements”). In our opinion, the financial statements present fairly, in all material respects, the financial position of the Company as of December 31, 2023 and 2022, and the results of its operations and its cash flows for each of the years in the three-year period ended December 31, 2023, in conformity with accounting principles generally accepted in the United States of America.

We also have audited, in accordance with the standards of the Public Company Accounting Oversight Board (United States) (PCAOB), the Company’s internal control over financial reporting as of December 31, 2023, based on criteria established in Internal Control—Integrated Framework (2013) issued by the Committee of Sponsoring Organizations of the Treadway Commission (COSO), and our report dated March 15, 2024 expressed an unqualified opinion.

Basis for Opinion

These financial statements are the responsibility of the Company’s management. Our responsibility is to express an opinion on the Company’s consolidated financial statements based on our audits. We are a public accounting firm registered with the PCAOB and are required to be independent with respect to the Company in accordance with the U.S. federal securities laws and the applicable rules and regulations of the Securities and Exchange Commission and the PCAOB.

We conducted our audits in accordance with the standards of the PCAOB. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the consolidated financial statements are free of material misstatement, whether due to error or fraud. Our audits included performing procedures to assess the risks of material misstatement of the consolidated financial statements, whether due to error or fraud, and performing procedures that respond to those risks. Such procedures included examining, on a test basis, evidence regarding the amounts and disclosures in the consolidated financial statements. Our audits also included evaluating the accounting principles used and significant estimates made by management, as well as evaluating the overall presentation of the consolidated financial statements. We believe that our audits provide a reasonable basis for our opinion.

Critical Audit Matters

The critical audit matter communicated below is a matter arising from the current period audit of the consolidated financial statements that was communicated or required to be communicated to the audit committee and that: (1) relates to accounts or disclosures that are material to the consolidated financial statements and (2) involve our especially challenging, subjective, or complex judgment. The communication of the critical audit matter does not alter in any way our opinion on the consolidated financial statements, taken as a whole, and we are not, by communicating the critical audit matter below, providing a separate opinion on the critical audit matter or on the accounts or disclosures to which it relates.

*Valuation of Indefinite-Lived Identified Intangibles in Conjunction with
Annual Impairment Testing*

Description of the Matter

At December 31, 2023, the Company's indefinite-lived intangible assets were approximately \$126.5 million, which included \$78.7 million of trade names and trademarks and \$47.8 million of goodwill. As discussed in Note 1 to the financial statements, indefinite-lived intangible assets are tested for potential impairment annually or when conditions indicate impairment may have occurred. This test was performed in the fourth quarter of 2023.

Auditing management's indefinite-lived intangible assets, including goodwill, was challenging because there is significant judgment required in determining the methodologies and assumptions used to estimate the fair values of the Company's goodwill by reporting unit, and trade names and trademarks by brand. In particular, the fair value estimates were sensitive to significant judgment assumptions including future cash flows, long-term growth rates of the business, financial projections, operating margins, weighted average cost of capital and other factors such as: discount rates, royalty rates, cost of capital, and market multiples. These estimates and assumptions require management's judgment, and changes to these estimates and assumptions could materially affect the determination of fair value and/or impairment for each of the Company's indefinite-lived intangible assets.

*How We Addressed the
Matter in Our Audit*

We obtained an understanding, evaluated the design and tested the operating effectiveness of controls over the Company's intangible asset impairment review process. To test the estimated fair value of the Indefinite-Lived Intangible Assets, we performed audit procedures that included, among others, involving our valuation specialists in evaluating the methodologies used and significant assumptions described above, and testing the underlying data used by the Company for completeness and accuracy. We compared the significant assumptions used by management to current industry and economic trends, recent historical performance, changes to the reporting unit's business model and other relevant factors. We evaluated the reasonableness of the Company's financial projections used in the analysis. We assessed the historical accuracy of management's estimates and significant assumptions to evaluate the changes in the fair value of the reporting unit that would result from changes in the assumptions. We evaluated the incorporation of the applicable assumptions into the model and tested the model's computational accuracy and performed a sensitivity analysis on certain key assumptions.

We have served as the Company's auditor since 2007.

ROCKY BRANDS, INC. AND SUBSIDIARIES

Notes to the Consolidated Financial Statements

1. BASIS OF PRESENTATION AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Principles of Consolidation - The accompanying Consolidated Financial Statements include the accounts of Rocky Brands, Inc. ("Rocky Brands") and its wholly-owned subsidiaries, Lifestyle Footwear, Inc. ("Lifestyle"), Five Star Enterprises Ltd. ("Five Star"), Rocky Brands Canada, Inc. ("Rocky Brands Canada"), Rocky Brands US, LLC, Rocky Brands International, LLC, Lehigh Outfitters, LLC, US Footwear Holdings, LLC, Rocky Brands (Australia) Pty Ltd., Mexico FW Holdings, S. de R.L. de C.V., Rocky Footwear (Chuzhou) Co. Ltd., UK Footwear Holdings Limited and Rocky Outdoor Gear Store, LLC (collectively referred to as the "Company"). All inter-company transactions have been eliminated.

Business Activity - We are a leading designer, manufacturer and marketer of premium quality footwear marketed under a portfolio of well recognized brand names including Rocky, Muck, Georgia Boot, Durango, XTRATUF, Lehigh, Ranger and the licensed brand Michelin. Our brands have a long history of representing high quality, comfortable, functional and durable footwear and our products are organized around six target markets: outdoor, work, duty, commercial military, western and military. In addition, as part of our strategy of outfitting consumers from head-to-toe, we market complementary branded apparel and accessories that we believe leverage the strength and positioning of each of our brands.

Our products are distributed through three distinct business segments: Wholesale, Retail and Contract Manufacturing. Wholesale includes sales of footwear and accessories to several classifications of retailers, including sporting goods stores, outdoor specialty stores, online retailers, marine stores, independent retailers, mass merchants, retail uniform stores and specialty safety shoe stores. Our Retail business includes direct sales of our products to consumers through our e-commerce websites, marketplaces, our Rocky Outdoor Gear Store, and Lehigh businesses. Contract Manufacturing includes sales to the U.S. Military, private label sales and any sales to customers in which we are contracted to manufacture or source a specific footwear product for a customer. See Note 19 for further information.

Estimates - The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Cash and Cash Equivalents - We consider all highly liquid investments purchased with original maturities of three months or less to be cash equivalents. Balances may exceed federally insured limits. We also hold cash outside of the U.S. that is not federally insured.

Allowance for Credit Losses - We maintain an allowance for credit losses on accounts receivable that represents estimated losses resulting from customers' failure to make required payments. We evaluate the allowance for credit losses based on a review of current customer status and historical collection experience along with current and reasonable supportable forecasts of future economic conditions.

Trade Receivables - Trade receivables are presented net of the related allowance for credit losses of approximately \$1.8 million and \$3.5 million at December 31, 2023 and 2022, respectively. We record the allowance based on historical experience, the age of the receivables, and identification of customer accounts that are likely to prove difficult to collect due to various criteria including pending bankruptcy. However, estimates of the allowance in any future period are inherently uncertain and actual allowances may differ from these estimates. If actual or expected future allowances were significantly greater or less than established reserves, a reduction or increase to bad debt expense would be recorded in the period this determination was made. Our credit policy generally provides that trade receivables will be deemed uncollectible and written-off once we have pursued all reasonable efforts to collect on the account. In accordance with ASC 606, the return reserve liability netted against trade receivables was \$1.5 million and \$2.1 million at December 31, 2023 and 2022, respectively.

Concentration of Credit Risk - We have significant transactions with a large number of customers. No customer represented 10% of net trade receivables as of December 31, 2023 and 2022. Our exposure to credit risk is impacted by the economic climate affecting the retail shoe industry. We manage this risk by performing ongoing credit evaluations of our customers, maintaining reserves for potential uncollectible accounts and utilizing credit insurance for some of our key customers.

Supplier and Labor Concentrations - We purchase raw materials from a number of domestic and foreign sources. We produce a portion of our shoes and boots in our Dominican Republic, Puerto Rico and China operations. We are not aware of any governmental or economic restrictions that would alter these current operations.

We source a significant portion of our footwear, apparel and gloves from manufacturers in Asia, primarily in China and Vietnam. We are not aware of any governmental or economic restrictions that would alter our current sourcing operations.

Inventories - Inventories are valued at the lower of cost, determined on a first-in, first-out (FIFO) basis, or net realizable value (NRV). Reserves are established for inventories when the NRV is deemed to be less than its cost based on our periodic estimates of NRV.

Property, Plant and Equipment - We record fixed assets at historical cost and generally utilizes the straight-line method of computing depreciation for financial reporting purposes over the estimated useful lives of the assets as follows:

	Years
Buildings and improvements	5 - 40
Machinery and equipment	3 - 8
Furniture and fixtures	3 - 8
Lasts, dies, and patterns	3

For income tax purposes, we generally compute depreciation utilizing accelerated methods.

Goodwill and Other Intangible Assets - Goodwill represents the excess of the purchase price over the fair value of net tangible and identifiable intangible assets of acquired businesses. Indefinite-lived intangibles include trademarks and trade names. Goodwill and intangible assets deemed to have indefinite lives are not amortized but are subject to impairments tests at least annually. The Company reviews the carrying amounts of goodwill and indefinite-lived intangible assets by reporting unit at least annually, or when indicators of impairment are present, to determine if such assets may be impaired.

The Company may first assess qualitative factors to determine whether it is more likely than not that the fair value of goodwill and indefinite-lived intangible assets are less than their carrying value. The Company would not be required to quantitatively determine the fair value unless the Company determines, based on the qualitative assessment, that it is more likely than not that its fair value is less than the carrying value.

The Company performs its annual testing for goodwill and indefinite-lived intangible asset impairment in the fourth quarter of the fiscal year for all reporting units. Goodwill is quantitatively evaluated for possible impairment by comparing the estimated fair value of the reporting unit with its carrying value, including the goodwill assigned to that reporting unit. An impairment charge is recorded if the carrying value of the reporting unit exceeds its estimated fair value. An indefinite-lived intangible asset is quantitatively evaluated for possible impairment by comparing the estimated fair value of the asset with its carrying value. An impairment charge is recorded if the carrying value of the asset exceeds its estimated fair value.

Other intangible assets determined to have a finite life primarily consist of customer relationships and patents, which are amortized over their estimated useful lives using straight-line amortization. We review intangible assets with finite lives for impairment whenever events or changes in circumstances indicate that the related carrying amounts may not be recoverable. Determining whether an impairment loss occurred requires a comparison of the carrying amount to the sum of the future forecasted undiscounted cash flows expected to be generated by the asset group.

For additional details on goodwill and intangible assets, including information related to our annual test, see Note 8.

Leases - Our leases primarily consist of office buildings, distribution centers, manufacturing facilities and equipment. We lease assets in the normal course of business to meet our current and future needs while providing flexibility to our operations. We enter into contracts with third parties to lease specifically identified assets. Most of our leases have contractually specified renewal periods. Our operating leases expire at various dates through 2027, and contain various provisions for rental adjustments and renewal provisions for varying periods. We determine the lease term for each lease based on the terms of each contract and factor in renewal and early termination options if such options are reasonably certain to be exercised.

Under FASB ASC Topic 842, Leases, we have elected the practical expedient to account for lease components and nonlease components associated with individual leases as a single lease component for all leases. In addition, we have elected to account for multiple lease components as a single lease component. Our leases may include variable lease costs such as payments based on changes to an index, payments based on a percentage of retail store sales, and maintenance, utilities, shared marketing or other service costs that are paid directly to the lessor under terms of the lease. We recognize variable lease payments when the amounts

are incurred and determinable. We have elected to account for leases of twelve months or less as short-term leases and accordingly do not recognize a right-of-use asset or lease liability for these leases. We recognize lease expense for these leases on a straight-line basis over the lease term.

Comprehensive Income - Comprehensive income includes changes in equity that result from transactions and economic events from non-core operations. Comprehensive income is composed of two subsets – net income and other comprehensive income. There were no material other comprehensive income items therefore no Statements of Comprehensive Income were presented.

Revenue Recognition - Revenue is recognized when a performance obligation is completed at a point in time and when the customer has obtained control. Control passes to the customer when they have the ability to direct the use of and obtain substantially all the remaining benefits from the goods transferred. We recognize wholesale and e-commerce revenue at the time the products are shipped and retail store revenue transactions at the point of sale. The amount of revenue recognized is based on the transaction price, which represents the invoiced amount less estimated sales discounts and returns based upon specific customer agreements and historical trends. The Company presents revenue gross of fees and sales commissions. Sales commissions are expensed as incurred and are recorded in operating expenses in the accompanying consolidated statements of operations. The Company's customer contracts do not have a significant financing component due to their short durations, which are typically effective for one year or less and have payment terms that generally range from net 30 to net 120 days.

Cost of Goods Sold - Cost of goods sold represents our costs to manufacture products in our own facilities, including raw materials costs and all overhead expenses related to production, as well as the cost to purchase finished products from our third-party manufacturers. Cost of goods sold also includes the cost to transport these products to our distribution centers.

Advertising - We expense advertising costs as incurred. Advertising expense was approximately \$16.6 million, \$15.4 million and \$17.9 million for 2023, 2022 and 2021, respectively.

Shipping Costs - All shipping costs billed to customers have been included in net sales. All outbound shipping costs to customers have been included in operating expenses and totaled approximately \$25.1 million, \$38.5 million and \$25.1 million in 2023, 2022 and 2021, respectively.

Stock Compensation Expense - We recognize compensation expense for awards of stock options, restricted stock units ("RSUs"), and director stock units based on the fair value on the grant date and on a straight-line basis over the requisite service period for the awards that are expected to vest, with forfeitures estimated based on our historical experience and future expectations. Stock-based compensation is included in operating expenses in the consolidated statements of operations.

Fair Value Measurements - The fair value accounting standard defines fair value, establishes a framework for measuring fair value, and expands disclosures about fair value measurements. This standard clarifies how to measure fair value as permitted under other accounting pronouncements.

The fair value accounting standard defines fair value as the exchange price that would be received for an asset or paid to transfer a liability (an exit price) in the principal or most advantageous market for the asset or liability in an orderly transaction between market participants at the measurement date. This standard also establishes a three-level fair value hierarchy that prioritizes the inputs used to measure fair value. This hierarchy requires entities to maximize the use of observable inputs and minimize the use of unobservable inputs. The three levels of inputs used to measure fair value are as follows:

- Level 1 – Quoted prices in active markets for identical assets or liabilities.
- Level 2 – Observable inputs other than quoted market prices included in Level 1, such as quoted prices for similar assets and liabilities in active markets, quoted prices for identical or similar assets and liabilities in markets that are not active, or other inputs that are observable or can be corroborated by observable market data.
- Level 3 – Unobservable inputs that are supported by little or no market activity and that are significant to the fair value of the assets or liabilities. This includes certain pricing models, discounted cash flow methodologies and similar techniques that use significant unobservable inputs.

The fair values of cash and cash equivalents, receivables, and payables approximated their carrying values because of the short-term nature of these instruments. Receivables consist primarily of amounts due from our customers, net of allowances; amounts due from employees (salespersons' advances in excess of commissions earned and employee travel advances); other customer receivables, net of allowances; and expected insurance recoveries. The carrying amounts of our long-term credit facilities and other short-term financing obligations also approximate fair value, as they are comparable to the available financing in the marketplace during the year. The fair value of our revolving line of credit is categorized as Level 2.

Deferred Compensation Plan Assets and Liabilities - On December 14, 2018, our Board of Directors adopted the Rocky Brands, Inc. Executive Deferred Compensation Plan (the "Executive Deferred Compensation Plan"), which became effective January 1, 2019. The Executive Deferred Compensation Plan is an unfunded nonqualified deferred compensation plan in which certain executives are eligible to participate. The deferrals are held in a separate trust, which has been established for the administration of the Executive Deferred Compensation Plan. The trust assets and liabilities are classified as trading securities within prepaid expenses and other current assets and deferred liabilities, respectively in the accompanying consolidated balance sheets, with changes in the deferred compensation charged to operating expenses in the accompanying consolidated statements of operations. The fair value is based on unadjusted quoted market prices for the funds in active markets with sufficient volume and frequency (Level 1).

Effective August 18, 2020, our Board of Directors adopted a second deferred compensation plan (the "Dominican Plan"). The Dominican Plan is an unfunded nonqualified deferred compensation plan for key employees at our Dominican Republic manufacturing facility. The funds are held in a separate trust, which has been established for the administration of the Dominican Plan. The trust liabilities are classified as trading securities within deferred liabilities in the accompanying consolidated balance sheets, with changes in the deferred compensation charged to operating expenses in the accompanying consolidated statements of operations. The fair value is based on unadjusted quoted market prices for the funds in active markets with sufficient volume and frequency (Level 1).

2. ACCOUNTING STANDARDS UPDATES

Recently Issued Accounting Pronouncements

Rocky Brands, Inc. is currently evaluating the impact of certain ASUs on its Consolidated Financial Statements or Notes to the Consolidated Financial Statements:

Standard	Description	Anticipated Adoption Periods	Effect on the financial statements or other significant matters
ASU 2023-07, Segment Reporting (Topic 280): Improvements to Reportable Segment Disclosures	This pronouncement is intended to improve financial reporting by requiring disclosure of incremental segment information on an annual and interim basis for all public entities to enable investors to develop more decision-useful financial analysis.	Q4 2024 (fiscal year) Q1 2025 (interim period)	We are currently evaluating the impact adopting this standard will have on our Consolidated Financial Statements.
ASU 2023-09, Income Taxes (Topic 740): Improvements to Income Tax Disclosures	The amendments in this update improve the transparency, effectiveness, and comparability of income tax disclosures by requiring (1) consistent categories and greater disaggregation by jurisdiction. The amendments allow investors to better assess, in their capital allocation decisions, how an entity's worldwide operations and related tax risks and tax planning and operational opportunities affect its income tax rate and prospects for future cash flows.	Q1 2025	We are currently evaluating the impact adopting this standard will have on our Consolidated Financial Statements.

In addition to the recently issued accounting pronouncements, the SEC recently issued its final rule regarding climate change disclosures. We are evaluating the impact this final rule will have on our Consolidated Financial Statements.

Accounting Standards Adopted in Current Year

Standard	Description	Effect on the financial statements or other significant matters
ASU 2016-13, Measurement of Credit Losses on Financial Instruments	The pronouncement seeks to provide financial statement users with more decision-useful information about the expected credit losses on financial instruments and other commitments to extend credit held by a reporting entity at each reporting date by replacing the incurred loss impairment methodology in current U.S. GAAP with a methodology that reflects expected credit losses and requires consideration of a broader range of reasonable and supportable information to inform credit loss estimates.	We adopted this standard in Q1 2023 and it did not have a material impact on our financial statements.

3. BUSINESS ACQUISITION

The Performance and Lifestyle Footwear Business of Honeywell International Inc.

On January 24, 2021, we entered into a Purchase Agreement (the "Purchase Agreement") with certain subsidiaries of Honeywell International Inc. (collectively, "Honeywell"), to purchase Honeywell's performance and lifestyle footwear business, including brand names, trademarks, assets and liabilities associated with Honeywell's performance and lifestyle footwear business (the "Acquisition") for an aggregate, adjusted purchase price of \$212 million.

On March 15, 2021 (the "Acquisition Date"), pursuant to the terms and conditions set forth in the Purchase Agreement, we completed the Acquisition for an aggregate preliminary closing price of approximately \$207 million, net of cash acquired, based on preliminary working capital and other adjustments. Upon a final agreement of net working capital as of the Acquisition Date, we owed Honeywell an additional \$5.4 million. The Acquisition was funded through cash on hand and borrowings under two new credit facilities. See Note 10 for information regarding the two credit facilities.

The Acquisition expanded our brand portfolio to include Muck, XTRATUF, Servus, Ranger and NEOS brands (the "Acquired Brands"). We acquired 100% of the voting interests of certain subsidiaries and additional assets comprising the performance and lifestyle footwear business of Honeywell with the Acquisition. On March 30, 2023, we completed the sale of the Servus brand and the related assets. See Note 4 for additional information. On September 30, 2022, we completed the sale of the NEOS brand and the related assets. See Note 5 for additional information.

Through the Acquisition, we have greatly enhanced our powerful portfolio of footwear brands and significantly increased our sales and profitability. We acquired a well-run business with a corporate culture and a customer base similar to ours, which provides meaningful growth opportunities within our existing product categories as well as an entry into new market segments. Its innovative and authentic product collections complement our existing offering with minimal overlap, which we believe will allow us to strengthen our wholesale relationships and serve a wider consumer audience. At the same time, we plan to leverage our existing advanced fulfillment capabilities to improve distribution of the Acquired Brands to wholesale customers and accelerate direct-to-consumer penetration.

In connection with the Acquisition, we also entered into employment agreements with seven key employees from the performance and lifestyle footwear business of Honeywell, pursuant to which, among other things, we agreed to grant 25,000 non-qualified stock options in the aggregate to the seven employees as an inducement for continuing their employment with us.

We acquired multiple leases through the Acquisition including the lease of our Rock Island and China manufacturing facilities and an office building lease in Westwood, Massachusetts. We closed the Rock Island manufacturing Facility in September 2023 and we closed the office in Westwood, Massachusetts in December 2022.

The Acquisition contributed net sales of \$161.9 million, \$242.8 million, and \$179.0 million to our consolidated operating results for the years ended December 31, 2023, 2022 and 2021, respectively. The Acquisition contributed net income of \$16.4 million, \$9.3 million, and \$16.5 million to our consolidated operating results for the years ended December 31, 2023, 2022 and 2021, respectively.

Acquisition-related costs

Costs incurred to complete and integrate the Acquisition are expensed as incurred and included in "operating expenses" in the accompanying consolidated statements of operations. During the years ended December 31, 2023, 2022, and 2021 there were approximately \$2.8 million, \$3.5 million and \$11.9 million, respectively, of Acquisition-related costs recognized. These costs represent investment banking fees, legal and professional fees, transaction fees, integration costs, amortization and consulting fees associated with the Acquisition.

Purchase Price Allocation

The Acquisition has been accounted for under the business combinations accounting guidance. As a result, we have applied acquisition accounting, which requires, among other things, that assets acquired and liabilities assumed be recognized at their fair values as of the Acquisition Date. The aggregate closing price noted above was allocated to the major categories of assets acquired and liabilities assumed based on their fair values at the Acquisition Date using primarily Level 2 and Level 3 inputs. These Level 2 and Level 3 valuation inputs include an estimate of future cash flows and discount rates. Additionally, estimated fair values are based, in part, upon outside valuation for certain assets, including specifically identified intangible assets.

The allocation of the purchase price to the assets acquired and liabilities assumed, including the residual amount allocated to goodwill was as follows:

<i>(\$ in thousands)</i>	Fair Value
Cash	\$ 2,655
Accounts receivable ⁽¹⁾	36,734
Inventories ⁽²⁾	41,057
Property, plant and equipment	16,243
Goodwill ⁽³⁾	50,246
Intangible assets	98,620
Other assets	1,250
Accounts payable	(18,108)
Accrued expenses	(13,634)
Total identifiable net assets	215,063
Cash acquired	(2,655)
Total cash paid, net of cash acquired	<u>\$ 212,408</u>

⁽¹⁾ The recorded amount for accounts receivable considers expected uncollectible amounts of approximately \$0.6 million in its determination of fair value.

⁽²⁾ Fair value of finished goods inventories included step up value of approximately \$3.5 million, all of which was expensed during the twelve months ended December 31, 2021, and is included in "Cost of Goods Sold" in the accompanying consolidated statement of operations.

⁽³⁾ Goodwill largely consists of the acquired workforce, expected costs synergies and economies of scale resulting from the Acquisition.

Unaudited Pro Forma Financial Information

The following unaudited pro forma results of operations assume that the Acquisition occurred at the beginning of the periods presented. These unaudited pro forma results are presented for information purposes only and are not necessarily indicative of what the results of operations would have been if the Acquisition had occurred at the beginning of the periods presented, nor are they indicative of the future results of operations. The pro forma results presented below are adjusted for the removal of the step up value of finished goods inventory associated with the Acquisition of approximately \$3.5 million for the year ended December 31, 2021. The pro forma results presented below are also adjusted for the removal of Acquisition-related costs of approximately \$2.8 million, \$3.5 million and \$11.9 million for the twelve months ended December 31, 2023, 2022 and 2021, respectively.

(\$ in thousands, except per share amount)	Year Ended December 31,		
	2023	2022	2021
Net sales	\$ 461,833	\$ 615,475	\$ 552,905
Net income	\$ 12,518	\$ 23,250	\$ 40,248
Diluted earnings per share	\$ 1.70	\$ 3.16	\$ 5.43

4. SALE OF SERVUS BRAND AND RELATED ASSETS

On March 30, 2023, we completed the sale of the Servus brand and related assets to PQ Footwear, LLC and Petroquim S.R.L. (collectively "the Buyer"). Total consideration for this transaction was approximately \$19.0 million, of which \$17.3 million was received at closing. The remaining \$1.7 million will be paid out in accordance with the purchase agreement. The sale of the Servus brand included the sale of inventory, fixed assets, customer relationships, tradenames and goodwill, all of which related to our Wholesale segment. In connection with the sale of the Servus brand we also are licensing the rights to certain proprietary processes to the Buyer. We recorded a gain on the sale of Servus of approximately \$1.3 million which is recorded within Interest Expense and Other - net on the accompanying consolidated statement of operations for the twelve months ended December 31, 2023.

5. SALE OF NEOS BRAND AND RELATED ASSETS

On September 30, 2022, we completed the sale of the NEOS brand and related assets to certain entities controlled by SureWex pursuant to terms of an asset purchase agreement dated September 30, 2022. Total consideration for this transaction was approximately \$5.8 million, of which \$5.5 million was received at closing. The remaining \$0.3 million was deposited in escrow and shall be managed and paid out in accordance with the terms of the asset purchase agreement and the escrow agreement. The sale of the NEOS brand included the sale of inventory, fixed assets, customer relationships, and tradenames, all of which related to our Wholesale segment. This transaction resulted in the sale of inventory of approximately \$3.6 million recorded in net sales and approximately \$2.4 million recorded in costs of goods sold in the accompanying consolidated statement of operations for the twelve months ended December 31, 2022. Fixed assets, customer relationships and tradenames sold in connection with the sale of the NEOS brand resulted in reduction of operating expenses of approximately \$0.7 million recorded in the accompanying consolidated statement of operations for the twelve months ended December 31, 2022.

6. INVENTORIES

Inventories are comprised of the following:

(\$ in thousands)	December 31, 2023	December 31, 2022
Raw materials	\$ 16,774	\$ 16,541
Work-in-process	912	933
Finished goods	151,515	217,926
Total	<u>\$ 169,201</u>	<u>\$ 235,400</u>

In accordance with ASC 606, the returns reserve included within inventories was approximately \$0.8 million and \$1.1 million at December 31, 2023 and December 31, 2022, respectively.

7. PROPERTY, PLANT, AND EQUIPMENT

Property, plant, and equipment is comprised of the following:

<i>(\$ in thousands)</i>	December 31, 2023	December 31, 2022
Land	\$ 972	\$ 972
Buildings	37,581	37,601
Machinery and equipment	61,148	60,942
Furniture and fixtures	2,006	2,022
Lasts, dies and patterns	11,271	13,973
Construction work-in-progress	8,453	11,798
Total	121,431	127,308
Less - accumulated depreciation	(69,455)	(69,949)
Net Fixed Assets	<u>\$ 51,976</u>	<u>\$ 57,359</u>

We incurred approximately \$8.1 million, \$9.2 million, and \$8.8 million in depreciation expense for 2023, 2022 and 2021, respectively.

8. GOODWILL AND OTHER INTANGIBLE ASSETS

Goodwill and indefinite-lived intangibles are tested for impairment at least annually by comparing the estimated fair values of our reporting units and indefinite-lived intangible assets to their respective carrying values. For goodwill, we estimated the fair value of each reporting unit by weighing the results of the income and market approaches. These valuation approaches consider a number of factors that include, but are not limited to, prospective financial information, growth rates, discount rates, and comparable multiples from publicly traded companies in our industry and require us to make certain assumptions and estimates regarding industry economic factors and future profitability of our business. When performing the income approach, we utilize the present value of cash flows to estimate fair value. The future cash flows for our reporting units were projected based on our estimates, at that time, of future revenues, operating income, and other factors (such as working capital and capital expenditures). The discount rates used were based on a weighted-average cost of capital determined from relevant market comparisons and take into consideration the risk and nature of the respective reporting unit's cash flows. For the market approach, we use the guideline public company method which relies upon valuation multiples derived from stock prices and enterprise values of publicly traded companies that are comparable to the reporting unit being evaluated. To further confirm fair value, we compare the aggregate fair value of our reporting units to our total market capitalization.

The fair value of our trade names was determined based on the income approach using the Relief from Royalty Method. This method requires us to estimate the future revenues for the related brands, the appropriate royalty rate, and the weighted-average cost of capital.

We consider the assumptions used in our determination of the estimated fair value of our reporting units and indefinite-lived intangible assets to be reasonable and comparable to those that would be used by other marketplace participants; however, actual events and results could differ substantially from the estimates used in our valuations. These assumptions include, among other things, estimating future cash flows, including projected revenue and operating results, as well as selecting appropriate discount rates, pricing multiples, and an assumed royalty rate. If an event occurs that would cause us to revise our estimates and assumptions used in analyzing the fair value of our goodwill and other intangible assets, the revision could result in a non-cash impairment charge that could have a material impact on our financial results.

Estimates utilized in the projected cash flows include consideration of macroeconomic conditions, expected growth rates, cost containment and margin expansion, business plans, market position, and the discount rate applied to the cash flows. Unanticipated market or macroeconomic events and circumstances such as supply chain disruptions and the loss of key customers could negatively affect key assumptions used for the recent fair value test and potentially result in goodwill impairment.

After completing our annual impairment test for each reporting unit and our indefinite-lived intangible assets during the fourth quarter of 2023 and 2022, we concluded there was no impairment in either of these years.

We did not have any reporting units that were at risk of failing the first step of the goodwill impairment test. The estimated fair values of the Wholesale and the Retail reporting unit exceeded their carrying amounts at the date of testing by more than 20% for both 2023 and 2022.

The amount of our goodwill that is deductible for tax purposes is \$47.0 million.

The changes in the carrying amount of goodwill are as follows:

<i>(\$ in thousands)</i>	2023	2022
Goodwill balance at beginning of the year	\$ 50,246	\$ 50,246
Sale of Business ⁽¹⁾	(2,402)	-
Goodwill balance at end of the year ⁽²⁾	<u>\$ 47,844</u>	<u>\$ 50,246</u>

⁽¹⁾ Relates to the divestiture of the Servus brand during the year ended December 31, 2023, see Note 4 for additional information.

⁽²⁾ As of December 31, 2023, goodwill allocated to our Wholesale and Retail reporting segments was \$23.0 million and \$24.8 million, respectively. As of December 31, 2022, goodwill allocated to our Wholesale and Retail reporting segments was \$25.4 million and \$24.8 million, respectively. No goodwill was allocated to our Contract Manufacturing segment for either period presented.

A schedule of identified intangible assets is as follows:

<i>(\$ in thousands)</i>	Gross Amount	Accumulated Amortization	Carrying Amount
<u>December 31, 2023</u>			
Trademarks ⁽¹⁾	\$ 78,654	-	\$ 78,654
Patents	895	\$ 845	50
Customer relationships ⁽²⁾	41,659	7,745	33,914
Total Intangibles	<u>\$ 121,208</u>	<u>\$ 8,590</u>	<u>\$ 112,618</u>

⁽¹⁾ Servus trademarks were reduced from approximately \$2.5 million to zero at March 30, 2023 as a result of the sale of the Servus brand (see Note 4).

⁽²⁾ Customer relationships relating to the Servus brand of approximately \$4.3 million and related amortization of approximately \$0.6 million were reduced to zero at March 30, 2023 as a result of the sale of the Servus brand (see Note 4).

<i>(\$ in thousands)</i>	Gross Amount	Accumulated Amortization	Carrying Amount
<u>December 31, 2022</u>			
Trademarks ⁽¹⁾	\$ 81,199	-	\$ 81,199
Patents	895	\$ 826	69
Customer relationships ⁽²⁾	46,006	5,492	40,514
Total Intangibles	<u>\$ 128,100</u>	<u>\$ 6,318</u>	<u>\$ 121,782</u>

⁽¹⁾ NEOS trademarks were reduced from approximately \$0.6 million to zero at December 31, 2022 as a result of the sale of the NEOS brand (see Note 5).

⁽²⁾ Customer relationships relating to the NEOS brand of approximately \$0.9 million and related amortization of approximately \$0.1 million were reduced to zero at December 31, 2022 as a result of the sale of the NEOS brand (see Note 5).

The weighted average remaining life for our patents is 6.0 years.

A schedule of approximate amortization expense related to finite-lived intangible assets for the twelve months ended December 31, 2023, 2022 and 2021 is as follows:

(\$ in thousands)	Twelve Months Ended December 31,		
	2023	2022	2021
Amortization expense	\$ 2,878	\$ 3,131	\$ 2,514

A schedule of approximate expected remaining amortization expense related to finite-lived intangible assets for the years ending December 31 is as follows:

(\$ in thousands)	Amortization Expense	
	2024	2,795
	2025	2,790
	2026	2,788
	2027	2,785
	2028	2,781
	2029+	20,025

9. OTHER ASSETS

Other assets consist of the following:

(\$ in thousands)	December 31, 2023	December 31, 2022
Long-term deposits	\$ 556	\$ 607
NQDC plan assets	409	335
Total	\$ 965	\$ 942

10. LONG-TERM DEBT

On March 15, 2021, we entered into a senior secured term loan facility ("Term Facility") with TCW Asset Management Company, LLC, as agent, for the lenders party thereto in the amount of \$130 million. The Term Facility provided for quarterly payments of principal and bears interest of LIBOR plus 7.00% through June 30, 2021. After this date, interest was assessed quarterly based on our total leverage ratio. The total leverage ratio is calculated as (a) Total Debt to (b) EBITDA. If our total leverage ratio is greater than or equal to 4.00, the effective interest rate will be SOFR plus 7.50% (or at our option, Prime Rate plus 6.50%). If our total leverage ratio is less than 4.00, but greater than 3.00, the effective interest rate will be SOFR plus 7.00% (or at our option, Prime Rate plus 6.00%). If our total leverage ratio is less than 3.00, the effective interest rate will be SOFR plus 6.50% (or at our option, Prime Rate plus 5.50%). The Term Facility also has a SOFR floor rate of 1.00%. In June 2022, we entered into a second amendment with TCW to amend our Term Facility to consent to modifications in our borrowing capacity under the ABL Facility as described below, and to adjust certain pricing and prepayment terms, among other things. The second amendment also modified the interest index whereas SOFR will be used to calculate interest rather than LIBOR. The effective interest rate was increased to SOFR plus 7.50% through November 2022. In November 2022, the Term Facility was amended to increase the effective interest rate to LIBOR plus 7.00% until June 2023 and to provide certain EBITDA adjustments with response to financial covenants, among other things. In May 2023, we entered into a fourth amendment with TCW to further amend our Term Facility to provide certain EBITDA adjustments in respect of the financial covenants, adjust the method to calculate total debt, continue certain pricing terms, extend certain prepayment terms, and pay such lenders certain amendment fees, among other things. In October 2023, we entered into a sixth amendment with TCW to further amend our Term Facility to provide certain EBITDA adjustments with respect to the financial covenants, adjust the performance pricing grid, and adjust the total leverage ratio periodically through June 30, 2025, among other things.

Our Term Facility is collateralized by a second-lien on accounts receivable, inventory, cash and related assets, and a first-lien on substantially all other assets. The Term Facility matures on March 15, 2026.

On March 15, 2021, we also entered into a senior secured asset-based credit facility ("ABL Facility") with Bank of America, N.A. ("Bank of America") as agent, for the lenders party thereto. The ABL Facility provides a new senior secured asset-based revolving credit facility up to a principal amount of \$150 million, which includes a sub-limit for the issuance of letters of credit up to \$5 million. The ABL Facility may be increased up to an additional \$50 million at the Borrowers' request and the Lenders' option, subject to customary conditions. In December of 2021, we amended our ABL Facility to temporarily increase our borrowing capacity from \$150 million to \$175 million until June 2022, at which time our borrowing capacity would have went down to \$165 million. In June 2022, we further amended our ABL Facility to temporarily increase our borrowing capacity by \$25 million to \$200 million through December 31, 2022, which thereafter would have been reduced to \$175 million. In November 2022, we entered into a third amendment to our ABL Facility to provide certain EBITDA adjustments with respect to our financial covenant. The ABL Facility includes a separate first in, last out (FILO) tranche, which allows the Company to borrow at higher advance rates on eligible accounts receivables and inventory balances. In October 2023, we entered into a fifth amendment to our ABL Facility to provide certain EBITDA adjustments with respect to our financial covenant. As of December 31, 2023, we had borrowing capacity of \$31.1 million.

Interest expense was approximately \$22.7 million, \$18.3 million and \$10.6 million, respectively, for the years ended December 31, 2023, 2022 and 2021.

The ABL Facility is collateralized by first-lien on accounts receivable, inventory, cash and related assets and a second-lien on substantially all other assets. The ABL Facility matures on March 15, 2026. Interest on the ABL Facility is based on the amount available to be borrowed as set forth on the following chart:

Revolver Pricing Level	Average Availability as a Percentage of Commitments	Base Rate	Term SOFR Loan	Base Rate for FILO	Term SOFR FILO Loans
I	> 66.7%	0.00%	1.25%	0.50%	1.75%
II	>33.3% and < or equal to 66.7%	0.00%	1.50%	0.50%	2.00%
III	< or equal to 33.3%	0.25%	1.75%	0.75%	2.25%

⁽¹⁾ Tier II applied until June 30, 2021.

In connection with the Term Facility and ABL Facility, we had to pay certain fees that were capitalized and will be amortized over the life of each respective loan. In addition, the ABL Facility requires us to pay an annual collateral management fee in the amount of \$75,000 due on each anniversary of the ABL Facility issuance date, until it matures.

Current and long-term debt consisted of the following:

<i>(\$ in thousands)</i>	December 31, 2023	December 31, 2022
Term Facility that matures in 2026 with an effective interest rate of 13.20% and 12.14% as of December 31, 2023 and December 31, 2022, respectively	\$ 77,932	\$ 116,332
ABL Facility that matures in 2026:		
SOFR borrowings with an effective interest rate of 7.31% and 5.47% as of December 31, 2023 and December 31, 2022, respectively	83,144	140,000
Prime borrowings with an effective interest rate of 8.75% and 7.27% as of December 31, 2023 and December 31, 2022, respectively	13,938	3,301
Total debt	175,014	259,633
Less: Unamortized debt issuance costs	(1,884)	(2,737)
Total debt, net of debt issuance costs	173,130	256,896
Less: Debt maturing within one year	(2,650)	(3,250)
Long-term debt	<u>\$ 170,480</u>	<u>\$ 253,646</u>

Credit Facility Covenants

The Term Facility contains restrictive covenants which require us to maintain a maximum total leverage ratio and a minimum fixed charge coverage ratio, as defined in the agreement. We are in compliance with all Term Facility covenants as of December 31, 2023.

Our ABL Facility contains a restrictive covenant which requires us to maintain a fixed charge coverage ratio upon a triggering event taking place (as defined in the ABL Facility agreement). During the twelve months ended December 31, 2023, there were no triggering events and the covenant was not in effect.

11. LEASES

The operating ROU assets and operating lease liabilities as of December 31, 2023 and December 31, 2022 were as follows:

<i>(\$ in thousands)</i>	December 31, 2023	December 31, 2022	Financial Statement Line Item
Assets:			
Operating ROU Assets	\$ 7,809	\$ 11,014	Leased assets
Liabilities:			
Current			
Operating	\$ 2,628	\$ 3,071	Other accrued expenses
Noncurrent			
Operating	5,461	8,216	Long-term lease
Total leased liabilities	\$ 8,089	\$ 11,287	

Maturities of our operating lease liabilities are as follows:

<i>(\$ in thousands)</i>	Operating Leases
2024	\$ 2,810
2025	2,727
2026	2,359
2027	503
2028	67
Total lease payments	8,466
Less: Interest	(377)
Present value of lease liabilities	\$ 8,089

For the twelve months ended December 31, 2023 and December 31, 2022, the weighted average remaining lease term and discount rate were as follows:

	December 31, 2023	December 31, 2022
Weighted-average remaining lease term (years)		
Operating leases	2.1	2.8
Weighted-average discount rate		
Operating leases	2.6 %	1.4 %

For the twelve months ended December 31, 2023, December 31, 2022 and December 31, 2021 the supplemental cash flow information was as follows:

<i>(\$ in thousands)</i>	December 31, 2023	December 31, 2022	December 31, 2021
Cash paid for amounts included in the measurement of lease liabilities			
Operating cash flows from operating leases	\$ 2,853	\$ 1,492	\$ 1,230
Right-of-use assets obtained in exchange for lease obligations			
Operating leases	\$ 628	\$ 2,786	\$ 13,186

The breakdown of rent expense for our operating leases for the twelve months ended December 31, 2023 and December 31, 2022 were as follows:

(\$ in thousands)	Twelve Months Ended			Financial Statement Line Item
	December 31, 2023	December 31, 2022	December 31, 2021	
Operating lease expenses - Manufacturing & Sourcing ⁽¹⁾	\$ 2,826	\$ 784	\$ 813	Cost of goods sold
Operating lease expenses ⁽¹⁾	1,617	4,595	1,417	Operating expenses
Total lease expenses	\$ 4,443	\$ 5,379	\$ 2,230	

⁽¹⁾ Includes short-term lease expenses of approximately \$0.5 million, \$2.2 million and \$1.3 million for the twelve months ended December 31, 2023, December 31, 2022 and December 31, 2021, respectively.

12. BENEFIT PLAN

We sponsor a 401(k) savings plan for eligible employees. We provide a contribution of 3% of applicable salary to the plan for all employees with greater than six months of service. Additionally, we match eligible employee contributions at a rate of 0.25%, per one percent of applicable salary contributed to the plan by the employee. This matching contribution will be made by us up to a maximum of 1% of the employee's applicable salary for all qualified employees.

Our approximate contributions to the 401(k) Plan were as follows:

(\$ in thousands)	2023	2022	2022
401k plan sponsor contributions	\$ 1,531	\$ 1,798	\$ 1,311

Deferred Compensation Plans

The Executive Deferred Compensation Plan, which became effective January 1, 2019, is an unfunded non-qualified deferred compensation plan in which certain executives are eligible to participate.

Under the Executive Deferred Compensation Plan, participants may elect to defer up to 75% of their base compensation and up to 100% of their bonuses, commissions, and other compensation. The deferred amounts are paid in accordance with each participant's elections made on or before December 31 of the prior year. In addition to elective deferrals, the Executive Deferred Compensation Plan permits the Company to make discretionary contributions to eligible participants, provided that any participant who is employed on the last day of a plan year will receive a Company contribution equal to no less than 3% of the participant's base compensation, bonus earned, and non-equity incentive plan compensation in the plan year. Company contributions will vest in accordance with the vesting schedule determined by the Committee, except in the event of the participant's death, disability or retirement, in which case the contributions will vest 100% upon such event. Participants may elect to receive payment in a lump sum cash payment or, in the event of the participant's retirement, in annual installments for a period of up to ten years. In the event of a participant's termination of employment, deferred amounts will generally be paid within 60 days following the later of the date (i) of such termination or (ii) the participant attains age 60, except where such termination is due to such participant's death, in which case deferred amounts will be paid to such participant's beneficiary within 30 days of confirmation of the participant's death.

The deferrals are held in a separate trust, which has been established by the Company to administer the Executive Deferred Compensation Plan. The assets of the trust are subject to the claims of the Company's creditors in the event that the Company becomes insolvent. Consequently, the trust qualifies as a grantor trust for income tax purposes (i.e., a "Rabbi Trust"). The assets held by the trust were approximately \$0.4 million and \$0.3 million as of December 31, 2023 and December 31, 2022, respectively, and are classified as trading securities within other assets in the accompanying consolidated balance sheets. The liabilities held under the Executive Deferred Compensation Plan were approximately \$0.2 million and \$0.1 million, as of December 31, 2023 and December 31, 2022, respectively, and are classified within deferred liabilities in the accompanying consolidated balance sheets. Changes in the deferred compensation assets and liabilities are charged to operating expenses in the accompanying consolidated statements of operations.

In 2020, we entered into a second deferred compensation plan (the "Dominican Plan"), which became effective August 18, 2020 and is a non-qualified deferred compensation plan for certain key employees at our Dominican Republic manufacturing facility.

Under the Dominican Plan, key employees will receive a set dollar amount, as defined in the agreement, at the later of five years following the effective date of the agreement or upon the employee attaining the age of 65. Payments are due within 30 days of the employee's retirement. If the employee terminates their employment, for any reason, prior to their retirement and five years after the effective date of the agreement, the employee is not eligible to receive a payout. The funds are accrued based on service and are not held in an investment or trust account. The total liabilities held under the Dominican Plan were approximately \$0.3 million and \$0.2 million as of December 31, 2023 and December 31, 2022, respectively, and are classified within deferred liabilities in the accompanying consolidated balance sheets.

13. TAXES

We account for income taxes in accordance with the accounting standard for "Income Taxes," which requires an asset and liability approach to financial accounting and reporting for income taxes. Accordingly, deferred income taxes have been provided for the temporary differences between the financial reporting and the income tax basis of the Company's assets and liabilities by applying enacted statutory tax rates applicable to future years to the basis differences.

A breakdown of our income tax expense (benefit) for the years ended December 31 is as follows:

<i>(\$ in thousands)</i>	2023	2022	2021
Federal:			
Current	\$ 3,877	\$ 5,993	\$ 1,554
Deferred	(977)	(1,417)	1,729
Total Federal	2,900	4,576	3,283
State & local:			
Current	262	1,415	833
Deferred	123	(247)	(176)
Total State & local	385	1,168	657
Foreign			
Current	106	182	907
Deferred	337	(623)	(37)
Total Foreign	443	(441)	870
Total	<u>\$ 3,728</u>	<u>\$ 5,303</u>	<u>\$ 4,810</u>

A reconciliation of recorded Federal income tax expense to the expected expense computed by applying the applicable Federal statutory rate for all periods to income before income taxes follows:

<i>(\$ in thousands)</i>	Year Ended December 31,		
	2023	2022	2021
Expected expense at statutory rate	\$ 2,975	\$ 5,414	\$ 5,327
Increase (decrease) in income taxes resulting from:			
Exempt income from Dominican Republic operations due to tax holiday	(476)	(632)	(1,238)
Tax Rate Differential effect of Foreign Operations	106	160	45
Tax on repatriated earnings from Dominican Republic operations	190	316	941
State and local income taxes	407	734	222
Foreign Tax Credit	(227)	(348)	(547)
Meals and entertainment	66	5	2
Nondeductible penalties	3	6	3
Provision to return filing adjustments	684	(352)	55
Total	<u>\$ 3,728</u>	<u>\$ 5,303</u>	<u>\$ 4,810</u>

Deferred income taxes recorded in the Consolidated Balance Sheets at December 31, 2023 and 2022 consisted of the following:

<i>(\$ in thousands)</i>	2023	2022
Deferred tax assets:		
Asset valuation allowances and accrued expenses	\$ 1,651	\$ 2,257
Inventories	2,428	3,300
State and local income taxes	305	293
Pension and deferred compensation	54	42
Net operating losses	866	794
163(J) Interest limitation	4,644	1,077
Lease asset	1,853	2,608
Total deferred tax assets	11,801	10,371
Valuation allowances	(355)	-
Total deferred tax assets	11,446	10,371
Deferred tax liabilities:		
Fixed assets	4,166	4,490
Intangible assets	11,713	10,262
Other assets	748	793
Tollgate tax on Lifestyle earnings	228	228
State and local income taxes	280	59
Lease Liability	1,786	2,545
Total deferred tax liabilities	18,921	18,377
Net deferred tax liability	<u>\$ 7,475</u>	<u>\$ 8,006</u>

The valuation allowance as of December 31, 2023 is related to certain foreign income tax net operating loss carry forwards.

We have provided Puerto Rico tollgate taxes on approximately \$3.7 million of accumulated undistributed earnings of Lifestyle prior to the fiscal year ended June 30, 1994, that would be payable if such earnings were repatriated to the United States. In 2001, we received abatement for Puerto Rico tollgate taxes on all earnings subsequent to June 30, 1994; thus no other provision for tollgate tax has been made on earnings after that date. If we repatriate the earnings from Lifestyle, \$0.2 million of tollgate tax would be due as of December 31, 2023.

We are subject to tax examinations in various taxing jurisdictions. The earliest exam years open for examination are as follows:

	Earliest Exam Year
Taxing Authority Jurisdiction:	
U.S. Federal	2020
Various U.S. States	2019
Puerto Rico (U.S. Territory)	2018
Canada	2018
China	2020
Mexico	2021
United Kingdom	2021
Australia	2021

Our policy is to accrue interest and penalties on any uncertain tax position as a component of income tax expense. As of December 31, 2023, no such expenses were recognized during the year. We do not believe there will be any material changes in our uncertain tax positions over the next 12 months.

Accounting for uncertainty in income taxes requires financial statement recognition, measurement and disclosure of uncertain tax positions recognized in an enterprise's financial statements. Under this guidance, income tax positions must meet a more-likely-than-not recognition threshold at the effective date to be recognized upon the adoption of the standard. We did not have any unrecognized tax benefits and there was no effect on our financial condition or results of operations.

14. SHAREHOLDERS' EQUITY

Repurchase of Common Stock

Our previous shareholder repurchase program expired on March 4, 2022. We have not announced a new repurchase program since the prior program expired.

Preferred Shares

The Company has authorized 250,000 shares of voting preferred stock with no par value. No shares are issued or outstanding. Also, the Company has authorized 250,000 shares of non-voting preferred stock with no par value. Of these, 125,000 shares have been designated Series A non-voting convertible preferred stock with a stated value of \$0.06 per share, of which no shares are issued or outstanding at December 31, 2023 and 2022.

15. SHARE-BASED COMPENSATION

On May 7, 2014, our shareholders approved the 2014 Omnibus Incentive Plan and in May 2021 this plan was amended as our shareholders authorized an additional 600,000 shares (as amended, the "2014 Plan"). The 2014 Plan includes 1,100,000 of our common shares that may be granted under various types of awards as described in the 2014 Plan. As of December 31, 2023, we were authorized to issue 502,325 shares under the 2014 Plan.

On January 24, 2021, we adopted the 2021 Inducement Option Plan (the "2021 Plan") pursuant to which 25,000 non-qualified stock options were granted to seven key employees acquired with the Acquisition. The 2021 Plan did not require shareholder approval under Nasdaq Listing Rule 5635(c). As of December 31, 2023, no shares were available for grant under the 2021 Plan.

Stock Options

There were no options granted for the year ended December 31, 2023. The following table presents the weighted average assumptions used in the option-pricing model at the grant date for options granted during the years ended December 31:

	2022	2021
Assumptions:		
Risk-free interest rate	0.82%	0.32%
Expected dividend yield	2.15%	1.18%
Expected volatility of Rocky's common stock	54.70%	51.87%
Expected option term (years)	5.1	5.6
Weighted-average grant date fair value per share	\$ 12.85	\$ 12.16

For the years ended December 31, 2023 and 2022, we recognized share-based compensation expense and the corresponding tax benefit as follows:

<i>(\$ in thousands)</i>	2023	2022	2021
Share-based compensation expense	\$ 1,244	\$ 1,230	\$ 1,265
Tax benefit	302	221	192

The following summarizes stock option activity for the year ended December 31, 2023:

<i>(\$ amounts are per share)</i>	Shares	Weighted Average Exercise Price	Weighted Average Remaining Actual Term	Aggregate Intrinsic Value
Options outstanding at January 1, 2023	341,436	\$ 28.87		
Issued	-	-		
Exercised	(38,400)	25.44		
Forfeited or expired	(37,950)	32.05		
Options outstanding at December 31, 2023	<u>265,086</u>	<u>\$ 38.92</u>	<u>4.3</u>	<u>\$ 909,038</u>
Expected to vest	61,550	\$ 32.79	7.1	\$ 74,333
Exercisable at December 31, 2023	<u>203,536</u>	<u>\$ 27.75</u>	<u>3.5</u>	<u>\$ 834,705</u>

For the years ended December 31, 2023, 2022, and 2021 cash received for the exercise of stock options was approximately \$1.0 million, \$0.5 million, and \$0.8 million, respectively.

Restricted Stock Units

The following table summarizes the status of the Company's restricted stock units and activity as of December 31, 2023:

<i>(\$ amounts are per share)</i>	Restricted Stock Units	
	Quantity	Weighted- Average Grant Date Fair Value Per Share
Nonvested at January 1, 2023	1,954	\$ 12.79
Granted	40,812	23.89
Vested	(651)	12.79
Forfeited	(9,703)	23.70
Nonvested at December 31, 2023	<u>32,412</u>	<u>\$ 23.49</u>

As of December 31, 2023, the total unrecognized compensation cost related to non-vested stock options and restricted stock units was approximately \$1.1 million with a weighted-average expense recognition period of 3.0 years.

During the years ended December 31, 2023 and 2022, and 2021 we issued 34,418 shares, 10,762 shares and 6,868 shares of common stock to members of our Board of Directors, respectively.

16. EARNINGS PER SHARE

Basic earnings per share ("EPS") is computed by dividing net income applicable to common shareholders by the weighted average number of common shares outstanding during each period. The diluted earnings per share computation includes common share equivalents, when dilutive.

A reconciliation of the shares used in the basic and diluted income per common share computation for the years ended December 31, as follows:

<i>(shares in thousands)</i>	Twelve Months Ended December 31,		
	2023	2022	2021
Basic - weighted average shares outstanding	<u>7,363</u>	<u>7,317</u>	<u>7,283</u>
Dilutive restricted share units	5	-	-
Dilutive stock options	13	52	126
Diluted - weighted average shares outstanding	<u>7,381</u>	<u>7,369</u>	<u>7,409</u>
Anti-dilutive securities	<u>229</u>	<u>162</u>	<u>25</u>

17. REVENUE

Nature of Performance Obligations

Our products are distributed through three distinct channels, which represent our business segments: Wholesale, Retail and Contract Manufacturing. In our Wholesale business, we distribute our products through a wide range of distribution channels representing over 10,000 retail store locations in the U.S., Canada, and internationally, mainly in Europe. Our Wholesale channels vary by product line and include sporting goods stores, outdoor specialty stores, online retailers, independent retailers, mass merchants, retail uniform stores and specialty safety shoe stores. Our Retail business includes direct sales of our products to consumers through our e-commerce websites, our Rocky Outdoor Gear Store, and Lehigh business. We also sell footwear under the Rocky Brands label to the U.S. Military.

Significant Accounting Policies and Judgements

Revenue is recognized when obligations under the terms of a contract with our customer are satisfied; this generally occurs upon shipment of our product to our customer, which is when the transfer of control of our product passes to the customer. The duration of our arrangements with our customers are typically one year or less. Revenue is measured as the amount of consideration we expect to receive in exchange for the transfer of our products at a point in time and consists of either fixed or variable consideration or a combination of both.

Revenues from sales are recorded at the net sales price, which includes estimates of variable consideration for which reserves are established. Components of variable consideration include prompt payment discounts, volume rebates and product returns. These reserves, as detailed below, are based on the amounts earned or to be claimed on the related sales and are classified as reductions of accounts receivable (if the amount is payable to the customer) or a current liability (if the amount is payable to a party other than a customer).

The amount of variable consideration which is included in the transaction price may be constrained and is included in the net sales price only to the extent that it is probable that a significant reversal in the amount of the cumulative revenue recognized under the contract will not occur in a future period. Our analyses also contemplated application of the constraint in accordance with the guidance, under which it determined a material reversal of revenue would not occur in a future period for the estimates as of December 31, 2023. Actual amounts of consideration ultimately received may differ from our estimates. If actual results in the future vary from our estimates, we will adjust these estimates, which would affect net revenue and earnings in the period such variances become known.

When a customer has a right to a prompt payment discount, we estimate the likelihood that the customer will earn the discount using historical data and adjust our estimate when the estimate of the likelihood that a customer will earn the discount changes or the consideration becomes fixed, whichever occurs earlier. The estimated amount of variable consideration is recognized as a credit to trade receivables and a reduction in revenue until the uncertainty of the variable consideration is alleviated. Because most of our customers have payment terms less than six months there is not a significant financing component in our contracts with customers.

When a customer is offered a rebate on purchases retroactively, this is accounted for as variable consideration because the consideration for the current and past purchases is not fixed until it is known if the discount is earned. We estimate the expected discount the customer will earn at contract inception using historical data and projections and update our estimates when projections materially change or consideration becomes fixed. The estimated rebate is recognized as a credit to trade receivables and offset against revenue until the rebate is earned or the earning period has lapsed.

When a right of return is part of the arrangement with the customer, we estimate the expected returns based on an analysis using historical data. We adjust our estimate either when the most likely amount of consideration we expect to receive changes or when the consideration becomes fixed, whichever occurs earlier. Please see Note 1 and Note 6 for additional information.

Trade receivables represent our right to unconditional payment that only relies on the passage of time.

Contract receivables represent contractual minimum payments required under non-cancellable contracts with the U.S. Military and other customers with a duration of one year or less.

Contract liabilities are performance obligations that we expect to satisfy or relieve within the next twelve months, advance consideration obtained prior to satisfying a performance obligation, or unconditional obligations to provide goods or services under non-cancellable contracts before the transfer of goods or services to the customer has occurred. Our contract liability represents unconditional obligations to provide goods under non-cancellable contracts with the U.S. Military and other customers.

Items considered immaterial within the context of the contract are recognized as an expense.

Taxes assessed by a governmental authority that are both imposed on, and concurrent with, a specific revenue producing transaction, that are collected from customers, are excluded from revenue.

Costs associated with our manufacturer's warranty continue to be recognized as expense when the products are sold in accordance with guidance surrounding product warranties.

Shipping and handling costs associated with outbound freight after control over a product has transferred to a customer are accounted for as a fulfillment cost and are included in operating expenses. This treatment is consistent with how we accounted for these costs in prior periods.

Costs associated with obtaining a contract are expensed as incurred in accordance with the practical expedient in ASC 340-40 in instances where the amortization period is one year or less. We anticipate substantially all costs incurred to obtain a contract would be subject to this practical expedient.

Contract Liabilities

The following table provides information about contract liabilities from contracts with our customers.

<i>(\$ in thousands)</i>	December 31, 2023	December 31, 2022
Contract liabilities	<u>\$ 927</u>	<u>\$ -</u>

Significant changes in the contract liabilities balance during the period are as follows:

<i>(\$ in thousands)</i>	Contract liabilities
Balance, December 31, 2022	-
Non-cancelable contracts with customers entered into during the period	\$ 2,990
Revenue recognized related to non-cancelable contracts with customers during the period	(2,063)
Balance, December 31, 2023	<u>\$ 927</u>

Disaggregation of Revenue

All revenues are recognized at a point in time when control of our products pass to the customer at point of shipment. Because all revenues are recognized at a point in time and are disaggregated by channel, our segment disclosures are consistent with ASC 606 disaggregation requirements. See Note 19 for segment disclosures.

18. SUPPLEMENTAL CASH FLOW INFORMATION

Supplemental cash flow for the years ended December 31, as follows:

<i>(\$ in thousands)</i>	Twelve Months Ended December 31,		
	2023	2022	2021
Interest paid	<u>\$ 13,302</u>	<u>\$ 17,501</u>	<u>\$ 7,930</u>
Federal, state, and local income taxes paid, net	<u>\$ 6,656</u>	<u>\$ 1,930</u>	<u>\$ 8,638</u>
Change in contract receivables, net	<u>\$ (927)</u>	<u>\$ 1,062</u>	<u>\$ 4,108</u>
Change in contract liabilities, net	<u>\$ 927</u>	<u>\$ (1,062)</u>	<u>\$ (4,520)</u>
Property, plant, and equipment purchases in accounts payable	<u>\$ 881</u>	<u>\$ 976</u>	<u>\$ 2,191</u>

19. SEGMENT INFORMATION

Reportable Segments - We have identified three reportable segments: Wholesale, Retail and Contract Manufacturing.

Wholesale. In our Wholesale segment, our products are offered in over 10,000 retail locations representing a wide range of distribution channels in the U.S., Canada, U.K. and other international markets, mainly in Europe. These distribution channels vary by product line and target market and include sporting goods stores, outdoor retailers, independent shoe retailers, hardware stores, catalogs, mass merchants, uniform stores, farm store chains, specialty safety stores, specialty retailers and online retailers.

Retail. In our Retail segment, we market directly to consumers through our Lehigh business-to-business including direct sales and through our CustomFit websites, consumer e-commerce websites, third-party marketplaces, and our Rocky Outdoor Gear Store. Through our outdoor gear store, we generally sell first quality or discontinued products in addition to a limited amount of factory damaged goods, which typically carry lower gross margins.

Contract Manufacturing. In our Contract Manufacturing segment, we include sales to the U.S. Military, private label sales and any sales to customers in which we are contracted to manufacture or source a specific footwear product for a customer.

The following is a summary of segment results for the Wholesale, Retail, and Contract Manufacturing segments for the years ended December 31:

(\$ in thousands)	Year Ended December 31,		
	2023	2022	2021
NET SALES:			
Wholesale	\$ 337,019	\$ 484,779	\$ 391,070
Retail	116,960	115,354	94,658
Contract Manufacturing	7,854	15,342	28,499
Total Net Sales	<u>\$ 461,833</u>	<u>\$ 615,475</u>	<u>\$ 514,227</u>
GROSS MARGIN:			
Wholesale	\$ 119,485	\$ 165,059	\$ 140,166
Retail	58,391	57,817	47,792
Contract Manufacturing	722	2,343	6,578
Total Gross Margin	<u>\$ 178,598</u>	<u>\$ 225,219</u>	<u>\$ 194,536</u>

Segment asset information is not prepared or used to assess segment performance.

Product Group Information - The following is supplemental information on net sales by product group for the years ended December 31:

(\$ in thousands)	2023	% of Sales	2022	% of Sales	2021	% of Sales
Work footwear	\$ 198,096	42.9%	\$ 256,162	41.6%	\$ 280,235	54.5%
Outdoor footwear	130,424	28.2	183,121	29.8	76,031	14.8
Western	70,374	15.2	108,697	17.7	87,425	17.0
Duty and commercial military footwear	50,482	10.9	46,177	7.5	39,715	7.7
Military footwear	7,999	1.7	15,342	2.5	22,767	4.4
Other	3,103	0.7	3,581	0.6	5,149	1.0
Apparel	1,355	0.3	2,395	0.4	2,905	0.6
	<u>\$ 461,833</u>	<u>100.0%</u>	<u>\$ 615,475</u>	<u>100.0%</u>	<u>\$ 514,227</u>	<u>100.0%</u>

Net sales to foreign countries represented approximately 5.1% of net sales in 2023, 6.2% of net sales in 2022 and 6.9% of net sales in 2021.

The net book value of fixed assets located outside of the U.S. totaled \$11.9 million at December 31, 2023, of which approximately \$3.9 million resides in the Dominican Republic and approximately \$8.0 million resides in China.

20. RESTRUCTURING CHARGES

In 2023, we completed a cost savings review aimed at operating efficiencies to better position us for profitable growth. Following the integration of the Acquired Brands, we identified a number of operational synergies and cost savings opportunities, including a reduction in workforce. In addition to the accrued expenses below, we incurred approximately \$1.5 million in restructuring costs that are included in operating expenses in the accompanying consolidated statements of operations for the year ended December 31, 2023.

For the year ended December 31, 2023, the following activity was recorded:

(\$ in thousands)	Employee Severance, Benefits and Related Costs Twelve Months Ended December 31,	
	2023	2022
Accrued expenses, beginning of period	\$ 381	-
Restructuring charges	1,486	\$ 1,201
Cash payments	(885)	(820)
Accrued expenses, end of period	<u>\$ 982</u>	<u>\$ 381</u>

21. COMMITMENTS AND CONTINGENCIES

We are, from time to time, a party to litigation which arises in the normal course of business. Although the ultimate resolution of pending proceedings cannot be determined, in the opinion of management, the resolution of such proceedings in the aggregate will not have a material adverse effect on our financial position, results of operations, or liquidity.

Litigation

We are currently party to litigation with a manufacturing supplier of the Acquired Brands. While it is not possible to predict the outcome of this litigation with certainty, we do not anticipate the resolution will have a material, adverse impact on our financial position. We believe that the likelihood of the resolution being materially adverse to our financial statements is remote and as such have not recorded any contingent liabilities within the accompanying Consolidated Financial Statements. In addition, we have not recorded any potential favorable resolution to the litigation due in accordance with ASC 450-30, Gain Contingencies.

Gain Contingency

In June 2022, we became aware of a misclassification of Harmonized Tariff Schedule (HTS) codes filed with the U.S. Customs and Border Protection (U.S. Customs) on certain products imported into the U.S. associated with the Acquired Brands during 2021 and 2022. As a result of the misclassification of HTS codes we have paid duties in excess of the required amount. We are in the process of filing multiple post summary corrections with U.S. Customs to seek refunds of duties paid in excess of the correct HTS codes. We have the potential to recover the total amount of overpaid duties resulting in a potential refund of approximately \$7.7 million, of which we have received \$1.9 million in refunds during the year ended December 31, 2023 and \$3.2 million in refunds during the year ended December 31, 2022. We are accounting for these post summary corrections as a gain contingency, and as such have not recorded these potential refunds within the accompanying unaudited condensed consolidated balance sheet due to uncertainty of collection. Refunds received will be recognized as a reduction to the cost of goods sold when, and if, the refunds are received.

ITEM 9. CHANGES IN AND DISAGREEMENTS WITH ACCOUNTANTS ON ACCOUNTING AND FINANCIAL DISCLOSURE.

None.

ITEM 9A. CONTROLS AND PROCEDURES.

Evaluation of Disclosure Controls and Procedures

As of the end of the period covered by this report, our management carried out an evaluation, with the participation of our principal executive officer and principal financial officer, of the effectiveness of our disclosure controls and procedures (as defined in Rules 13a-15(e) and 15d-15(e) promulgated under the Securities Exchange Act of 1934, as amended). Based upon that evaluation, our principal executive officer and our principal financial officer concluded that our disclosure controls and procedures were effective as of the end of the period covered by this report. It should be noted that the design of any system of controls is based in part upon certain assumptions about the likelihood of future events, and there can be no assurance that any design will succeed in achieving its stated goals under all potential future conditions, regardless of how remote.

Changes in Internal Control over Financial Reporting

There have been no material changes in our internal control over financial reporting (as defined in Rules 13a-15(f) and 15d-15(f) promulgated under the Exchange Act) during our most recent fiscal quarter that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting. We have made the necessary and appropriate updates to our internal controls as it relates to financial reporting over our Acquired Brands, none of which were material.

Management's Report on Internal Control over Financial Reporting

Our management is responsible for establishing and maintaining adequate internal control over financial reporting, as such term is defined in Rule 13a-15(f) under the Exchange Act. Because of its inherent limitations, internal control over financial reporting may not prevent or detect misstatements. Also, projections of any evaluation of effectiveness to future periods are subject to risk that controls may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate. Under the supervision and with the participation of our principal executive officer and principal financial officer, our management conducted an evaluation of the effectiveness of our internal control over financial reporting based on the framework in Internal Control-Integrated Framework (2013) issued by the Committee of Sponsoring Organizations of the Treadway Commission (COSO) as of December 31, 2023. The scope of management's assessment of the effectiveness of internal control over financial reporting includes all of our businesses. Based upon that evaluation under the framework in Internal Control – Integrated Framework (2013), our management concluded that our internal control over financial reporting was effective as of December 31, 2023. Schneider Downs & Co., Inc., our independent registered public accounting firm has issued an attestation report on the effectiveness of our internal controls over financial reporting which is included within this report.

REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

To the Board of Directors and Shareholders of
Rocky Brands, Inc. and Subsidiaries
Nelsonville, Ohio

Opinion on Internal Control over Financial Reporting

We have audited Rocky Brands, Inc. and Subsidiaries' (the "Company's") internal control over financial reporting as of December 31, 2023, based on criteria established in *Internal Control—Integrated Framework (2013)* issued by the Committee of Sponsoring Organizations of the Treadway Commission (COSO). In our opinion, the Company maintained, in all material respects, effective internal control over financial reporting as of December 31, 2023, based on criteria established in *Internal Control—Integrated Framework (2013)* issued by COSO.

We also have audited, in accordance with the standards of the Public Company Accounting Oversight Board (United States) (PCAOB), the balance sheets and the related statements of income, comprehensive income, stockholders' equity, and cash flows of the Company, and our report dated March 15, 2024 expressed an unqualified opinion.

Basis for Opinion

The Company's management is responsible for maintaining effective internal control over financial reporting, and for its assessment of the effectiveness of internal control over financial reporting, included in the accompanying Management's Report on Internal Control over Financial Reporting. Our responsibility is to express an opinion on the Company's internal control over financial reporting based on our audit. We are a public accounting firm registered with the PCAOB and are required to be independent with respect to the Company in accordance with the U.S. federal securities laws and the applicable rules and regulations of the Securities and Exchange Commission and the PCAOB.

We conducted our audit in accordance with the standards of the PCAOB. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether effective internal control over financial reporting was maintained in all material respects. Our audit of internal control over financial reporting included obtaining an understanding of internal control over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. Our audit also included performing such other procedures as we considered necessary in the circumstances. We believe that our audit provides a reasonable basis for our opinion.

Definition and Limitations of Internal Control over Financial Reporting

A company's internal control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorizations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Because of its inherent limitations, internal control over financial reporting may not prevent or detect misstatements. Also, projections of any evaluation of effectiveness to future periods are subject to the risk that controls may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

ITEM 9B. OTHER INFORMATION.

Trading Plans

During the three months ended December 31, 2023, no director or officer (as defined in Rule 16a-1(f) under the Exchange Act) of the Company adopted or terminated a "Rule 10b5-1 trading arrangement" or "non-Rule 10b5-1 trading arrangement," as each term is defined in Item 408(a) of Regulation S-K.

ITEM 9C. DISCLOSURE REGARDING FOREIGN JURISDICTIONS THAT PREVENT INSPECTION

Not applicable.

PART III

ITEM 10. DIRECTORS, EXECUTIVE OFFICERS AND CORPORATE GOVERNANCE.

The information required by this item is included under the captions "ELECTION OF DIRECTORS," "INFORMATION CONCERNING THE BOARD OF DIRECTORS AND CORPORATE GOVERNANCE," "INFORMATION CONCERNING EXECUTIVE OFFICERS" and "SECTION 16(a) BENEFICIAL OWNERSHIP REPORTING COMPLIANCE" in the Company's Proxy Statement for the 2024 Annual Meeting of Shareholders (the "Company's Proxy Statement") to be held on June 5, 2024, to be filed with the Securities and Exchange Commission pursuant to Regulation 14A promulgated under the Securities Exchange Act of 1934, is incorporated herein by reference.

ITEM 11. EXECUTIVE COMPENSATION.

The information required by this item is included under the captions "EXECUTIVE COMPENSATION" and "REPORT OF THE COMPENSATION COMMITTEE OF THE BOARD OF DIRECTORS" and "COMPENSATION COMMITTEE INTERLOCKS AND INSIDER PARTICIPATION" in the Company's Proxy Statement, and is incorporated herein by reference.

ITEM 12. SECURITY OWNERSHIP OF CERTAIN BENEFICIAL OWNERS AND MANAGEMENT AND RELATED SHAREHOLDER MATTERS.

The information required by this item is included under the caption "PRINCIPAL HOLDERS OF VOTING SECURITIES - OWNERSHIP OF COMMON STOCK BY MANAGEMENT," "- OWNERSHIP OF COMMON STOCK BY PRINCIPAL SHAREHOLDERS," and "EQUITY COMPENSATION PLAN INFORMATION," in the Company's Proxy Statement, and is incorporated herein by reference.

ITEM 13. CERTAIN RELATIONSHIPS AND RELATED TRANSACTIONS AND DIRECTOR INDEPENDENCE.

The information required by this item is included under the caption "INFORMATION CONCERNING THE BOARD OF DIRECTORS AND CORPORATE GOVERNANCE" and "TRANSACTIONS WITH RELATED PERSONS" in the Company's Proxy Statement, and is incorporated herein by reference.

ITEM 14. PRINCIPAL ACCOUNTING FEES AND SERVICES.

The information required by this item is included under the caption "FEES OF THE INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM" in the Company's Proxy Statement, and is incorporated herein by reference.

PART IV

ITEM 15. EXHIBITS AND FINANCIAL STATEMENT SCHEDULES.

(a) THE FOLLOWING DOCUMENTS ARE FILED AS PART OF THIS REPORT:

- (1) The following Financial Statements are included in this Annual Report on Form 10-K in Item 8:
 - Report of Independent Registered Public Accounting Firm
 - Consolidated Balance Sheets as of December 31, 2023 and 2022
 - Consolidated Statements of Operations for the years ended December 31, 2023, 2022 and 2021
 - Consolidated Statements of Shareholders' Equity for the years ended December 31, 2023, 2022 and 2021
 - Consolidated Statements of Cash Flows for the years ended December 31, 2023, 2022 and 2021
 - Notes to Consolidated Financial Statements
- (2) The following financial statement schedule for the years ended December 31, 2023 and 2022 and is included in this Annual Report on Form 10-K and should be read in conjunction with the Consolidated Financial Statements contained in the Annual Report. See Appendix A.
 - Schedule II -- Consolidated Valuation and Qualifying Accounts.

Schedules not listed above are omitted because of the absence of the conditions under which they are required or because the required information is included in the Consolidated Financial Statements or the notes thereto.

(3) Exhibits:

<u>Exhibit Number</u>	<u>Description</u>
2.1	Purchase Agreement, dated January 24, 2021, by and among Honeywell Safety Products USA, Inc., North Safety Products Limited, Honeywell Safety Products (UK) Limited, North Safety de Mexicali S de R.L. de C.V., Honeywell (China) Co. Ltd. and Rocky Brands, Inc. (incorporated by reference to Exhibit 2.1 to the Company's Current Report on Form 8-K dated January 24, 2021, and filed on January 26, 2021).
2.2	Letter Agreement, dated March 14, 2021, by and among Honeywell Safety Products USA, Inc., North Safety Products Limited, Honeywell Safety Products (IK) Limited, North Safety de Mexicali S de R.L. de C.V., Honeywell (China) Co. Ltd. and Rocky Brands, Inc. (incorporated by reference to Exhibit 2.2 to the Company's Quarterly Report on form 10-Q for the fiscal quarter ended March 31, 2021).
