PART I

ITEM 1. BUSINESS.

All references to “we,” “us,” “our,” “Rocky Brands,” or the “Company” in this Annual Report on Form 10-K mean Rocky Brands, Inc. and our subsidiaries.

We are a leading designer, manufacturer and marketer of premium quality footwear and apparel marketed under a portfolio of well recognized brand names including Rocky, Georgia Boot, Durango, Lehigh, Creative Recreation and the licensed brand Michelin. Our brands have a long history of representing high quality, comfortable, functional and durable footwear and our products are organized around six target markets: outdoor, work, duty, commercial military, western and lifestyle. Our footwear products incorporate varying features and are positioned across a range of suggested retail price points from \$49.99 for our value priced products to \$359.99 for our premium products. In addition, as part of our strategy of outfitting consumers from head-to-toe, we market complementary branded apparel and accessories that we believe leverage the strength and positioning of each of our brands.

Our products are distributed through three distinct business segments: wholesale, retail and military. In our wholesale business, we distribute our products through a wide range of distribution channels representing over 10,000 retail store locations in the U.S. and Canada as well as in several international markets. Our wholesale channels vary by product line and include sporting goods stores, outdoor retailers, independent shoe retailers, hardware stores, catalogs, mass merchants, uniform stores, farm store chains, specialty safety stores and other specialty retailers. Our retail business includes direct sales of our products to consumers through our consumer and business websites, our Lehigh Outfitters mobile and retail stores and our Rocky outlet store. We also sell footwear under the Rocky label to the U.S. military.

Competitive Strengths

Our competitive strengths include:

- *Strong portfolio of brands.* We believe the Rocky, Georgia Boot, Durango, Lehigh, Creative Recreation and Michelin brands are well recognized and established names that have a reputation for performance, quality and comfort in the markets they serve: outdoor, work, duty, commercial military, western and lifestyle. We plan to continue strengthening these brands through product innovation in existing footwear markets, by extending certain of these brands into our other target markets and by introducing complementary apparel and accessories under our owned brands.
- *Commitment to product innovation.* We believe a critical component of our success in the marketplace has been a result of our continued commitment to product innovation. Our consumers demand high quality, durable products that incorporate the highest level of comfort and the most advanced technical features and designs. We have a dedicated group of product design and development professionals, including well recognized experts in the footwear and apparel industries, who continually interact with consumers to better understand their needs and are committed to ensuring our products reflect the most advanced designs, features and materials available in the marketplace.
- *Long-term retailer relationships.* We believe that our long history of designing, manufacturing and marketing premium quality, branded footwear has enabled us to develop strong relationships with our retailers in each of our distribution channels. We reinforce these relationships by continuing to offer innovative footwear products, by continuing to meet the individual needs of each of our retailers and by working with our retailers to improve the visual merchandising of our products in their stores. We believe that strengthening our relationships with retailers will allow us to increase our presence through additional store locations and expanded shelf space, improve our market position in a consolidating retail environment and enable us to better understand and meet the evolving needs of both our retailers and consumers.

- *Diverse product sourcing and manufacturing capabilities.* We believe our strategy of utilizing both company operated and third-party facilities for the sourcing of our products, offers several advantages. Operating our own facilities significantly improves our knowledge of the entire production process, which allows us to more efficiently source product from third parties that is of the highest quality and at the lowest cost available. We intend to continue to source a higher proportion of our products from third-party manufacturers, which we believe will enable us to obtain high quality products at lower costs per unit.

Growth Strategy

We intend to increase our sales through the following strategies:

- *Expand into new target markets under existing brands.* We believe there is significant opportunity to extend certain of our brands into our other target markets. We intend to continue to introduce products across varying feature sets and price points in order to meet the needs of our retailers.
- *Cross-sell our brands to our retailers.* We believe that many retailers of our existing and acquired brands target consumers with similar characteristics and, as a result, we believe there is significant opportunity to offer each of our retailers a broader assortment of footwear and apparel that target multiple markets and span a range of feature sets and price points.
- *Expand business internationally.* We intend to extend certain of our brands into international markets. We believe this is a significant opportunity because of the long history and authentic heritage of these brands. We intend on growing our business internationally through a network of distributors.
- *Increase apparel offerings.* We believe the long history and authentic heritage of our owned brands provide significant opportunity to extend each of these brands into complementary apparel. We intend to continue to increase our Rocky apparel offerings and believe that similar opportunities exist for our Georgia Boot and Durango brands in their respective markets.
- *Acquire or develop new brands.* We intend to continue to acquire or develop new brands that are complementary to our portfolio and could leverage our operational infrastructure and distribution network.

Product Lines

Our product lines consist of high quality products that target the following markets:

- *Outdoor.* Our outdoor product lines consist of footwear, apparel and accessory items marketed to outdoor enthusiasts who spend time actively engaged in activities such as hunting, fishing, camping or hiking. Our consumers demand high quality, durable products that incorporate the highest level of comfort and the most advanced technical features, and we are committed to ensuring our products reflect the most advanced designs, features and materials available in the marketplace. Our outdoor product lines consist of all-season sport/hunting footwear, apparel and accessories that are typically waterproof and insulated and are designed to keep outdoorsmen comfortable on rugged terrain or in extreme weather conditions.
- *Work.* Our work product lines consist of footwear and apparel marketed to industrial and construction workers, as well as workers in the hospitality industry, such as restaurants or hotels. All of our work products are specially designed to be comfortable, incorporate safety features for specific work environments or tasks and meet applicable federal and other standards for safety. This category includes products such as safety toe footwear for steel workers and non-slip footwear for kitchen workers.
- *Duty.* Our duty product line consists of footwear products marketed to law enforcement, security personnel and postal employees who are required to spend a majority of time at work on their feet. All of our duty footwear styles are designed to be comfortable, flexible, lightweight, slip resistant and durable. Duty footwear is generally designed to fit as part of a uniform and typically incorporates stylistic features, such as black leather uppers in addition to the comfort features that are incorporated in all of our footwear products.
- *Commercial Military.* Our commercial military product line consists of footwear products marketed to military personnel as a substitute for the government issued military boots. Our commercial military boots are designed to be comfortable, lightweight, and durable and are marketed under the Rocky brand name.

- *Western.* Our western product line currently consists of authentic footwear products marketed to farmers and ranchers who generally live in rural communities in North America. We also selectively market our western footwear to consumers enamored with the western lifestyle.
- *Lifestyle.* Our lifestyle product line currently consists of footwear products marketed to more fashion minded urban consumers.

Our products are marketed under five well-recognized, proprietary brands, Rocky, Georgia Boot, Durango, Creative Recreation and Lehigh, in addition to the licensed brand Michelin.

Rocky

Rocky, established in 1979, is our premium priced line of branded footwear, apparel and accessories. We currently design Rocky products for each of our five target markets and offer our products at a range of suggested retail price points: \$69.99 to \$339.99 for our footwear products, \$18.99 to \$174.99 for tops and bottoms in our apparel lines and \$8.99 to \$599.99 for our basic and technical outerwear.

The Rocky brand originally targeted outdoor enthusiasts, particularly hunters, and has since become the market leader in the hunting boot category. In 2002, we also extended into hunting apparel, including jackets, pants, gloves and caps. Our Rocky products for hunters and other outdoor enthusiasts are designed for specific weather conditions and the diverse terrains of North America. These products incorporate a range of technical features and designs such as Gore-Tex waterproof breathable fabric, 3M Thinsulate insulation, nylon Cordura fabric and camouflaged uppers featuring either Mossy Oak or Realtree patterns. Rugged outsoles made by industry leaders like Vibram are sometimes used in conjunction with our proprietary design features like the “Rocky Ride Comfort System” to make the products durable and easy to wear.

We also produce Rocky duty and commercial military footwear targeting law enforcement professionals, military, security workers and postal service employees, and we believe we have established a leading market share position in this category.

In 2002, we introduced Rocky work footwear designed for varying weather conditions or difficult terrain, particularly for people who make their living outdoors such as those in lumber or forestry occupations. These products typically include many of the proprietary features and technologies that we incorporate in our hunting and outdoor products. Similar to our strategy for the outdoor market, we introduced rugged work apparel in 2004, such as ranch jackets and carpenter jeans.

We have also introduced western influenced work boots for farmers and ranchers. Most of these products are waterproof, insulated and utilize our proprietary comfort systems. We also recently introduced some men’s and women’s casual western footwear for consumers enamored with western influenced fashion.

Georgia Boot

Georgia Boot was launched in 1937 and is our moderately priced, high quality line of work footwear. Georgia Boot footwear is sold at suggested retail price points ranging from \$54.99 to \$359.99. This line of products primarily targets construction workers and those who work in industrial plants where special safety features are required for hazardous work environments. Many of our boots incorporate steel toes or metatarsal guards to protect wearers’ feet from heavy objects and non-slip outsoles to prevent slip related injuries in the work place. All of our boots are designed to help prevent injury and subsequent work loss and are designed according to standards determined by the Occupational Safety & Health Administration or other standards required by employers.

In addition, we market a line of Georgia Boot footwear to brand loyal consumers for hunting and other outdoor activities. These products are primarily all leather boots distributed in the western and southwestern states where hunters do not require camouflaged boots or other technical features incorporated in our Rocky footwear.

We believe the Georgia Boot brand can be extended into moderately priced duty footwear as well as outdoor and work apparel.

Durango

Durango is our moderately priced, high quality line of western footwear and leather jackets. Launched in 1965, the brand has developed broad appeal and earned a reputation for authenticity and quality in the western footwear and apparel market. Our current line of products is offered at suggested retail price points ranging from \$49.99 to \$359.99, and we market products designed for both work and casual wear. Our Durango line of products primarily targets farm and ranch workers who live in the heartland where western influenced footwear and apparel is worn for work and casual wear and, to a lesser extent, this line appeals to urban consumers enamored with western influenced fashion. Many of our western boots marketed to farm and ranch workers are designed to be durable, including special "barn yard acid resistant" leathers to maintain integrity of the uppers, and incorporate our proprietary "Comfort Core" system to increase ease of wear and reduce foot fatigue. Other products in the Durango line that target casual and fashion oriented consumers have colorful leather uppers and shafts with ornate stitch patterns and are offered for men, women and children.

Creative Recreation

In December 2013, we completed the acquisition of certain assets of Kommonwealth, Inc. including the Creative Recreation trademark. Headquartered in Los Angeles, California, since 2002, Creative Recreation was first to create and market versatile footwear that could easily transition between casual and more formal environments. Creative Recreation's collections of upscale sneakers quickly gained strong acceptance and support from a wide array of key influencers across multiple categories including music, sports, and acting. Creative Recreation's ability to successfully fuse style and versatility across a diversified assortment of products has created a wide target demographic and a strong distribution network that spans multiple channels and price points including Barneys New York, Nordstrom and Journeys. The current line of products is offered at suggested retail price points ranging from \$30.00 to \$200.00.

Lehigh

The Lehigh brand was launched in 1922 and is our moderately priced, high quality line of safety shoes sold at suggested retail price points ranging from \$79.99 to \$234.99. Our current line of products is designed to meet occupational safety footwear needs. Most of this footwear incorporates steel toes to protect workers and often incorporates other safety features such as metatarsal guards or non-slip outsoles. Additionally, certain models incorporate durability features to combat abrasive surfaces or caustic substances often found in some work places.

With the shift in manufacturing jobs to service jobs in the U.S., Lehigh began marketing products for the hospitality industry. These products have non-slip outsoles designed to reduce slips, trips and falls in kitchen environments where floors are often tiled and greasy. Price points for this kind of footwear range from \$49.99 to \$89.99.

Michelin

Michelin is a premier price point line of work footwear targeting specific industrial professions, primarily indoor professions. The license to design, develop and manufacture footwear under the Michelin name was secured in 2006. Suggested retail prices for the Michelin brand are from \$35.00 to \$249.99. The license agreement for the Michelin brand expires December 31, 2015.

Sales and Distribution

Our products are distributed through three distinct business segments: wholesale, retail and military. You can find more information regarding our three business segments in Note 14 to our consolidated financial statements.

Wholesale

In the U.S., we distribute Rocky, Georgia Boot, Durango, Creative Recreation and Michelin products through a wide range of wholesale distribution channels. As of December 31, 2014, our products were offered for sale at over 10,000 retail locations in the U.S. and Canada.

We sell our products to wholesale accounts in the U.S. primarily through a dedicated in-house sales team who carry our branded products exclusively, as well as independent sales representatives who carry our branded products and other non-competing products. Our sales force for Rocky is organized around major accounts, including Bass Pro Shops, Cabela's, Dick's Sporting Goods, Tractor Supply Company and Gander Mountain, and around our target markets: outdoor, work, duty, commercial military and western. For our Georgia Boot and Durango brands, our sales employees are organized around each brand and target a broad range of distribution channels. All of our sales people actively call on their retail customer base to educate them on the quality, comfort, technical features and breadth of our product lines and to ensure that our products are displayed effectively at retail locations.

Our wholesale distribution channels vary by market:

- Our outdoor products are sold primarily through sporting goods stores, outdoor specialty stores, catalogs and mass merchants.
- Our work-related products are sold primarily through retail uniform stores, catalogs, farm store chains, specialty safety stores, independent shoe stores and hardware stores.
- Our duty products are sold primarily through uniform stores and catalog specialists.
- Our commercial military products are sold primarily through base exchanges such as AAFES and consumer websites.
- Our western products are sold through western stores, work specialty stores, specialty farm and ranch stores and more recently, fashion oriented footwear retailers.
- Our lifestyle products are sold primarily through fashion oriented footwear retailers.

Retail

We market products directly to consumers through three retail strategies under the Lehigh retail brand: Lehigh business-to-business including direct sales and through our Custom Fit websites, consumer e-commerce websites, and our stores, which include our outlet store, mobile and retail stores.

Websites

We sell our product lines on our websites at www.rockyboots.com, www.georgiaboot.com, www.durangoboot.com, www.lehighoutfitters.com, www.lehighsafetyshoes.com, www.slipgrips.com, www.rockymilitary.com, www.rockys2v.com, westernretailer.com, 4eursole.com, cr8rec.com and tacticaldemand.com. We believe that our internet presence allows us to showcase the breadth and depth of our product lines in each of our target markets and enables us to educate our consumers about the unique technical features of our products. We also sell directly to our business customers directly through our Custom Fit websites that are tailored to the specific needs of our customers. Our customers' employees order directly through their employers' established Custom Fit website and the footwear is delivered directly to the consumer via a common freight carrier. Our customers include large, national companies such as Carnival Cruise Lines, Princess Cruise Lines, AK Steel, Pepsi, Schneider, Hagemeyer, Saint Gobain, Holland America Cruise Lines, and Waste Management.

Outlet Store

We operate the Rocky outlet store in Nelsonville, Ohio. Our outlet store primarily sells first quality or discontinued products in addition to a limited amount of factory damaged goods. Related products from other manufacturers are also sold in the store. Our outlet store allows us to showcase the breadth of our product lines as well as to cost-effectively sell slow-moving inventory. Our outlet store also provides an opportunity to interact with consumers to better understand their needs.

Mobile and Retail Stores

Lehigh's successful continued focus on converting our customers from delivery via our mobile and retail stores to purchasing via our Custom Fit sites and delivery direct has led to the reduction of the mobile and retail stores in the past several years. In 2015 we will continue to service New York City Transit Authority, Savannah River Nuclear site, and the state of Hawaii with mobile and retail stores.

Military

While we are focused on continuing to build our wholesale and retail business, we also actively bid on footwear contracts with the U.S. military, which requires products to be made in the U.S. Our manufacturing facilities in Puerto Rico, a U.S. territory, allow us to competitively bid for such contracts. We have received an order to fulfill a contract to the U.S. Military to produce "Hot Weather" combat boots. We began shipping boots in the first quarter of 2013. The contract included a minimum purchase amount of \$3.0 million and a maximum of \$15.0 million for the first year and included an option for four additional years with the same terms. During 2014, we shipped boots under this same agreement.

All of our footwear for the U.S. military is currently branded Rocky. We believe that many U.S. service men and women are active outdoor enthusiasts and may be employed in many of the work and duty markets that we target with our brands. As a result, we believe our sales to the U.S. military serve as an opportunity to reach our target demographic with high quality branded products.

Marketing and Advertising

We believe that our brands have a reputation for high quality, comfort, functionality and durability built through their long history in the markets they serve. To further increase the strength and awareness of our brands, we have developed comprehensive marketing and advertising programs to gain national exposure and expand brand awareness for each of our brands in their target markets.

We have focused the majority of our advertising efforts on consumers in support of our retail partners. A key component of this strategy includes in-store point of purchase materials that add a dramatic focus to our brands and the products our retail partners carry. We also advertise through targeted national and local cable programs and print publications aimed at audiences that share the demographic profile of our typical customers. In addition, we promote our products on national radio broadcasts and through event sponsorships. These sponsorships provide significant national exposure for all of our brands as well as a direct connection to our target consumer. Our print advertisements and radio and television commercials emphasize the technical features of our products as well as their high quality, comfort, functionality and durability.

We also support independent dealers by listing their locations in our national print advertisements. In addition to our national advertising campaigns, we have developed attractive merchandising displays and store-in-store concept fixturing that are available to our retailers who purchase the breadth of our product lines. We also attend numerous tradeshows which allow us to showcase our entire product line to retail buyers and have historically been an important source of new accounts.

Product Design and Development

We believe that product innovation is a key competitive advantage for us in each of our markets. Our goal in product design and development is to continue to create and introduce new and innovative footwear and apparel products that combine our standards of quality, functionality and comfort and that meet the changing needs of our retailers and consumers. Our product design and development process is highly collaborative and is typically initiated both internally by our development staff and externally by our retailers and suppliers, whose employees are generally active users of our products and understand the needs of our consumers. Our product design and development personnel, marketing personnel and sales representatives work closely together to identify opportunities for new styles, camouflage patterns, design improvements and newer, more advanced materials. We have a dedicated group of product design and development professionals, some of whom are well recognized experts in the footwear and apparel industries, who continually interact with consumers to better understand their needs and are committed to ensuring our products reflect the most advanced designs, features and materials available in the marketplace.

Manufacturing and Sourcing

We manufacture footwear in facilities that we operate in the Dominican Republic and Puerto Rico, and source footwear, apparel and accessories from third-party facilities, primarily in China. We do not have long-term contracts with any of our third-party manufacturers. The products purchased from GuangDong Dongguan YongDu Shoes Company, one of our third-party manufacturers in China with whom we have had a long-term relationship, represented approximately 13% of our net sales in 2014. The products purchased from General Shoes US Corporation and its subsidiaries, another one of our third-party manufacturers in China with whom we have had a relationship for over 20 years and which has historically accounted for a significant portion of our manufacturing, represented approximately 10% of our net sales in 2014. We believe that operating our own facilities significantly improves our knowledge of the entire raw material sourcing and manufacturing process enabling us to more efficiently source finished goods from third parties that are of the highest quality and at the lowest cost available. In addition, our Puerto Rican facilities allow us to produce footwear for the U.S. military and other commercial businesses that require production by a U.S. manufacturer. Sourcing products from offshore third-party facilities generally enables us to lower our costs per unit while maintaining high product quality and it limits the capital investment required to establish and maintain company operated manufacturing facilities. Because quality is an important part of our value proposition to our retailers and consumers, we source products from manufacturers who have demonstrated the intent and ability to maintain the high quality that has become associated with our brands.

Quality control is stressed at every stage of the manufacturing process and is monitored by trained quality assurance personnel at each of our manufacturing facilities, including our third-party factories. In addition, we utilize a team of procurement, quality control and logistics employees in our China office to visit factories to conduct quality control reviews of raw materials, work in process inventory and finished goods. We also utilize quality control personnel at our finished goods distribution facilities to conduct quality control testing on incoming sourced finished goods and raw materials and inspect random samples from our finished goods inventory from each of our manufacturing facilities to ensure that all items meet our high quality standards.

Foreign Operations and Sales Outside of the United States

Our products are primarily distributed in the United States, Canada, South America, Europe and Asia. We ship our products from our finished goods distribution facility located in Logan, Ohio and third-party logistics operations in Kent, Washington and Ontario, Canada. Certain of our retailers receive shipments directly from our manufacturing sources, including all of our U.S. military sales, which are shipped directly from our manufacturing facilities in Puerto Rico. Net sales to foreign countries, primarily Canada, represented approximately 6.3% of net sales in 2014, 2.9 % of net sales in 2013, and 3.9% of net sales in 2012.

As previously mentioned, we maintain manufacturing facilities that we operate in the Dominican Republic and Puerto Rico. In addition, we utilize a third party distribution facility in Canada and an office in China to support our contract manufacturers.

The net book value of fixed assets located outside of the U.S. totaled \$4.7 million at December 31, 2014, \$4.9 million at December 31, 2013, and \$4.4 million at December 31, 2012.

Suppliers

We purchase raw materials from sources worldwide. We do not have any long-term supply contracts for the purchase of our raw materials, except for limited blanket orders on leather to protect wholesale selling prices for an extended period of time. The principal raw materials used in the production of our products, in terms of dollar value, are leather, Gore-Tex waterproof breathable fabric, Cordura nylon fabric and soling materials. We believe these materials will continue to be available from our current suppliers. However, in the event these materials are not available from our current suppliers, we believe these products, or similar products, would be available from alternative sources.

Seasonality and Weather

Historically, we have experienced significant seasonal fluctuations in our business because we derive a significant portion of our revenues from sales of our outdoor products. Many of our outdoor products are used by consumers in cold or wet weather. As a result, a majority of orders for these products are placed by our retailers in January through April for delivery in July through October. In order to meet demand, we must manufacture and source outdoor footwear year round to be in a position to ship advance orders for these products during the last two quarters of each year. Accordingly, average inventory levels have been highest during the second and third quarters of each year and sales have been highest in the last two quarters of each year. In addition, mild or dry weather conditions historically have had a material adverse effect on sales of our outdoor products, particularly if they occurred in broad geographical areas during late fall or early winter. Since 2005, we have experienced and we expect that we will continue to experience less seasonality and that our business will be subject to reduced weather risk because we now derive a higher proportion of our sales from work-related footwear products. Generally, work, duty and western footwear is sold year round and is not subject to the same level of seasonality or variation in weather as our outdoor product lines. However, because of seasonal fluctuations and variations in weather conditions from year to year, there is no assurance that the results for any particular interim period will be indicative of results for the full year or for future interim periods. With the acquisition of the Creative Recreation brand and the move toward more lifestyle geared products that are less dependent on weather conditions, we hope to reduce the seasonality and dependence on the variations in the weather.

Backlog

At December 31, 2014, our backlog was \$21.6 million compared to \$16.7 million at December 31, 2013. Because a substantial portion of our orders are placed by our retailers in January through April for delivery in July through October, our backlog is lowest during the October through December period and peaks during the April through June period. Factors other than seasonality could have a significant impact on our backlog and, therefore, our backlog at any one point in time may not be indicative of future results. Generally, orders may be canceled by retailers prior to shipment without penalty.

Patents, Trademarks and Trade Names

We own numerous design and utility patents for footwear, footwear components (such as insoles and outsoles) and outdoor apparel in the U.S. and in foreign countries including Canada, Mexico, China and Taiwan. We own U.S. and certain foreign registrations for the trademarks used in our business, including our trademarks Rocky, Georgia Boot, Durango, Lehigh and Creative Recreation. In addition, we license trademarks, including Gore-Tex and Michelin, in order to market our products.

Our license with W. L. Gore & Associates, Inc. permits us to use the Gore-Tex and related marks on products and styles that have been approved in advance by Gore. The license agreement may be terminated by either party upon advance written notice to the other party by October 1 for termination effective December 31 of that same year.

Our license with Michelin Lifestyle Limited permits us to use the Michelin and related marks on our products. Our license agreement with Michelin Lifestyle Limited to use the Michelin name extends through December 31, 2015.

In the U.S., our patents are generally in effect for up to 20 years from the date of the filing of the patent application. Our trademarks are generally valid as long as they are in use and their registrations are properly maintained and have not been found to become generic. Trademarks registered outside of the U.S. generally have a duration of 10 years depending on the jurisdiction and are also generally subject to an indefinite number of renewals for a like period upon appropriate application.

While we have an active program to protect our intellectual property by filing for patents and trademarks, we do not believe that our overall business is materially dependent on any individual patent or trademark. We are not aware of any infringement of our intellectual property rights or that we are infringing any intellectual property rights owned by third parties. Moreover, we are not aware of any material conflicts concerning our trademarks or our use of trademarks owned by others.

Competition

We operate in a very competitive environment. Product function, design, comfort, quality, technological and material improvements, brand awareness, timeliness of product delivery and pricing are all important elements of competition in the markets for our products. We believe that the strength of our brands, the quality of our products and our long-term relationships with a broad range of retailers allows us to compete effectively in the footwear and apparel markets that we serve. However, we compete with footwear and apparel companies that have greater financial, marketing, distribution and manufacturing resources than we do. In addition, many of these competitors have strong brand name recognition in the markets they serve.

The footwear and apparel industry is also subject to rapid changes in consumer preferences. Some of our product lines are susceptible to changes in both technical innovation and fashion trends. Therefore, the success of these products and styles are more dependent on our ability to anticipate and respond to changing product, material and design innovations as well as fashion trends and consumer demands in a timely manner. Our inability or failure to do so could adversely affect consumer acceptance of these product lines and styles and could have a material adverse effect on our business, financial condition and results of operations.

Employees

At December 31, 2014, we had approximately 2,714 employees of which approximately 2,687 are full time employees. Approximately 2,261 of our employees work in our manufacturing facilities in the Dominican Republic and Puerto Rico. None of our employees are represented by a union. We believe our relations with our employees are good.

Available Information

We make available free of charge on our corporate website, www.rockybrands.com, our annual report on Form 10-K, quarterly reports on Form 10-Q, current reports on Form 8-K and, if applicable, amendments to those reports filed or furnished pursuant to Section 13(a) or 15(d) of the Securities Exchange Act of 1934, as amended, as soon as reasonably practicable after such reports are electronically filed with or furnished to the Securities and Exchange Commission.

ITEM 1A. RISK FACTORS.

Business Risks

Expanding our brands into new footwear and apparel markets may be difficult and expensive, and if we are unable to successfully continue such expansion, our brands may be adversely affected, and we may not achieve our planned sales growth.

Our growth strategy is founded substantially on the expansion of our brands into new footwear and apparel markets. New products that we introduce may not be successful with consumers or one or more of our brands may fall out of favor with consumers. If we are unable to anticipate, identify or react appropriately to changes in consumer preferences, we may not grow as fast as we plan to grow or our sales may decline, and our brand image and operating performance may suffer.

Furthermore, achieving market acceptance for new products will likely require us to exert substantial product development and marketing efforts, which could result in a material increase in our selling, general and administrative, or SG&A, expenses, and there can be no assurance that we will have the resources necessary to undertake such efforts. Material increases in our SG&A expenses could adversely impact our results of operations and cash flows.

We may also encounter difficulties in producing new products that we did not anticipate during the development stage. Our development schedules for new products are difficult to predict and are subject to change as a result of shifting priorities in response to consumer preferences and competing products. If we are not able to efficiently manufacture newly-developed products in quantities sufficient to support retail distribution, we may not be able to recoup our investment in the development of new products. Failure to gain market acceptance for new products that we introduce could impede our growth, reduce our profits, adversely affect the image of our brands, erode our competitive position and result in long term harm to our business.

A majority of our products are produced outside the U.S. where we are subject to the risks of international commerce.

A majority of our products are produced in the Dominican Republic and China. Therefore, our business is subject to the following risks of doing business offshore:

- the imposition of additional United States legislation and regulations relating to imports, including quotas, duties, taxes or other charges or restrictions;
- foreign governmental regulation and taxation;
- fluctuations in foreign exchange rates;
- changes in economic conditions;
- transportation conditions and costs in the Pacific and Caribbean;
- changes in the political stability of these countries; and
- changes in relationships between the United States and these countries.

If any of these factors were to render the conduct of business in these countries undesirable or impracticable, we would have to manufacture or source our products elsewhere. There can be no assurance that additional sources or products would be available to us or, if available, that these sources could be relied on to provide product at terms favorable to us. The occurrence of any of these developments could have a material adverse effect on our business, financial condition, results of operations and cash flows.

Our success depends on our ability to anticipate consumer trends.

Demand for our products may be adversely affected by changing consumer trends. Our future success will depend upon our ability to anticipate and respond to changing consumer preferences and technical design or material developments in a timely manner. The failure to adequately anticipate or respond to these changes could have a material adverse effect on our business, financial condition, results of operations and cash flows.

Loss of services of our key personnel could adversely affect our business.

The development of our business has been, and will continue to be, highly dependent upon David Sharp, President and Chief Executive Officer, and James E. McDonald, Executive Vice President, Chief Financial Officer and Treasurer. Messrs. Sharp and McDonald each have an at-will employment agreement with us. Each employment agreement provides that in the event of termination of employment, without cause, the terminated executive will receive a severance benefit. In the event of termination for any reason, the terminated executive may not compete with us for a period of one year. Except for Gary Adam, President – Sales of Rocky Brands International, LLC, Jason Brooks, President – Sales of Rocky Brands Wholesale, LLC, and Richard Simms, President – Marketing Services, and Michael Walker, Senior Vice President and General Manager, Supply Chain Operations, of the Company, none of our other executive officers and key employees has an employment agreement with our company. The loss of the services of any of these officers could have a material adverse effect on our business, financial condition, results of operations and cash flows.

We depend on a limited number of suppliers for key production materials, and any disruption in the supply of such materials could interrupt product manufacturing and increase product costs.

We purchase raw materials from a number of domestic and foreign sources. We do not have any long-term supply contracts for the purchase of our raw materials, except for limited blanket orders on leather. The principal raw materials used in the production of our footwear, in terms of dollar value, are leather, Gore-Tex waterproof breathable fabric, Cordura nylon fabric and soling materials. Availability or change in the prices of our raw materials could have a material adverse effect on our business, financial condition, results of operations and cash flows.

We currently have a licensing agreement for the use of Gore-Tex waterproof breathable fabric, and any termination of this licensing agreement could impact our sales of waterproof products.

We are currently one of the largest customers of Gore-Tex waterproof breathable fabric for use in footwear. Our licensing agreement with W.L. Gore & Associates, Inc. may be terminated by either party upon advance written notice to the other party by October 1 for termination effective December 31 of that same year. Although other waterproofing techniques and materials are available, we place a high value on our Gore-Tex waterproof breathable fabric license because Gore-Tex has high brand name recognition with our customers. The loss of our license to use Gore-Tex waterproof breathable fabric could have a material adverse effect on our competitive position, which could have a material adverse effect on our business, financial condition, results of operations and cash flows.

Our outdoor products are seasonal.

We have historically experienced significant seasonal fluctuations in our business because we derive a significant portion of our revenues from sales of our outdoor products. Many of our outdoor products are used by consumers in cold or wet weather. As a result, a majority of orders for these products are placed by our retailers in January through April for delivery in July through October. In order to meet demand, we must manufacture and source outdoor footwear year round to be in a position to ship advance orders for these products during the last two quarters of each year. Accordingly, average inventory levels have been highest during the second and third quarters of each year and sales have been highest in the last two quarters of each year. There is no assurance that we will have either sufficient inventory to satisfy demand in any particular quarter or have sufficient demand to sell substantially all of our inventory without significant markdowns.

Our outdoor products are sensitive to weather conditions.

Historically, our outdoor products have been used primarily in cold or wet weather. Mild or dry weather has in the past and may in the future have a material adverse effect on sales of our products, particularly if mild or dry weather conditions occur in broad geographical areas during late fall or early winter. Also, due to variations in weather conditions from year to year, results for any single quarter or year may not be indicative of results for any future period.

Our business could suffer if our third-party manufacturers violate labor laws or fail to conform to generally accepted ethical standards.

We require our third-party manufacturers to meet our standards for working conditions and other matters before we are willing to place business with them. As a result, we may not always obtain the lowest cost production. Moreover, we do not control our third-party manufacturers or their respective labor practices. If one of our third-party manufacturers violates generally accepted labor standards by, for example, using forced or indentured labor or child labor, failing to pay compensation in accordance with local law, failing to operate its factories in compliance with local safety regulations or diverging from other labor practices generally accepted as ethical, we likely would cease dealing with that manufacturer, and we could suffer an interruption in our product supply. In addition, such a manufacturer's actions could result in negative publicity and may damage our reputation and the value of our brand and discourage retail customers and consumers from buying our products.

The growth of our business will be dependent upon the availability of adequate capital.

The growth of our business will depend on the availability of adequate capital, which in turn will depend in large part on cash flow generated by our business and the availability of equity and debt financing. We cannot assure you that our operations will generate positive cash flow or that we will be able to obtain equity or debt financing on acceptable terms or at all. Our revolving credit facility contains provisions that restrict our ability to incur additional indebtedness or make substantial asset sales that might otherwise be used to finance our expansion. Security interests in substantially all of our assets, which may further limit our access to certain capital markets or lending sources, secure our obligations under our revolving credit facility. Moreover, the actual availability of funds under our revolving credit facility is limited to specified percentages of our eligible inventory and accounts receivable. Accordingly, opportunities for increasing our cash on hand through sales of inventory would be partially offset by reduced availability under our revolving credit facility. As a result, we cannot assure you that we will be able to finance our current expansion plans.

We must comply with the restrictive covenants contained in our revolving credit facility.

Our credit facility requires us to comply with certain financial restrictive covenants that impose restrictions on our operations, including our ability to incur additional indebtedness, make investments of other restricted payments, sell or otherwise dispose of assets and engage in other activities. Any failure by us to comply with the restrictive covenants could result in an event of default under those borrowing arrangements, in which case the lenders could elect to declare all amounts outstanding there under to be due and payable, which could have a material adverse effect on our financial condition. Our credit facility contains a restrictive covenant which requires us to maintain a fixed charge coverage ratio. This restrictive covenant is only in effect upon a triggering event taking place (as defined in the credit facility agreement). At December 31, 2014, there was no triggering event and the covenant was not in effect.

We face intense competition, including competition from companies with significantly greater resources than ours, and if we are unable to compete effectively with these companies, our market share may decline and our business could be harmed.

The footwear and apparel industries are intensely competitive, and we expect competition to increase in the future. A number of our competitors have significantly greater financial, technological, engineering, manufacturing, marketing and distribution resources than we do, as well as greater brand awareness in the footwear market. Our ability to succeed depends on our ability to remain competitive with respect to the quality, design, price and timely delivery of products. Competition could materially adversely affect our business, financial condition, results of operations and cash flows.

We currently manufacture a portion of our products and we may not be able to do so in the future at costs that are competitive with those of competitors who source their goods.

We currently plan to retain our internal manufacturing capability in order to continue benefiting from expertise we have gained with respect to footwear manufacturing methods conducted at our manufacturing facilities. We continue to evaluate our manufacturing facilities and third-party manufacturing alternatives in order to determine the appropriate size and scope of our manufacturing facilities. There can be no assurance that the costs of products that continue to be manufactured by us can remain competitive with products sourced from third parties.

We rely on distribution centers in Logan, Ohio, Kent, Washington and Waterloo, Ontario, Canada, and if there is a natural disaster or other serious disruption at any of these facilities, we may be unable to deliver merchandise effectively to our retailers.

We rely on distribution centers located in Logan, Ohio, Kent, Washington and Waterloo, Ontario, Canada. Any natural disaster or other serious disruption at any of these facilities due to fire, tornado, flood, terrorist attack or any other cause could damage a portion of our inventory or impair our ability to use our distribution center as a docking location for merchandise. Either of these occurrences could impair our ability to adequately supply our retailers and harm our operating results.

We are subject to certain environmental and other regulations.

Some of our operations use substances regulated under various federal, state, local and international environmental and pollution laws, including those relating to the storage, use, discharge, disposal and labeling of, and human exposure to, hazardous and toxic materials. Compliance with current or future environmental laws and regulations could restrict our ability to expand our facilities or require us to acquire additional expensive equipment, modify our manufacturing processes or incur other significant expenses. In addition, we could incur costs, fines and civil or criminal sanctions, third-party property damage or personal injury claims or could be required to incur substantial investigation or remediation costs, if we were to violate or become liable under any environmental laws. Liability under environmental laws can be joint and several and without regard to comparative fault. There can be no assurance that violations of environmental laws or regulations have not occurred in the past and will not occur in the future as a result of our inability to obtain permits, human error, equipment failure or other causes, and any such violations could harm our business, financial condition, results of operations and cash flows.

If our efforts to establish and protect our trademarks, patents and other intellectual property are unsuccessful, the value of our brands could suffer.

We regard certain of our footwear designs as proprietary and rely on patents to protect those designs. We believe that the ownership of patents is a significant factor in our business. Existing intellectual property laws afford only limited protection of our proprietary rights, and it may be possible for unauthorized third parties to copy certain of our footwear designs or to reverse engineer or otherwise obtain and use information that we regard as proprietary. If our patents are found to be invalid, however, to the extent they have served, or would in the future serve, as a barrier to entry to our competitors, such invalidity could have a material adverse effect on our business, financial condition, results of operations and cash flows.

We own U.S. registrations for a number of our trademarks, trade names and designs, including such marks as Rocky, Georgia Boot, Durango, Lehigh and Creative Recreation. Additional trademarks, trade names and designs are the subject of pending federal applications for registration. We also use and have common law rights in certain trademarks. Over time, we have increased distribution of our goods in several foreign countries. Accordingly, we have applied for trademark registrations in a number of these countries. We intend to enforce our trademarks and trade names against unauthorized use by third parties.

Our success depends on our ability to forecast sales.

Our investments in infrastructure and product inventory are based on sales forecasts and are necessarily made in advance of actual sales. The markets in which we do business are highly competitive, and our business is affected by a variety of factors, including brand awareness, changing consumer preferences, product innovations, susceptibility to fashion trends, retail market conditions, weather conditions and economic and other factors. One of our principal challenges is to improve our ability to predict these factors, in order to enable us to better match production with demand. In addition, our growth over the years has created the need to increase the investment in infrastructure and product inventory and to enhance our systems. To the extent sales forecasts are not achieved, costs associated with the infrastructure and carrying costs of product inventory would represent a higher percentage of revenue, which would adversely affect our business, financial condition, results of operations and cash flows.

A privacy breach could have a material adverse effect on the Company's business and reputation.

We rely heavily on digital technologies for the successful operation of our business, including electronic messaging, digital marketing efforts and the collection and retention of customer data and employee information. We also rely on third parties to process credit card transactions, perform online e-commerce and social media activities and retain data relating to the Company's financial position and results of operations, strategic initiatives and other important information. Despite the security measures we have in place, our facilities and systems and those of our third-party service providers, may be vulnerable to cyber-security breaches, acts of vandalism, computer viruses, misplaced or lost data, programming and/or human errors or other similar events. Any misappropriation, loss or other unauthorized disclosure of confidential or personally identifiable information, whether by us or by our third-party service providers, could adversely affect our business. We maintain cyber risk insurance, but this insurance may not be sufficient to cover all of our losses from any future breaches of our systems.

Our dividend policy may change.

Although we have paid dividends to our shareholders, we have no obligation to continue doing so and may change our dividend policy at any time without notice to our shareholders. Holders of our common stock are only entitled to receive such cash dividends as our board of directors may declare out of funds legally available for such payments.

Risks Related to Our Industry

Because the footwear market is sensitive to decreased consumer spending and slow economic cycles, if general economic conditions deteriorate, many of our customers may significantly reduce their purchases from us or may not be able to pay for our products in a timely manner.

The footwear industry has been subject to cyclical variation and decline in performance when consumer spending decreases or softness appears in the retail market. Many factors affect the level of consumer spending in the footwear industry, including:

- general business conditions;
- interest rates;
- the availability of consumer credit;
- weather;
- increases in prices of nondiscretionary goods;
- taxation; and
- consumer confidence in future economic conditions.

Consumer purchases of discretionary items, including our products, may decline during recessionary periods and also may decline at other times when disposable income is lower. A downturn in regional economies where we sell products also reduces sales.

The continued shift in the marketplace from traditional independent retailers to large discount mass merchandisers may result in decreased margins.

A continued shift in the marketplace from traditional independent retailers to large discount mass merchandisers has increased the pressure on many footwear manufacturers to sell products to these mass merchandisers at less favorable margins. Because of competition from large discount mass merchandisers, a number of our small retailing customers have gone out of business, and in the future more of these customers may go out of business, which could have a material adverse effect on our business, financial condition, results of operations and cash flows.

ITEM 1B. UNRESOLVED STAFF COMMENTS.

None.

ITEM 2. PROPERTIES.

We own our 25,000 square foot executive offices that are located in Nelsonville, Ohio, which are utilized by all segments. We also own our 192,000 square foot finished goods distribution facility in Logan, Ohio, which is utilized by our wholesale and retail segments. We also own our 41,000 square foot outlet store and a 5,500 square foot executive office building located in Nelsonville, Ohio, a portion of which is utilized by our retail segment. We lease an office in California for our Creative Recreation business. This lease expires in March 2018. We lease two manufacturing facilities in Puerto Rico consisting of 44,978 square feet and 39,581 square feet which are utilized by the wholesale and military segments. These leases expire in 2019. In the Dominican Republic, we lease seven stand-alone manufacturing facilities as follows:

Square Footage	Lease Expiration
93,097	2019
36,186	2019
28,684	2018
28,929	2015
13,918	2016
34,373	2018
20,135	2018

ITEM 3. LEGAL PROCEEDINGS.

We are, from time to time, a party to litigation which arises in the normal course of our business. Although the ultimate resolution of pending proceedings cannot be determined, in the opinion of management, the resolution of these proceedings in the aggregate will not have a material adverse effect on our financial position, results of operations, or liquidity.

ITEM 4. MINE SAFETY DISCLOSURES.

Not applicable.

Certain amounts from prior years related to royalty income have been reclassified to conform to current presentation. In 2013, we began reporting royalty income as a component of net sales.

ITEM 7. **MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS.**

This Management's Discussion and Analysis of Financial Condition and Result of Operations ("MD&A") describes the matters that we consider to be important to understanding the results of our operations for each of the three years in the period ended December 31, 2014, and our capital resources and liquidity as of December 31, 2014 and 2013. Use of the terms "Rocky," the "Company," "we," "us" and "our" in this discussion refer to Rocky Brands, Inc. and its subsidiaries. Our fiscal year begins on January 1 and ends on December 31. We analyze the results of our operations for the last three years, including the trends in the overall business followed by a discussion of our cash flows and liquidity, our credit facility, and contractual commitments. We then provide a review of the critical accounting judgments and estimates that we have made that we believe are most important to an understanding of our MD&A and our consolidated financial statements. We conclude our MD&A with information on recent accounting pronouncements which we adopted during the year, as well as those not yet adopted that are expected to have an impact on our financial accounting practices.

The following discussion should be read in conjunction with the "Selected Consolidated Financial Data" and our consolidated financial statements and the notes thereto, all included elsewhere herein. The forward-looking statements in this section and other parts of this document involve risks and uncertainties including statements regarding our plans, objectives, goals, strategies, and financial performance. Our actual results could differ materially from the results anticipated in these forward-looking statements as a result of factors set forth under the caption "Safe Harbor Statement under the Private Securities Litigation Reform Act of 1995" below. The Private Securities Litigation Reform Act of 1995 provides a "safe harbor" for forward-looking statements made by or on behalf of the Company.

Certain amounts from prior year related to royalty income have been reclassified to conform to current year presentation. In 2013, we began reporting royalty income as a component of net sales.

Creative Recreation

In December 2013, we completed the acquisition of certain assets of Kommonwealth, Inc. including the Creative Recreation trademark. Headquartered in Los Angeles, California, since 2002, Creative Recreation was first to create and market versatile footwear brand that could easily transition between casual and more formal environments. Creative Recreation's collections of upscale sneakers quickly gained strong acceptance and support from a wide array of key influencers across multiple categories including music, sports, and acting. Creative Recreation's ability to successfully fuse style and versatility across a diversified assortment of products has created a wide target demographic and a strong distribution network that spans multiple channels and price points.

We believe by combining Rocky's strong operating platform and access to capital with Creative Recreation's design expertise we can strategically expand their business both domestically and overseas. At the same time, this transaction provides us with a compelling vehicle to penetrate the casual end of the market to complement our work, western and outdoor categories.

The total purchase price was approximately \$8.7 million including cash and assumption of certain liabilities. The acquisition was funded by our existing cash balances and funds available under our existing revolving credit facility. We did not have any sales in 2013 related to this acquisition and the business incurred approximately \$0.2 million of operating expenses during 2013. In addition, we incurred approximately \$1.2 million of related acquisition expenses that were reflected in the results of operations for the year 2013. In addition, we recorded a gain on bargain purchase of \$0.6 million related to this acquisition.

EXECUTIVE OVERVIEW

We are a leading designer, manufacturer and marketer of premium quality footwear and apparel marketed under a portfolio of well recognized brand names including Rocky, Georgia Boot, Durango, Lehigh, Creative Recreation and the licensed brand Michelin.

Our products are distributed through three distinct business segments: wholesale, retail and military. In our wholesale business, we distribute our products through a wide range of distribution channels representing over ten-thousand retail store locations in the U.S. and Canada as well as in several international markets. Our wholesale channels vary by product line and include sporting goods stores, outdoor retailers, independent shoe retailers, hardware stores, catalogs, mass merchants, uniform stores, farm store chains, specialty safety stores and other specialty retailers. Our retail business includes direct sales of our products to consumers through our Lehigh mobile stores and our websites. We also sell footwear under the Rocky label to the U.S. military.

Our growth strategy is founded substantially on the expansion of our brands into new footwear and apparel markets. New products that we introduce may not be successful with consumers or one or more of our brands may fall out of favor with consumers. If we are unable to anticipate, identify or react appropriately to changes in consumer preferences, we may not grow as fast as we plan to grow or our sales may decline, and our brand image and operating performance may suffer.

Furthermore, achieving market acceptance for new products will likely require us to exert substantial product development and marketing efforts, which could result in a material increase in our selling, general and administrative, or SG&A, expenses, and there can be no assurance that we will have the resources necessary to undertake such efforts. Material increases in our SG&A expenses could adversely impact our results of operations and cash flows.

We may also encounter difficulties in producing new products that we did not anticipate during the development stage. Our development schedules for new products are difficult to predict and are subject to change as a result of shifting priorities in response to consumer preferences and competing products. If we are not able to efficiently manufacture newly-developed products in quantities sufficient to support retail distribution, we may not be able to recoup our investment in the development of new products. Failure to gain market acceptance for new products that we introduce could impede our growth, reduce our profits, adversely affect the image of our brands, erode our competitive position and result in long term harm to our business.

FINANCIAL SUMMARY

- Net sales of the wholesale segment increased \$41.0 million in 2014 over prior year primarily as a result of increased sales in our lifestyle footwear, work footwear and western footwear categories. The increase in the lifestyle footwear category is primarily the result of a full year of sales for the Creative Recreation brand.
- Net sales of the retail segment increased \$1.3 million in 2014 from the prior year primarily as a result of higher sales from our business and consumer web platforms.
- Net sales of the military segment decreased \$0.9 million in 2014 from the prior year. From time to time, we bid on military contracts when they become available. Our sales under such contracts are dependent on us winning the bids for these contracts and the purchase orders received on these contracts. We have received an order to fulfill a contract to the U.S. Military to produce “Hot Weather” combat boots. Shipment of the boots began in the first quarter of 2013. During 2014, we shipped boots under this same agreement.
- Gross margin of the wholesale segment increased \$13.4 million in 2014 over the prior year as a result of the higher sales. Gross margin as a percent of sales for 2014 was flat as compared to 2013.
- Gross margin of the retail segment decreased \$0.4 million in 2014 from the prior year as a result of lower margin as a percentage of sales. The decrease was largely due to lower margins on contract sales to a large city transit authority.
- Gross margin of the military segment decreased \$0.2 million in 2014 over the prior year due primarily to lower sales.
- Selling, general and administrative expenses increased \$8.1 million in 2014 from prior year primarily as result of higher compensation expense, higher variable expenses associated with the increase in sales and additional expenses associated with the Creative Recreation brand.
- Net interest expense increased \$0.3 million in 2014 from the prior year due to higher levels of debt, primarily in the first half of 2014 as a result of the Creative Recreation acquisition in late 2013.
- Net income increased \$2.5 million in 2014 from prior year results primarily due higher sales in our wholesale business.
- Total debt at December 31, 2014 was \$36.3 million or \$2.1 million lower than the prior year. Total debt minus cash and cash equivalents was \$31.7 million or 18.1% of total capitalization at December 31, 2014 compared to \$34.2 million or 20.1% of total capitalization at year-end 2013.
- Our cash from operating activities increased \$15.4 million in 2014 from the prior year, primarily the result of higher net income and an increase in accounts payable and accrued liabilities.

Net sales. Net sales and related cost of goods sold are recognized at the time products are shipped to the customer and title transfers. Net sales are recorded net of estimated sales discounts and returns based upon specific customer agreements and historical trends. Net sales include royalty income from licensing our brands.

Cost of goods sold. Our cost of goods sold represents our costs to manufacture products in our own facilities, including raw materials costs and all overhead expenses related to production, as well as the cost to purchase finished products from our third-party manufacturers. Cost of goods sold also includes the cost to transport these products to our distribution centers.

SG&A expenses. Our SG&A expenses consist primarily of selling, marketing, wages and related payroll and employee benefit costs, travel and insurance expenses, depreciation, amortization, professional fees, facility expenses, bank charges, and warehouse and outbound freight expenses.

Percentage of Net Sales

The following table sets forth consolidated statements of operations data as percentages of total net sales:

	Years Ended December 31,		
	2014	2013	2012
Net sales	100.0%	100.0%	100.0%
Cost of goods sold	66.3%	65.9%	64.8%

Results of Operations

Year Ended December 31, 2014 Compared to Year Ended December 31, 2013

Net sales. Net sales increased 16.9% to \$286.2 million for 2014 compared to \$244.9 million the prior year. Wholesale sales increased \$41.0 million to \$233.9 million for 2014 compared to \$192.9 million for 2013. The increase in wholesale sales was primarily the result of a \$14.0 million or 135.3% increase in our lifestyle footwear category, an \$8.8 million or 10.0% increase in our work footwear category, an \$8.3 million or 23.1% increase in our western footwear category, a \$4.4 million or 23.2% increase in our outdoor footwear category and a \$2.3 million or 12.0% increase in our commercial military footwear category. The increase in the lifestyle footwear category for 2014 was the result of a full year of sales under the Creative Recreation brand, which contributed \$14.4 million in net sales during 2014. Retail sales increased to \$44.3 million for 2014 compared to \$43.1 million for 2013. The \$1.3 million increase in retail sales resulted from increased sales in our business-to-consumer ecommerce web platforms. Military segment sales, which occur from time to time, were \$8.0 million for 2014 compared to \$8.9 million in 2013. From time to time, we bid on military contracts when they become available. Our sales under such contracts are dependent on us winning the bids for these contracts and the purchase orders received on these contracts. We have received an order to fulfill a contract to the U.S. Military to produce "Hot Weather" combat boots. Shipment of the boots began in the first quarter of 2013. During 2014, we shipped boots under this same agreement. Average list prices for our footwear, apparel and accessories were higher in 2014 than 2013 as we increased our list prices to offset higher manufacturing and sourcing costs.

Gross margin. Gross margin increased to \$96.4 million or 33.7% of net sales for 2014 compared to \$83.5 million or 34.1% of net sales for the prior year. Wholesale gross margin for 2014 was \$75.8 million, or 32.4% of net sales, compared to \$62.4 million, or 32.4% of net sales in 2013. Retail gross margin for 2014 was \$19.4 million, or 43.9% of net sales, compared to \$19.9 million, or 46.1% of net sales, in 2013. The 220 basis point decrease in 2014 from the prior year was largely due to lower margins on contract sales to a large city transit authority. Military gross margin in 2014 was \$1.1 million, or 13.4% of net sales, compared to \$1.3 million, or 14.3% of net sales in 2013.

SG&A expenses. SG&A expenses were \$80.6 million, or 28.2% of net sales in 2014 compared to \$72.5 million, or 29.6% of net sales for 2013. The net increase primarily reflected the additional expenses of \$5.6 million related to the Creative Recreation business and increases in compensation and benefits of \$2.3 million.

Acquisition related items. Acquisition related items in 2013 included expenses of \$1.2 million related to the aforementioned acquisition of the Creative Recreation brand, which are included as a component of income from operations. In addition, a gain on bargain purchase of \$0.6 million was recorded and is included as a component of total other income and expenses.

Interest expense. Interest expense was \$0.9 million in 2014, compared to \$0.7 million for the prior year. The increase in interest expense in 2014 over prior year was due to higher levels of debt, primarily in the first half of 2014 as a result of the Creative Recreation acquisition in late 2013.

Income taxes. Income tax expense was \$4.9 million in 2014, compared to \$3.4 million for the same period a year ago. The increase in income tax expense for 2014 was due to a \$3.9 million increase in pretax income and an increase in the effective tax rate. The effective tax rate for 2014 was 33.2% compared to 31.8% for 2013. The effective tax rate for 2014 is less than the federal statutory rate due principally to our permanent capital investment in the Dominican Republic which reduces the amount of dividends that we need to provide for U.S. income taxes.

Year Ended December 31, 2013 Compared to Year Ended December 31, 2012

Net sales. Net sales increased 7.1% to \$244.9 million for 2013 compared to \$228.5 million the prior year. Wholesale sales increased \$6.7 million to \$192.9 million for 2013 compared to \$186.2 million for 2012. The increase in wholesale sales was primarily the result of a \$9.0 million or 11.4% increase in our work footwear category and a \$6.3 million or 21.2% increase in our western footwear category, which were partially offset by a \$3.3 million or 34.2% decrease in apparel and accessories, a \$3.2 million or 14.7% decrease in our commercial military footwear category and a \$3.2 million or 14.3% decrease in our outdoor footwear category. During the first quarter of 2013, we began shipping to Tractor Supply under an agreement to produce boots under their trade name C.E. Schmidt. During 2013, we had sales of \$10.3 million under this agreement that is included in the work footwear category. Retail sales increased to \$43.1 million for 2013 compared to \$41.3 million for 2012. The \$1.8 million increase in retail sales resulted from increased sales in our business-to-consumer ecommerce web platforms. Military segment sales, which occur from time to time, were \$8.9 million for 2013 compared to \$1.0 million in 2012. From time to time, we bid on military contracts when they become available. Our sales under such contracts are dependent on us winning the bids for these contracts. We have received an order to fulfill a contract to the U.S. Military to produce "Hot Weather" combat boots. The first year of the contract includes a minimum purchase amount of \$3.0 million and a maximum of \$15.0 million. Shipment of the boots began in March 2013. The contract includes an option for four additional years with the same terms. Average list prices for our footwear, apparel and accessories were higher in 2013 than 2012 as we increased our list prices to offset higher manufacturing and sourcing costs.

Gross margin. Gross margin increased to \$83.5 million or 34.1% of net sales for 2013 compared to \$80.5 million or 35.2% of net sales for the prior year. Wholesale gross margin for 2013 was \$62.4 million, or 32.4% of net sales, compared to \$61.0 million, or 32.8% of net sales in 2012. The 40 basis point decrease was primarily the result of sales of C.E. Schmidt work footwear in 2013 which carries lower margins. Retail gross margin for 2013 was \$19.9 million, or 46.1% of net sales, compared to \$19.5 million, or 47.2% of net sales, in 2012. The 110 basis point decrease in 2013 from the prior year was largely due to lower average selling prices on our internet driven transactions than our mobile store transactions. Military gross margin in 2013 was \$1.3 million, or 14.3% of net sales, compared to \$0.1 million, or 4.2% of net sales in 2012.

SG&A expenses. SG&A expenses were \$71.4 million, or 29.1% of net sales in 2013 compared to \$66.7 million, or 29.2% of net sales for 2012. The net change primarily reflected higher selling and distribution expenses of \$2.0 million and higher advertising costs of \$0.9 million.

Acquisition related items. Acquisition related items in 2013 included expenses of \$1.2 million related to the aforementioned acquisition of the Creative Recreation brand, which are included as a component of income from operations. In addition, a gain on bargain purchase of \$0.6 million was recorded and is included as a component of total other income and expenses.

Interest expense. Interest expense was \$0.7 million in 2013, compared to \$0.7 million for the prior year.

Income taxes. Income tax expense was \$3.4 million in 2013, compared to \$4.2 million for the same period a year ago. The decrease in income tax expense for 2013 was due to a \$2.3 million decrease in pretax income and a decrease in the effective tax rate. The effective tax rate for 2013 was 31.8% compared to 32.3% for 2012. The effective tax rate for 2013 is less than the federal statutory rate due principally to our permanent capital investment in the Dominican Republic which reduces the amount of dividends that we need to provide for U.S. income taxes.

LIQUIDITY AND CAPITAL RESOURCES

Overview

Our principal sources of liquidity have been our income from operations and borrowings under our credit facility and other indebtedness.

Over the last several years our principal uses of cash have been for working capital and capital expenditures to support our growth. Our working capital consists primarily of trade receivables and inventory, offset by accounts payable and accrued expenses. Our working capital fluctuates throughout the year as a result of our seasonal business cycle and business expansion and is generally lowest in the months of January through March of each year and highest during the months of May through October of each year. We typically utilize our revolving credit facility to fund our seasonal working capital requirements. As a result, balances on our revolving credit facility will fluctuate significantly throughout the year. Our working capital increased to \$124.8 million at December 31, 2014, compared to \$118.2 million at the end of the prior year.

Our capital expenditures relate primarily to projects relating to our corporate offices, property, merchandising fixtures, molds and equipment associated with our manufacturing operations and for information technology. Capital expenditures were \$7.1 million for 2014 and \$7.7 million in 2013. Capital expenditures for 2015 are anticipated to be approximately \$6.1 million.

In October 2010, we entered into a financing agreement with PNC Bank (“PNC”) to provide a \$70 million credit facility. In December 2014, we amended and restated the credit facility to increase the facility to \$75 million and extend the term of the facility an additional five years. The current interest rate is generally LIBOR plus 1.25%. The amended and restated credit facility matures in November 2019.

The total amount available under our amended and restated revolving credit facility is subject to a borrowing base calculation based on various percentages of accounts receivable and inventory. As of December 31, 2014, we had \$36.3 million in borrowings under this facility and total capacity of \$75 million.

Our amended and restated credit facility contains a restrictive covenant which requires us to maintain a fixed charge coverage ratio. This restrictive covenant is only in effect upon a triggering event taking place (as defined in the amended and restated credit facility agreement). At December 31, 2014, there was no triggering event and the covenant was not in effect. Our amended and restated credit facility places a restriction on the amount of dividends that may be paid. During 2014 and 2013, we paid dividends on our common stock totaling \$3,017,979 and \$2,254,935, respectively. No dividends were paid during 2012.

We believe that our credit facility coupled with cash generated from operations will provide sufficient liquidity to fund our operations for at least the next twelve months. Our continued liquidity, however, is contingent upon future operating performance, cash flows and our ability to meet financial covenants under our credit facility.

Based on our expected borrowings for 2015, a hypothetical 100 basis point increase in short term interest rates would result, over the subsequent twelve-month period, in a reduction of approximately \$0.4 million in income before income taxes and cash flows. The estimated reductions are based upon the current level of variable debt and assume no changes in the composition of that debt.

Cash Flows

Cash Flow Summary (\$ in millions)	<u>2014</u>	<u>2013</u>	<u>2012</u>
Cash provided by (used in):			
Operating activities	\$ 13.0	\$ (2.4)	\$ 18.0
Investing activities	(7.4)	(10.0)	(6.1)
Financing activities	<u>(5.2)</u>	<u>12.6</u>	<u>(11.5)</u>
Net change in cash and cash equivalents	<u>\$ 0.4</u>	<u>\$ 0.2</u>	<u>\$ 0.4</u>

Operating Activities. Net cash provided by operating activities totaled \$13.0 million for 2014, compared to cash used in operating activities of \$2.4 million for 2013. Net cash provided by operating activities was \$18.0 million for 2012. The principal sources of net cash in 2014 included higher net income and increases in accounts payable and other accrued liabilities, which were partially offset by higher balances of inventory and accounts receivable. The principal use of net cash in 2013 was the result of higher working capital primarily increases in inventory and accounts receivable and decreases in accounts payable. The principal sources of net cash in 2012 included higher net income, increases in accounts payable and decreases in accounts receivable, which were partially offset by higher balances of inventory and accrued liabilities.

Investing Activities. Net cash used in investing activities was \$7.4 million in 2014 compared to \$10.0 million in 2013 and \$6.1 million in 2012. The principal use of cash in 2014, 2013 and 2012 was for the purchase of molds and equipment associated with our manufacturing operations and for information technology software and system upgrades. The 2013 amount includes \$2.2 million related to the purchase of the Creative Recreation brand.

Financing Activities. Cash used in financing activities during 2014 was \$5.2 million compared to cash provided by financing activities during 2013 was \$12.6 million compared to cash used in financing activities during 2012 of \$11.5 million. Proceeds and repayments of the revolving credit facility reflect daily cash disbursement and deposit activity. Our financing activities during 2014 included net repayments under the revolving line of credit facility of \$2.1 million. Our financing activities during 2013 included net borrowings under the revolving line of credit facility of \$14.9 million. The increases in the borrowings were primarily due to the afore-mentioned acquisition and higher levels of inventory. Our financing activities during 2012 included net repayments under the revolving line of credit facility of \$11.5 million.

Borrowings and External Sources of Funds

Our borrowings and external sources of funds were as follows at December 31, 2014 and 2013:

(\$ in millions)	December 31	
	2014	2013
Revolving credit facility	\$ 36.3	\$ 38.4
Less current maturities	-	-
Net long-term debt	<u>\$ 36.3</u>	<u>\$ 38.4</u>

We continually evaluate our external credit arrangements in light of our growth strategy and new opportunities. In December 2014, we amended and restated our financing agreement with PNC bank to provide a \$75 million credit facility. The term of the amended credit facility is five years and the interest rate is currently LIBOR plus 1.25%.

We lease certain machinery, shoe centers, and manufacturing facilities under operating leases that generally provide for renewal options. Future minimum lease payments under non-cancelable operating leases are \$1.3 million, \$1.1 million, \$1.1 million, \$0.6 million and \$0.4 million for years 2015 through 2019, respectively, or approximately \$4.5 million in total.

Contractual Obligations and Commercial Commitments

The following table summarizes our contractual obligations at December 31, 2014 resulting from financial contracts and commitments. We have not included information on our recurring purchases of materials for use in our manufacturing operations. These amounts are generally consistent from year to year, closely reflect our levels of production, and are not long-term in nature (less than three months).

Contractual Obligations at December 31, 2014:

	Payments due by Year				
	Total	Less Than 1 Year	1-3 Years	3-5 Years	Over 5 Years
Long-term debt	\$ 36.3	\$ -	\$ -	\$ 36.3	\$ -
Minimum operating lease commitments	4.5	1.3	2.2	1.0	-
Minimum royalty commitments	-	-	-	-	-
Expected cash requirements for interest (1)	5.9	1.2	2.4	2.3	-
Total contractual obligations	<u>\$ 46.7</u>	<u>\$ 2.5</u>	<u>\$ 4.6</u>	<u>\$ 39.6</u>	<u>\$ -</u>

(1) Assumes a 3.25% interest rate, which is the highest rate possible as of December 31, 2014 on the \$75 million revolving credit facility.

From time to time, we enter into purchase commitments with our suppliers under customary purchase order terms. Any significant losses implicit in these contracts would be recognized in accordance with generally accepted accounting principles. At December 31, 2014, no such losses existed.

Our ongoing business activities continue to be subject to compliance with various laws, rules and regulations as may be issued and enforced by various federal, state and local agencies. With respect to environmental matters, costs are incurred pertaining to regulatory compliance. Such costs have not been, and are not anticipated to become, material.

We are contingently liable with respect to lawsuits, taxes and various other matters that routinely arise in the normal course of business. We do not have off-balance sheet arrangements, financings, or other relationships with unconsolidated entities or other persons, also known as "Variable Interest Entities." Additionally, we do not have any related party transactions that materially affect the results of operations, cash flow or financial condition.

Inflation

Our financial performance is influenced by factors such as higher raw material costs as well as higher salaries and employee benefits. Management attempts to minimize or offset the effects of inflation through increased selling prices, productivity improvements, and cost reductions. We were able to mitigate the effects of inflation during 2014, 2013, and 2012 due to these factors. It is anticipated that inflationary pressures during 2015 will be offset through price increases that are to be implemented in the early part of 2015.

CRITICAL ACCOUNTING POLICIES AND ESTIMATES

"Management's Discussion and Analysis of Financial Condition and Results of Operations" discusses our consolidated financial statements, which have been prepared in accordance with accounting principles generally accepted in the United States. The preparation of these consolidated financial statements requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities, the disclosure of contingent assets and liabilities at the date of the consolidated financial statements and the reported amounts of revenues and expenses during the reporting period. A summary of our significant accounting policies is included in the Notes to Consolidated Financial Statements included in this Annual Report on Form 10-K.

Our management regularly reviews our accounting policies to make certain they are current and also provide readers of the consolidated financial statements with useful and reliable information about our operating results and financial condition. These include, but are not limited to, matters related to accounts receivable, inventories, intangibles and income taxes. Implementation of these accounting policies includes estimates and judgments by management based on historical experience and other factors believed to be reasonable. This may include judgments about the carrying value of assets and liabilities based on considerations that are not readily apparent from other sources. Actual results may differ from these estimates under different assumptions or conditions.

Our management believes the following critical accounting policies are most important to the portrayal of our financial condition and results of operations and require more significant judgments and estimates in the preparation of our consolidated financial statements.

Revenue recognition

Revenue principally consists of sales to customers, and, to a lesser extent, license fees. Revenue is recognized when goods are shipped and title passes to the customer, while license fees are recognized when earned. Customer sales are recorded net of allowances for estimated returns, trade promotions and other discounts, which are recognized as a deduction from sales at the time of sale.

Accounts receivable allowances

Management maintains allowances for uncollectible accounts for estimated losses resulting from the inability of our customers to make required payments. If the financial condition of our customers were to deteriorate, resulting in an impairment of their ability to make payments, additional allowances may be required. The allowance for uncollectible accounts is calculated based on the relative age and size of trade receivable balances.

Sales returns and allowances

We record a reduction to gross sales based on estimated customer returns and allowances. These reductions are influenced by historical experience, based on customer returns and allowances. The actual amount of sales returns and allowances realized may differ from our estimates. If we determine that sales returns or allowances should be either increased or decreased, then the adjustment would be made to net sales in the period in which such a determination is made. Sales returns and allowances for sales returns were approximately 4.1% of sales for 2014 and 4.3% of sales for 2013.

Inventories

Management identifies slow moving or obsolete inventories and estimates appropriate loss provisions related to these inventories. Historically, these loss provisions have not been significant as the vast majority of our inventories are considered saleable and we have been able to liquidate slow moving or obsolete inventories at amounts above cost through our factory outlet stores or through various discounts to customers. Should management encounter difficulties liquidating slow moving or obsolete inventories, additional provisions may be necessary. Management regularly reviews the adequacy of our inventory reserves and makes adjustments to them as required.

Intangible assets

Intangible assets, including goodwill, trademarks and patents are reviewed for impairment annually, and more frequently, if necessary. We perform such testing of goodwill and indefinite-lived intangible assets in the fourth quarter of each year or as events occur or circumstances change that would more likely than not reduce the fair value of the asset below its carrying amount.

In assessing whether indefinite-lived intangible assets are impaired, we must make certain estimates and assumptions regarding future cash flows, long-term growth rates of our business, operating margins, weighted average cost of capital and other factors such as; discount rates, royalty rates, cost of capital, and market multiples to determine the fair value of our assets. These estimates and assumptions require management's judgment, and changes to these estimates and assumptions could materially affect the determination of fair value and/or impairment for each of our other indefinite-lived intangible assets. Future events could cause us to conclude that indications of intangible asset impairment exist. Impairment may result from, among other things, deterioration in the performance of our business, adverse market conditions, adverse changes in applicable laws and regulations, competition, or the sale or disposition of a reporting segment. Any resulting impairment loss could have a material adverse impact on our financial condition and results of operations.

Income taxes

Management has recorded a valuation allowance to reduce its deferred tax assets for a portion of state and local income tax net operating losses that it believes may not be realized. We have considered future taxable income and ongoing prudent and feasible tax planning strategies in assessing the need for a valuation allowance, however, in the event we were to determine that we would not be able to realize all or part of our net deferred tax assets in the future, an adjustment to the deferred tax assets would be charged to income in the period such determination was made. At December 31, 2014, approximately \$17.6 million of undistributed earnings remains that would become taxable upon repatriation to the United States.

RECENT FINANCIAL ACCOUNTING PRONOUNCEMENTS

Recently Adopted Accounting Pronouncements

In July 2013, the FASB issued ASU No. 2013-11, Income Taxes (Topic 740): Presentation of an Unrecognized Tax Benefit When a Net Operating Loss Carryforward, a Similar Tax Loss, or a Tax Credit Carryforward Exists. The update provides that an unrecognized tax benefit, or a portion of an unrecognized tax benefit, should be presented in the financial statements as a reduction to a deferred tax asset for a net operating loss carryforward, a similar tax loss, or a tax credit carryforward, except as follows. To the extent a net operating loss carryforward, a similar tax loss, or a tax credit carryforward is not available at the reporting date under the tax law of the applicable jurisdiction to settle any additional income taxes that would result from the disallowance of a tax position or the tax law of the applicable jurisdiction does not require the entity to use, and the entity does not intend to use, the deferred tax asset for such purpose, the unrecognized tax benefit should be presented in the financial statements as a liability and should not be combined with deferred tax assets. The assessment of whether a deferred tax asset is available is based on the unrecognized tax benefit and deferred tax asset that exist at the reporting date and should be made presuming disallowance of the tax position at the reporting date. The amendments in this update do not require new recurring disclosures. The amendments are effective prospectively for reporting periods beginning after December 15, 2013. The adoption of this standard did not have a material effect on our consolidated financial statements.

Accounting standards not yet adopted

In April 2014, the FASB issued ASU No. 2014-08, Presentation of Financial Statements (Topic 205) and Property, Plant and Equipment (Topic 360): Reporting Discontinued Operations and Disclosures of Disposals of an Entity. The amendments in this update change the requirements for reporting discontinued operations in Subtopic 205-20. A discontinued operation may include a component of an entity or a group of components of an entity, or a business or nonprofit activity. A disposal of a component of an entity or a group of components of an entity is required to be reported in discontinued operations if the disposal represents a strategic shift that has (or will have) a major effect on an entity's operations and financial results when any of the following occurs: 1. The component of an entity or group of components of an entity meets the criteria in paragraph 205-20-45-1E to be classified as held for sale. 2. The component of an entity or group of components of an entity is disposed of by sale. 3. The component of an entity or group of components of an entity is disposed of other than by sale (for example, by abandonment or in a distribution to owners in a spinoff). The update is effective for all disposals (or classifications as held for sale) of components of an entity that occur within annual periods beginning on or after December 15, 2014, and interim periods within those years. We have not yet determined the impact this ASU will have on our consolidated financial statements.

In May 2014, the FASB issued ASU No. 2014-09, Revenue from Contracts with Customers (Topic 606). The amendments in this update supersede the revenue recognition requirements in Topic 605, Revenue Recognition, including most industry-specific revenue recognition guidance throughout the Industry Topics of the Codification. In addition, the amendments supersede the cost guidance in Subtopic 605-35, Revenue Recognition—Construction-Type and Production-Type Contracts, and create new Subtopic 340-40, Other Assets and Deferred Costs—Contracts with Customers. In summary, the core principle of Topic 606 is that an entity recognizes revenue to depict the transfer of promised goods or services to customers in an amount that reflects the consideration to which the entity expects to be entitled in exchange for those goods or services. The update is effective for public entities for annual reporting periods beginning after December 15, 2016, including interim periods within that reporting period. Early application is not permitted. We have not yet determined the impact this ASU will have on our consolidated financial statements.

In June 2014, the FASB issued ASU No. 2014-12, Compensation – Stock Compensation (Topic 718). Some share-based payment awards that require a specific performance target to be achieved before the employee can benefit from the award, also require an employee to render service until the performance target is achieved. In some cases, the terms of an award may provide that the performance target could be achieved after an employee completes the requisite service period. That is, the employee would be entitled to benefit from the award regardless of whether the employee is rendering service on the date the performance target is achieved. Some entities account for those performance targets as performance conditions that affect the vesting of the award and, therefore, do not reflect the performance target in the estimate of the grant-date fair value. Others treat them as nonvesting conditions that affect the grant-date fair value of the award. The amendments apply to reporting entities that grant their employees share-based payments in which the terms of the award provide that a performance target can be achieved after the requisite service period. The update is effective for public entities for annual reporting periods beginning after December 15, 2015. Early adoption is permitted. We have not yet determined the impact this ASU will have on our consolidated financial statements.

In August 2014, the FASB issued ASU No. 2014-15, Presentation of Financial Statements – Going Concern (Subtopic 205-40). Currently, there is no guidance in GAAP about management's responsibility to evaluate whether there is substantial doubt about an entity's ability to continue as a going concern or to provide related footnote disclosures. The amendments in this update provide that guidance. In doing so, the amendments should reduce diversity in the timing and content of footnote disclosures. The amendments require management to assess an entity's ability to continue as a going concern by incorporating and expanding upon certain principles that are currently in U.S. auditing standards. Specifically, the amendments (1) provide a definition of the term *substantial doubt*, (2) require an evaluation every reporting period including interim periods, (3) provide principles for considering the mitigating effect of management's plans, (4) require certain disclosures when substantial doubt is alleviated as a result of consideration of management's plans, (5) require an express statement and other disclosures when substantial doubt is not alleviated, and (6) require an assessment for a period of one year after the date that the financial statements are issued (or available to be issued). The update is effective for public entities for annual reporting periods beginning after December 15, 2016. Early adoption is permitted. We have not yet determined the impact this ASU will have on our consolidated financial statements.

In January 2015, the FASB issued ASU No. 2015-01, Income Statement – Extraordinary and Unusual Items (Subtopic 225-20). The objective of this update is to simplify the income statement presentation requirements in Subtopic 225-20 by eliminating the concept of extraordinary items. Extraordinary items are events and transactions that are distinguished by their unusual nature and by the infrequency of their occurrence. Eliminating the extraordinary classification simplifies income statement presentation by altogether removing the concept of extraordinary items from consideration. The amendments in this update are effective for fiscal years, and interim periods within those fiscal years, beginning after December 15, 2015. A reporting entity may apply the amendments prospectively. A reporting entity also may apply the amendments retrospectively to all prior periods presented in the financial statements. Early adoption is permitted provided that the guidance is applied from the beginning of the fiscal year of adoption. We have not yet determined the impact this ASU will have on our consolidated financial statements.

SAFE HARBOR STATEMENT UNDER THE PRIVATE SECURITIES REFORM ACT OF 1995

This Management's Discussion and Analysis of Financial Conditions and Results of Operations contains forward-looking statements within the meaning of Section 21E of the Securities Exchange Act of 1934, as amended, and Section 27A of the Securities Act of 1933, as amended, which are intended to be covered by the safe harbors created thereby. Those statements include, but may not be limited to, all statements regarding our and management's intent, belief, expectations, such as statements concerning our future profitability and our operating and growth strategy. Words such as "believe," "anticipate," "expect," "will," "may," "should," "intend," "plan," "estimate," "predict," "potential," "continue," "likely" and similar expressions are intended to identify forward-looking statements. Investors are cautioned that all forward-looking statements involve risk and uncertainties including, without limitations, dependence on sales forecasts, changes in consumer demand, seasonality, impact of weather, competition, reliance on suppliers, changing retail trends, economic changes, as well as other factors set forth under the caption "Item 1A, Risk Factors" in this Annual Report on Form 10-K and other factors detailed from time to time in our filings with the Securities and Exchange Commission. Although we believe that the assumptions underlying the forward-looking statements contained herein are reasonable, any of the assumptions could be inaccurate. Therefore, there can be no assurance that the forward-looking statements included herein will prove to be accurate. In light of the significant uncertainties inherent in the forward-looking statements included herein, the inclusion of such information should not be regarded as a representation by us or any other person that our objectives and plans will be achieved. We assume no obligation to update any forward-looking statements.

ITEM 7A. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK.

Our primary market risk results from fluctuations in interest rates. We are also exposed to changes in the price of commodities used in our manufacturing operations. However, commodity price risk related to the Company's current commodities is not material as price changes in commodities can generally be passed along to the customer. We do not hold any market risk sensitive instruments for trading purposes.

The following item is market rate sensitive for interest rates for the Company: long-term debt consisting of a credit facility (as described below) with a balance at December 31, 2014 of \$36.3 million.

In October 2010, we entered into a financing agreement with PNC Bank ("PNC") to provide a \$70 million credit facility. In December 2014, we amended and restated the credit facility to increase the facility to \$75 million and extend the term of the facility an additional five years. The current interest rate is generally LIBOR plus 1.25%. The remainder of the terms of the original agreement did not substantially change in the amended and restated agreement. The amended and restated credit facility matures in November 2019. We have no other long-term debt maturities.

We do not have any interest rate management agreements as of December 31, 2014.

ITEM 8. FINANCIAL STATEMENTS AND SUPPLEMENTARY DATA.

Our consolidated balance sheets as of December 31, 2014 and 2013 and the related consolidated statements of comprehensive income, shareholders' equity, and cash flows for the years ended December 31, 2014, 2013, and 2012, together with the report of the independent registered public accounting firm thereon appear on pages F-1 through F-24 hereof and are incorporated herein by reference.

ITEM 9. CHANGES IN AND DISAGREEMENTS WITH ACCOUNTANTS ON ACCOUNTING AND FINANCIAL DISCLOSURE.

None.

ITEM 9A. CONTROLS AND PROCEDURES.

Evaluation of Disclosure Controls and Procedures

As of the end of the period covered by this report, our management carried out an evaluation, with the participation of our principal executive officer and principal financial officer, of the effectiveness of our disclosure controls and procedures (as defined in Rules 13a-15(e) and 15d-15(e) promulgated under the Securities Exchange Act of 1934, as amended). Based upon that evaluation, our principal executive officer and principal financial officer concluded that our disclosure controls and procedures were effective as of the end of the period covered by this report. It should be noted that the design of any system of controls is based in part upon certain assumptions about the likelihood of future events, and there can be no assurance that any design will succeed in achieving its stated goals under all potential future conditions, regardless of how remote.

Changes in Internal Control over Financial Reporting

As part of our evaluation of the effectiveness of internal controls over financial reporting described below, we made certain improvements to our internal controls. However, there were no changes in our internal controls over financial reporting that occurred during our most recent fiscal quarter that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.

Management's Report on Internal Control over Financial Reporting

Our management is responsible for establishing and maintaining adequate internal control over financial reporting, as such term is defined in Rule 13a-15(f) under the Exchange Act. Because of its inherent limitations, internal control over financial reporting may not prevent or detect misstatements. Also, projections of any evaluation of effectiveness to future periods are subject to risk that controls may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate. Under the supervision and with the participation of our principal executive officer and principal financial officer, our management conducted an evaluation of the effectiveness of our internal control over financial reporting based on the framework in *Internal Control-Integrated Framework (2013)* issued by the *Committee of Sponsoring Organizations of the Treadway Commission (COSO)*. Based upon that evaluation under the framework in *Internal Control – Integrated Framework (2013)*, our management concluded that our internal control over financial reporting was effective as of December 31, 2014. Schneider Downs & Co., Inc., our independent registered public accounting firm has issued an attestation report on the effectiveness of our internal controls over financial reporting which is included on the following page.

REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

To the Board of Directors and Shareholders of
Rocky Brands, Inc. and Subsidiaries
Nelsonville, Ohio

We have audited Rocky Brands, Inc. and Subsidiaries' (the Company) internal control over financial reporting as of December 31, 2014, based on criteria established in *Internal Control-Integrated Framework (2013)* issued by the Committee of Sponsoring Organizations of the Treadway Commission (COSO). The Company's management is responsible for maintaining effective internal control over financial reporting and for its assessment of the effectiveness of internal control over financial reporting included in the accompanying Management's Report on Internal Control Over Financial Reporting. Our responsibility is to express an opinion on the Company's internal control over financial reporting based on our audit.

We conducted our audit in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether effective internal control over financial reporting was maintained in all material respects. Our audit of internal control over financial reporting included obtaining an understanding of internal control over financial reporting, assessing the risk that a material weakness exists and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. Our audit also included performing such other procedures as we considered necessary in the circumstances. We believe that our audit provides a reasonable basis for our opinion.

A company's internal control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorizations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Because of its inherent limitations, internal control over financial reporting may not prevent or detect misstatements. Also, projections of any evaluation of effectiveness to future periods are subject to the risk that controls may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

In our opinion, the Company maintained, in all material respects, effective internal control over financial reporting as of December 31, 2014, based on criteria established in *Internal Control-Integrated Framework (2013)* issued by the Committee of Sponsoring Organizations of the Treadway Commission (COSO).

We have also audited, in accordance with the standards of the Public Company Accounting Oversight Board (United States), the consolidated balance sheets and the related consolidated statements of comprehensive income, shareholders' equity, and cash flows of the Company, and our report dated February 27, 2015 expressed an unqualified opinion.

REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

To the Board of Directors and Shareholders of
Rocky Brands, Inc. and Subsidiaries
Nelsonville, Ohio

We have audited the accompanying consolidated balance sheets of Rocky Brands, Inc. and Subsidiaries (the Company) as of December 31, 2014 and 2013, and the related consolidated statements of comprehensive income, shareholders' equity, and cash flows for each of the years in the three-year period ended December 31, 2014, 2013 and 2012. Our audits also included the financial statement schedule listed in the index at Item 15(a)(2). The Company's management is responsible for these consolidated financial statements and financial statement schedule. Our responsibility is to express an opinion on these consolidated financial statements and schedule based on our audits.

We conducted our audits in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the consolidated financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the consolidated financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall consolidated financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the consolidated financial statements referred to above present fairly, in all material respects, the consolidated financial position of the Company as of December 31, 2014, and 2013, and the results of its operations and its cash flows for each of the years in the three-year period ended December 31, 2014, 2013 and 2012, in conformity with accounting principles generally accepted in the United States of America. Also, in our opinion, the related financial statement schedule, when considered in relation to the consolidated financial statements, as a whole, presents fairly, in all material respects, the information set forth therein.

We also have audited, in accordance with the standards of the Public Company Accounting Oversight Board (United States), the Company's internal control over financial reporting as of December 31, 2014, based on criteria established in *Internal Control-Integrated Framework (2013)* issued by the Committee of Sponsoring Organizations of the Treadway Commission (COSO), and our report dated February 27, 2015 expressed an unqualified opinion.

**ROCKY BRANDS, INC.
AND SUBSIDIARIES**

**NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
FOR THE YEARS ENDED DECEMBER 31, 2013, 2012 AND 2011**

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Principles of Consolidation - The accompanying consolidated financial statements include the accounts of Rocky Brands, Inc. ("Rocky") and its wholly-owned subsidiaries, Lifestyle Footwear, Inc. ("Lifestyle"), Five Star Enterprises Ltd. ("Five Star"), Rocky Canada, Inc. ("Rocky Canada"), Rocky Brands Wholesale, LLC, Rocky Brands International, LLC, Lehigh Outfitters, LLC, Creative Recreation, LLC, Creative Recreation International, LLC and Creative Recreation Retail, LLC, collectively referred to as the "Company." All inter-company transactions have been eliminated.

Business Activity - We are a leading designer, manufacturer and marketer of premium quality footwear marketed under a portfolio of well recognized brand names including Rocky Outdoor Gear, Georgia Boot, Durango, Lehigh and Creative Recreation. Our brands have a long history of representing high quality, comfortable, functional and durable footwear and our products are organized around six target markets: outdoor, work, duty, commercial military, western and lifestyle. In addition, as part of our strategy of outfitting consumers from head-to-toe, we market complementary branded apparel and accessories that we believe leverage the strength and positioning of each of our brands.

Our products are distributed through three distinct business segments: wholesale, retail and military. In our wholesale business, we distribute our products through a wide range of distribution channels representing over ten thousand retail store locations in the U.S. and Canada. Our wholesale channels vary by product line and include sporting goods stores, outdoor retailers, independent shoe retailers, hardware stores, catalogs, mass merchants, uniform stores, farm store chains, specialty safety stores and other specialty retailers. Our retail business includes direct sales of our products to consumers through our Lehigh retail stores (including one truck, supported by two small warehouses that include retail stores, which we refer to as mini-stores), our Rocky outlet store and our websites. We operate four mobile trucks to service the New York Transit Authority's employees. We also sell footwear under the Rocky label to the U.S. military.

We did not have any single customer account for more than 10% of consolidated net sales in 2014, 2013 or 2012.

Estimates - The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Cash and Cash Equivalents - We consider all highly liquid investments purchased with original maturities of three months or less to be cash equivalents. Our cash and cash equivalents are primarily held in five banks. Balances may exceed federally insured limits.

Trade Receivables - Trade receivables are presented net of the related allowance for uncollectible accounts of approximately \$1,002,000 and \$781,000 at December 31, 2014 and 2013, respectively. The allowance for uncollectible accounts is calculated based on the relative age and size of trade receivable balances. Our credit policy generally provides that trade receivables will be deemed uncollectible and written-off once we have pursued all reasonable efforts to collect on the account.

Concentration of Credit Risk - We have significant transactions with a large number of customers. No customer represented 10% of trade receivables - net as of December 31, 2014 and 2013. Our exposure to credit risk is impacted by the economic climate affecting the retail shoe industry. We manage this risk by performing ongoing credit evaluations of our customers and maintain reserves for potential uncollectible accounts.

Supplier and Labor Concentrations - We purchase raw materials from a number of domestic and foreign sources. We currently buy the majority of our waterproof fabric, a component used in a significant portion of our shoes and boots, from one supplier (W.L. Gore & Associates, Inc.). We have had a relationship with this supplier for over 20 years and have no reason to believe that such relationship will not continue.

We produce a portion of our shoes and boots in our Dominican Republic operation and in our Puerto Rico operation. We are not aware of any governmental or economic restrictions that would alter these current operations.

We source a significant portion of our footwear, apparel and gloves from manufacturers in the Far East, primarily China. We are not aware of any governmental or economic restrictions that would alter our current sourcing operations.

Inventories - Inventories are valued at the lower of cost, determined on a first-in, first-out (FIFO) basis, or market. Reserves are established for inventories when the net realizable value (NRV) is deemed to be less than its cost based on our periodic estimates of NRV.

Fixed Assets - The Company records fixed assets at historical cost and generally utilizes the straight-line method of computing depreciation for financial reporting purposes over the estimated useful lives of the assets as follows:

	Years
Buildings and improvements	5-40
Machinery and equipment	3-8
Furniture and fixtures	3-8
Lasts, dies, and patterns	3

For income tax purposes, the Company generally computes depreciation utilizing accelerated methods.

Identified intangible assets - Identified intangible assets consist of indefinite lived trademarks and definite lived trademarks, patents and customer lists. Indefinite lived intangible assets are not amortized.

If events or circumstances change, a determination is made by management, in accordance with the accounting standard for "Property, Plant and Equipment" to ascertain whether property, equipment and certain finite-lived intangibles have been impaired based on the sum of expected future undiscounted cash flows from operating activities. If the estimated net cash flows are less than the carrying amount of such assets, we will recognize an impairment loss in an amount necessary to write down the assets to fair value as determined from expected future discounted cash flows.

In accordance with the accounting standard for “Intangibles – Goodwill and Other”, we test intangible assets with indefinite lives for impairment annually or when conditions indicate impairment may have occurred. We perform such testing of our indefinite-lived intangible assets in the fourth quarter of each year or as events occur or circumstances change that would more likely than not reduce the fair value of a reporting unit below its carrying amount.

Advertising - We expense advertising costs as incurred. Advertising expense was approximately \$8,623,000, \$8,038,000, and \$7,118,000 for 2014, 2013 and 2012, respectively.

Revenue Recognition - Revenue and related cost of goods sold are recognized at the time products are shipped to the customer and title transfers. Revenue is recorded net of estimated sales discounts and returns based upon specific customer agreements and historical trends. Net sales include royalty income from licensing our brands.

Shipping Costs - In accordance with the accounting standard for “Revenue Recognition,” all shipping costs billed to customers have been included in net sales. Shipping costs associated with those billed to customers and included in selling, general and administrative costs totaled approximately \$9,254,000, \$8,294,000 and \$6,921,000 in 2014, 2013 and 2012, respectively. Our gross profit may not be comparable to other entities whose shipping and handling is a component of cost of sales.

Per Share Information - Basic net income per common share is computed based on the weighted average number of common shares outstanding during the period. Diluted net income per common share is computed similarly but includes the dilutive effect of stock options. A reconciliation of the shares used in the basic and diluted income per share computations is as follows:

	Years Ended December 31,		
	2014	2013	2012
Basic - weighted average shares outstanding	7,544,936	7,517,364	7,503,494
Dilutive securities - stock options	-	-	-
Diluted - weighted average shares outstanding	<u>7,544,936</u>	<u>7,517,364</u>	<u>7,503,494</u>
Anti-Dilutive securities - stock options	<u>-</u>	<u>8,630</u>	<u>10,902</u>

Comprehensive Income - Comprehensive income includes changes in equity that result from transactions and economic events from non-core operations. Comprehensive income is composed of two subsets – net income and other comprehensive income.

Fair Value Measurements – The fair value accounting standard defines fair value, establishes a framework for measuring fair value, and expands disclosures about fair value measurements. This standard clarifies how to measure fair value as permitted under other accounting pronouncements.

The fair value accounting standard defines fair value as the exchange price that would be received for an asset or paid to transfer a liability (an exit price) in the principal or most advantageous market for the asset or liability in an orderly transaction between market participants at the measurement date. This standard also establishes a three-level fair value hierarchy that prioritizes the inputs used to measure fair value. This hierarchy requires entities to maximize the use of observable inputs and minimize the use of unobservable inputs. The three levels of inputs used to measure fair value are as follows:

- Level 1 – Quoted prices in active markets for identical assets or liabilities.
- Level 2 – Observable inputs other than quoted market prices included in Level 1, such as quoted prices for similar assets and liabilities in active markets; quoted prices for identical or similar assets and liabilities in markets that are not active; or other inputs that are observable or can be corroborated by observable market data.
- Level 3 – Unobservable inputs that are supported by little or no market activity and that are significant to the fair value of the assets or liabilities. This includes certain pricing models, discounted cash flow methodologies and similar techniques that use significant unobservable inputs.

The fair values of cash, accounts receivable, other receivables and accounts payable approximated their carrying values because of the short-term nature of these instruments. Accounts receivable consists primarily of amounts due from our customers, net of allowances. Other receivables consist primarily of amounts due from employees (sales persons' advances in excess of commissions earned and employee travel advances); other customer receivables, net of allowances; and expected insurance recoveries. The carrying amounts of our revolving line of credit and other short-term financing obligations also approximate fair value, as they are comparable to the available financing in the marketplace during the year.

Recently Adopted Accounting Pronouncements

In July 2013, the FASB issued ASU No. 2013-11, Income Taxes (Topic 740): Presentation of an Unrecognized Tax Benefit When a Net Operating Loss Carryforward, a Similar Tax Loss, or a Tax Credit Carryforward Exists. The update provides that an unrecognized tax benefit, or a portion of an unrecognized tax benefit, should be presented in the financial statements as a reduction to a deferred tax asset for a net operating loss carryforward, a similar tax loss, or a tax credit carryforward, except as follows. To the extent a net operating loss carryforward, a similar tax loss, or a tax credit carryforward is not available at the reporting date under the tax law of the applicable jurisdiction to settle any additional income taxes that would result from the disallowance of a tax position or the tax law of the applicable jurisdiction does not require the entity to use, and the entity does not intend to use, the deferred tax asset for such purpose, the unrecognized tax benefit should be presented in the financial statements as a liability and should not be combined with deferred tax assets. The assessment of whether a deferred tax asset is available is based on the unrecognized tax benefit and deferred tax asset that exist at the reporting date and should be made presuming disallowance of the tax position at the reporting date. The amendments in this update do not require new recurring disclosures. The amendments are effective prospectively for reporting periods beginning after December 15, 2013. The adoption of this standard did not have a material effect on our consolidated financial statements.

Accounting standards not yet adopted

In April 2014, the FASB issued ASU No. 2014-08, Presentation of Financial Statements (Topic 205) and Property, Plant and Equipment (Topic 360): Reporting Discontinued Operations and Disclosures of Disposals of an Entity. The amendments in this update change the requirements for reporting discontinued operations in Subtopic 205-20. A discontinued operation may include a component of an entity or a group of components of an entity, or a business or nonprofit activity. A disposal of a component of an entity or a group of components of an entity is required to be reported in discontinued operations if the disposal represents a strategic shift that has (or will have) a major effect on an entity's operations and financial results when any of the following occurs: 1. The component of an entity or group of components of an entity meets the criteria in paragraph 205-20-45-1E to be classified as held for sale. 2. The component of an entity or group of components of an entity is disposed of by sale. 3. The component of an entity or group of components of an entity is disposed of other than by sale (for example, by abandonment or in a distribution to owners in a spinoff). The update is effective for all disposals (or classifications as held for sale) of components of an entity that occur within annual periods beginning on or after December 15, 2014, and interim periods within those years. We have not yet determined the impact this ASU will have on our consolidated financial statements.

In May 2014, the FASB issued ASU No. 2014-09, Revenue from Contracts with Customers (Topic 606). The amendments in this update supersede the revenue recognition requirements in Topic 605, Revenue Recognition, including most industry-specific revenue recognition guidance throughout the Industry Topics of the Codification. In addition, the amendments supersede the cost guidance in Subtopic 605-35, Revenue Recognition—Construction-Type and Production-Type Contracts, and create new Subtopic 340-40, Other Assets and Deferred Costs—Contracts with Customers. In summary, the core principle of Topic 606 is that an entity recognizes revenue to depict the transfer of promised goods or services to customers in an amount that reflects the consideration to which the entity expects to be entitled in exchange for those goods or services. The update is effective for public entities for annual reporting periods beginning after December 15, 2016, including interim periods within that reporting period. Early application is not permitted. We have not yet determined the impact this ASU will have on our consolidated financial statements.

In June 2014, the FASB issued ASU No. 2014-12, Compensation – Stock Compensation (Topic 718). Some share-based payment awards that require a specific performance target to be achieved before the employee can benefit from the award, also require an employee to render service until the performance target is achieved. In some cases, the terms of an award may provide that the performance target could be achieved after an employee completes the requisite service period. That is, the employee would be entitled to benefit from the award regardless of whether the employee is rendering service on the date the performance target is achieved. Some entities account for those performance targets as performance conditions that affect the vesting of the award and, therefore, do not reflect the performance target in the estimate of the grant-date fair value. Others treat them as nonvesting conditions that affect the grant-date fair value of the award. The amendments apply to reporting entities that grant their employees share-based payments in which the terms of the award provide that a performance target can be achieved after the requisite service period. The update is effective for public entities for annual reporting periods beginning after December 15, 2015. Early adoption is permitted. We have not yet determined the impact this ASU will have on our consolidated financial statements.

In August 2014, the FASB issued ASU No. 2014-15, Presentation of Financial Statements – Going Concern (Subtopic 205-40). Currently, there is no guidance in GAAP about management's responsibility to evaluate whether there is substantial doubt about an entity's ability to continue as a going concern or to provide related footnote disclosures. The amendments in this update provide that guidance. In doing so, the amendments should reduce diversity in the timing and content of footnote disclosures. The amendments require management to assess an entity's ability to continue as a going concern by incorporating and expanding upon certain principles that are currently in U.S. auditing standards. Specifically, the amendments (1) provide a definition of the term *substantial doubt*, (2) require an evaluation every reporting period including interim periods, (3) provide principles for considering the mitigating effect of management's plans, (4) require certain disclosures when substantial doubt is alleviated as a result of consideration of management's plans, (5) require an express statement and other disclosures when substantial doubt is not alleviated, and (6) require an assessment for a period of one year after the date that the financial statements are issued (or available to be issued). The update is effective for public entities for annual reporting periods beginning after December 15, 2016. Early adoption is permitted. We have not yet determined the impact this ASU will have on our consolidated financial statements.

In January 2015, the FASB issued ASU No. 2015-01, Income Statement – Extraordinary and Unusual Items (Subtopic 225-20). The objective of this update is to simplify the income statement presentation requirements in Subtopic 225-20 by eliminating the concept of extraordinary items. Extraordinary items are events and transactions that are distinguished by their unusual nature and by the infrequency of their occurrence. Eliminating the extraordinary classification simplifies income statement presentation by altogether removing the concept of extraordinary items from consideration. The amendments in this update are effective for fiscal years, and interim periods within those fiscal years, beginning after December 15, 2015. A reporting entity may apply the amendments prospectively. A reporting entity also may apply the amendments retrospectively to all prior periods presented in the financial statements. Early adoption is permitted provided that the guidance is applied from the beginning of the fiscal year of adoption. We have not yet determined the impact this ASU will have on our consolidated financial statements.

2. INVENTORIES

Inventories are comprised of the following:

Total Intangibles	<u>\$ 40,028,433</u>	<u>\$ 3,221,334</u>	<u>\$ 36,807,099</u>

Amortization expense related to finite-lived intangible assets was approximately \$135,000, \$60,000 and \$50,000 in 2014, 2013 and 2012, respectively. Such amortization expense will be approximately \$126,000 per year for 2015 through 2019. The increase in 2014 and future years is attributed to the additional amortization related to the additional customer relationship from the acquisition of the Creative Recreation business as noted below.

The weighted average lives of patents and customer relationships are 7 years.

As discussed further in Note 15, during late 2013, we acquired substantially all the assets of Kommonwealth, Inc. including the Creative Recreation trademark. As part of this acquisition, we recorded the fair value of the trademark of \$5.1 million and the fair value of the customer relationship of \$1.2 million. The trademark is an indefinite-lived intangible asset and will be reviewed annually for impairment or as events occur that would require a more frequent review. The customer relationship intangible will be amortized over 15 years.

Intangible assets, including trademarks and patents are reviewed for impairment annually, and more frequently, if necessary. We perform such testing of indefinite-lived intangible assets in the fourth quarter of each year or as events occur or circumstances change that would more likely than not reduce the fair value of the asset below its carrying amount. Fair value, for the testing, of other indefinite-lived intangible assets is determined using the relief from royalty method.

In assessing whether indefinite-lived intangible assets are impaired, we must make certain estimates and assumptions regarding future cash flows, long-term growth rates of our business, operating margins, weighted average cost of capital and other factors such as; discount rates, royalty rates, cost of capital, and market multiples to determine the fair value of our assets. These estimates and assumptions require management's judgment, and changes to these estimates and assumptions could materially affect the determination of fair value and/or impairment for each of our indefinite-lived intangible assets. Future events could cause us to conclude that indications of intangible asset impairment exist. Impairment may result from, among other things, deterioration in the performance of our business, adverse market conditions, adverse changes in applicable laws and regulations, competition, or the sale or disposition of a reporting segment. Any resulting impairment loss could have a material adverse impact on our financial condition and results of operations.

We evaluate our finite and indefinite lived trademarks under the terms and provisions of the accounting standards for "Intangibles - Goodwill and Other"; and "Property, Plant and Equipment." These pronouncements require that we compare the fair value of an intangible asset with its carrying amount. Our 2014 and 2013 evaluation did not result in the impairment of any of our indefinite lived intangible assets.

4. OTHER ASSETS

Other assets consist of the following:

	December 31,	
	2014	2013
Deferred financing costs, net	\$ 151,144	\$ 217,076
Other	148,346	136,975
Total	\$ 299,490	\$ 354,051

5. FIXED ASSETS

Fixed assets are comprised of the following:

	December 31,	
	2014	2013
Land	\$ 671,035	\$ 671,035
Buildings	19,027,998	18,398,436

Net Fixed Assets	<u>\$ 26,264,641</u>	<u>\$ 26,205,080</u>

We incurred approximately \$6,807,000, \$6,204,000 and \$5,847,000 in depreciation expense for 2014, 2013 and 2012, respectively.

6. LONG-TERM DEBT

In October 2010, we entered into a financing agreement with PNC Bank (“PNC”) to provide a \$70 million credit facility. In December 2014, we amended and restated the credit facility to increase the facility to \$75 million and extend the term of the facility an additional five years. The current interest rate is generally LIBOR plus 1.25%. The amended and restated credit facility matures in November 2019.

The total amount available under our amended and restated revolving credit facility is subject to a borrowing base calculation based on various percentages of accounts receivable and inventory. As of December 31, 2014, we had \$36.3 million in borrowings under this facility and total capacity of \$75 million.

Our amended and restated credit facility contains a restrictive covenant which requires us to maintain a fixed charge coverage ratio. This restrictive covenant is only in effect upon a triggering event taking place (as defined in the amended and restated credit facility agreement). At December 31, 2014, there was no triggering event and the covenant was not in effect. Our amended and restated credit facility places a restriction on the amount of dividends that may be paid. During 2014 and 2013, we paid dividends on our common stock totaling \$3,017,979 and \$2,254,935, respectively. No dividends were paid during 2012.

Our amended and restated revolving credit facility matures in November 2019. We have no other long-term debt maturities.

7. OPERATING LEASES

We lease certain machinery, trucks, and facilities under operating leases that generally provide for renewal options. We incurred approximately \$1,324,000, \$840,000 and \$1,067,000 in rent expense under operating lease arrangements for 2014, 2013 and 2012, respectively.

Future minimum lease payments under non-cancelable operating leases are approximately as follows for the years ended December 31:

2015	\$	1,290,000
2016		1,090,000
2017		1,089,000
2018		664,000
2019		<u>379,000</u>
Total	\$	<u>4,512,000</u>

8. RETIREMENT PLANS

We also sponsor a 401(k) savings plan for substantially all of our employees. We provide a contribution of 3% of applicable salary to the plan for all employees with greater than six months of service. Additionally, we match eligible employee contributions at a rate of 0.25%, per one percent of applicable salary contributed to the plan by the employee. This matching contribution will be made by us up to a maximum of 1% of the employee's applicable salary for all qualified employees. Our contributions to the 401(k) plan were approximately \$1.0 million in 2014, \$0.9 million in 2013 and \$0.9 million in 2012.

9. INCOME TAXES

The Company accounts for income taxes in accordance with the accounting standard for "Income Taxes", which requires an asset and liability approach to financial accounting and reporting for income taxes. Accordingly, deferred income taxes have been provided for the temporary differences between the financial reporting and the income tax basis of the Company's assets and liabilities by applying enacted statutory tax rates applicable to future years to the basis differences.

A breakdown of our income tax expense is as follows:

	Years Ended December 31,

	<u>\$ (11,636,141)</u>	<u>\$ (10,646,668)</u>

The valuation allowance is related to certain state and local income tax net operating loss carry forwards.

We have provided Puerto Rico tollgate taxes on approximately \$3,684,000 of accumulated undistributed earnings of Lifestyle prior to the fiscal year ended June 30, 1994, that would be payable if such earnings were repatriated to the United States. In 2001, we received abatement for Puerto Rico tollgate taxes on all earnings subsequent to June 30, 1994, thus no other provision for tollgate tax has been made on earnings after that date. If we repatriate the earnings from Lifestyle, approximately \$379,000 of tollgate tax would be due.

As of December 31, 2014, we had approximately \$17,598,000 of undistributed earnings from non-U.S. subsidiaries that are intended to be permanently reinvested in non-U.S. operations. Because these earnings are considered permanently reinvested, no U.S. tax provision has been accrued related to the repatriation of these earnings. If the Five Star undistributed earnings were distributed to the Company in the form of dividends, the related taxes on such distributions would be approximately \$6,159,000.

We file income tax returns in the U.S. Federal jurisdiction and various state and foreign jurisdictions. We are no longer subject to U.S. Federal tax examinations for years before 2012. In 2014, we were subjected to an IRS examination for our consolidated U.S. Federal return for the year 2011. There were no adjustments to our return as a result of that examination. State jurisdictions that remain subject to examination range from 2010 to 2014. Foreign jurisdiction (Canada and Puerto Rico) tax returns that remain subject to examination range from 2009 to 2014.

Our policy is to accrue interest and penalties on any uncertain tax position as a component of income tax expense. As of December 31, 2014 no such expenses were recognized during the year. We do not believe there will be any material changes in our uncertain tax positions over the next 12 months.

Accounting for uncertainty in income taxes requires financial statement recognition, measurement and disclosure of uncertain tax positions recognized in an enterprise's financial statements. Under this guidance, income tax positions must meet a more-likely-than-not recognition threshold at the effective date to be recognized upon the adoption of the standard. The Company did not have any unrecognized tax benefits and there was no effect on its financial condition or results of operations as a result of implementing this standard.

10. COMMITMENTS AND CONTINGENCIES

We are, from time to time, a party to litigation which arises in the normal course of business. Although the ultimate resolution of pending proceedings cannot be determined, in the opinion of management, the resolution of such proceedings in the aggregate will not have a material adverse effect on our financial position, results of operations, or liquidity.

11. CAPITAL STOCK AND STOCK BASED COMPENSATION

On May 7, 2014, our shareholders approved the 2014 Omnibus Incentive Plan (the "2014 Plan"). The 2014 Plan includes 500,000 of our common shares that may be granted under various types of awards described in the 2014 Plan. As of December 31, 2014, we were authorized to issue 493,084 shares under this plan.

On May 11, 2004 our shareholders approved the 2004 Stock Incentive Plan (the "2004 Plan"). The 2004 Plan included 750,000 of our common shares that may be granted for stock options and restricted stock awards. During 2014, we issued the service based restricted stock, the performance based restricted stock and the stock options noted below under the 2004 Plan. The 2004 Plan has expired and no future issuances will be made from this plan.

Service Based Restricted Stock

During 2014, we issued 23,000 shares of restricted stock units to certain members of our management that will be settled in one share of common stock of the company per unit. These restricted stock units vest in increments of 25% per year over the next four years. We valued the units at a fair value of \$14.57 per unit, which was the closing price of our stock on the last trading date prior to the grant date. For the year ended December 31, 2014, we recorded expense of \$83,778 related to these restricted stock units.

Performance Based Restricted Stock

During 2014, we made available up to 23,000 shares of performance based restricted stock units to certain members of our management. Shares underlying the performance based restricted stock units will be issued upon achieving certain established EPS goals at the end of fiscal year 2015. For the year ended 2014, we did not record any expense related to these restricted stock units as it is uncertain if we will reach the performance goals.

Stock Options

During 2014, we issued 23,000 shares of stock options to certain members of our management. These stock options vest in increments of 20% per year over the next five years. The options are exercisable at \$14.57 per option, which was the closing price of our stock on the last trading date prior to the grant date. We have determined the fair value of the options to be \$5.94 per option using the Black Scholes calculation. The significant assumptions utilized for the Black Scholes calculations consist of an expected life of 6.5 years, historical volatility of 52.04%, a risk free interest rate of 2.41%, a dividend yield of 2.75% and an employee forfeiture rate of 3.8%. Our expected life estimate is based on the sum of the vesting terms divided by the number of vesting tranches. For the year ended 2014, we recorded expense of \$27,324 related to these stock options.

For the above issuances under the plan, we expect to recognize expense in the years 2015 through 2018 as follows:

2015	\$	102,555
2016		98,282
2017		94,009
2018		22,069
Total	\$	<u>316,915</u>

The following summarizes stock option transactions from January 1, 2014 through December 31, 2014:

Unvested options at December 31, 2014	<u>23,000</u>	<u>\$ 14.57</u>	<u>9.0</u>	<u>\$ -</u>

During the year ended December 31, 2014, we issued 13,678 shares of common stock to members of our Board of Directors and an employee. We recorded compensation expense of \$196,000, which was the fair market value of the shares on the grant dates. The shares are fully vested.

The Company has authorized 250,000 shares of voting preferred stock without par value. No shares are issued or outstanding. Also, the Company has authorized 250,000 shares of non-voting preferred stock without par value. Of these, 125,000 shares have been designated Series A non-voting convertible preferred stock with a stated value of \$.06 per share, of which no shares are issued or outstanding at December 31, 2014 and 2013, respectively.

The plans generally provided for grants with the exercise price equal to fair value on the date of grant, graduated vesting periods of up to 5 years, and lives not exceeding 10 years.

The following summarizes stock option transactions from January 1, 2013 through December 31, 2013:

	Number of Options	Weighted Average Exercise Price	Weighted Average Remaining Actual Term	Aggregate Intrinsic Value
Outstanding at December 31, 2012	10,000	\$ 24.36

Unvested options at December 31, 2013	-	\$ -	-	\$ -

There were no options granted during the years 2013 or 2012.

In June 2009, our Board of Directors adopted a Rights Agreement, which provides for one preferred share purchase right to be associated with each share of our outstanding common stock. Shareholders exercising these rights would become entitled to purchase shares of Series B Junior Participating Cumulative Preferred Stock. The rights are exercisable after the time when a person or group of persons without the approval of the Board of Directors acquire beneficial ownership of 20 percent or more of our common stock or announce the initiation of a tender or exchange offer which if successful would cause such person or group to beneficially own 20 percent or more of the common stock. Such exercise would ultimately entitle the holders of the rights to purchase at the exercise price, shares of common stock of the surviving corporation or purchaser, respectively, with an aggregate market value equal to two times the exercise price. The person or groups effecting such 20 percent acquisition or undertaking such tender offer would not be entitled to exercise any rights. The Rights Agreement was renewed in June 2012 and expires in June 2017.

12. SUPPLEMENTAL CASH FLOW INFORMATION

Supplemental cash flow information including other cash paid for interest and Federal, state and local income taxes was as follows:

13. SEGMENT INFORMATION

Operating Segments - We operate our business through three business segments: wholesale, retail and military.

Wholesale. In our wholesale segment, our products are offered in over ten thousand retail locations representing a wide range of distribution channels in the U.S. and Canada. These distribution channels vary by product line and target market and include sporting goods stores, outdoor retailers, independent shoe retailers, hardware stores, catalogs, mass merchants, uniform stores, farm store chains, specialty safety stores and other specialty retailers.

Retail. In our retail segment, we sell our products directly to consumers through our consumer and business direct websites, our Lehigh mobile and retail stores and our Rocky outlet store. Our Lehigh operations include a small fleet of trucks, supported by small warehouses that include retail stores, which we refer to as mini-stores. Through our outlet store, we generally sell first quality or discontinued products in addition to a limited amount of factory damaged goods, which typically carry lower gross margins.

Military. While we are focused on continuing to build our wholesale and retail business, we also actively bid, from time to time, on footwear contracts with the U.S. military. Our sales under such contracts are dependent on us winning the bids for these contracts.

We have received an order to fulfill a contract to the U.S. Military to produce "Hot Weather" combat boots. We began shipping boots in the first quarter of 2013. The contract included a minimum purchase amount of \$3.0 million and a maximum of \$15.0 million for the first year and included an option for four additional years with the same terms. During 2014, we shipped boots under this same agreement.

The following is a summary of segment results for the Wholesale, Retail, and Military segments. Certain amounts from prior year have been reclassified to conform to current year presentation.

15. ACQUISITION OF CREATIVE RECREATION

On December 13, 2013, we completed the acquisition of certain assets of Kommonwealth, Inc. including the Creative Recreation trademark, a lifestyle footwear brand best known for its popular crossover between athletic sneakers and dress shoes. The total purchase price was \$8,722,843 including cash and assumption of certain liabilities. The acquisition was funded by our existing cash balances and funds available under our existing revolving credit facility. We did not have any sales in 2013 related to this acquisition and had net pre-tax operational expenses of \$172,418 that was included as a component of income from operations. In addition, we incurred \$1,172,047 of acquisition related expenses. The acquisition related expenses were included as a component of income from operations for the year ended December 31, 2013 and consisted of the following:

Investment banker fees	\$ 503,072
Professional fees	187,585
Valuation services	37,561
Stock compensation expense	290,800
Freight and warehousing expenses	86,726
Travel Expenses	<u>66,303</u>
Total acquisition related expenses	<u>\$ 1,172,047</u>

The acquisition was accounted for under the purchase method of accounting in accordance with ASC 805, Business Combinations, with the excess of the fair market value of the assets acquired and liabilities assumed in excess of the purchase price recorded as a gain on purchase. Based on the purchase price allocation, the purchase price resulted in a gain on purchase. The purchase price allocation is based upon certain estimates made by management with the assistance of an independent, third-party valuation company.

During 2014, we had net sales of \$16.1 million in net sales for the Creative Recreation business.

Purchase Price Allocation

We negotiated the respective purchase prices of the assets based on the expected cash flows to be derived from the assets after integration into our existing sourcing and distribution networks. The acquisition purchase price was allocated based on the fair values of the assets acquired and liabilities assumed, which are based on management estimates and the assistance of third-party appraisals. The following table summarizes the estimated fair values of the assets acquired and liabilities assumed.

Purchase Price	\$ 2,229,000
<u>Preliminary Allocation of Purchase Price</u>	
Accounts receivable	(1,081,764)
Inventories	(1,162,360)
Prepaid expenses and deposits	(82,339)
Property and equipment	(698,355)
Trademarks	(5,100,000)
Customer relationships	(1,200,000)
Total assets acquired	<u>(9,324,818)</u>
Accounts payable	<u>6,493,843</u>
Net gain on purchase	<u>\$ (601,975)</u>

Intangible assets related to the acquisitions represent the fair value of trademarks and customer relationships. See Note 3 intangible assets.

**ROCKY BRANDS, INC.
INCENTIVE STOCK OPTION AGREEMENT
UNDER THE
2014 OMNIBUS INCENTIVE PLAN**

Rocky Brands, Inc. (the "Company") hereby grants, effective this __ day of _____, ____ (the "Effective Date") to _____ (the "Optionee") an Option to purchase _____ shares of its common stock, without par value (the "Option Shares"), at a price of \$ _____ per share pursuant to the Company's 2014 Omnibus Incentive Plan (the "Plan"), subject to the following:

1. **RELATIONSHIP TO THE PLAN.** This Option is granted pursuant to the Plan, and is in all respects subject to the terms, provisions and definitions of the Plan and any amendments thereto. The Optionee acknowledges receipt of a copy of the Plan and represents that he or she is familiar with the terms and conditions thereof. The Optionee accepts this Option subject to all the terms and provisions of the Plan (including without limitation provisions relating to non-transferability, exercise of the Option, sale of the Option shares, termination of the Option, adjustment of the number of shares subject to the Option, and the exercise price of the Option). The Optionee further agrees that all decisions and interpretations made by the Stock Option Committee (the "Committee"), as established under the Plan, and as from time to time constituted, are final, binding, and conclusive upon the Optionee and his or her heirs. This Option is an Incentive Stock Option under the Plan.

2. **TIME OF EXERCISE.** This Option may be exercised, from time to time, in full or in part, by the Optionee to the extent the Option is vested based upon the number of full years the Optionee is an employee of the Company after the Effective Date (the "Vested Percentage") and shall remain exercisable (subject to the provisions herein and the Plan) until it has been exercised as to all of the Shares or _____, 20__, whichever occurs first. The Optionee shall be entitled to exercise this Option to the extent of the percentage of, and not to exceed in the aggregate, the maximum number of the Shares, based upon the Vested Percentage, from time to time, which shall be determined in accordance with the following schedule:

<u>Effective Date</u>	<u>Vested Percentage</u>
	20%
	40%
	60%
	80%
	100%

Notwithstanding the foregoing, this Option may not be exercised unless (i) the Option Shares are registered under the Securities Act of 1933, as amended, and are registered or qualified under applicable state securities or “blue sky” laws, or (ii) the Company has received an opinion of counsel to the Company to the effect that the Option may be exercised and Option Shares may be issued by the Company pursuant thereto without such registration or qualification. If this Option is not otherwise exercisable by reason of the foregoing sentence, the Company will take reasonable steps to comply with applicable state and federal securities laws in connection with such issuance.

3. **METHODS OF EXERCISE.** This Option is exercisable by delivery to the Company of written notice of exercise which specifies the number of shares to be purchased and the election of the method of payment therefor, which will be one of the methods of payment specified in Section 6.4 of the Plan. If payment is otherwise than payment in full in cash, the method of payment is subject to the consent of the Committee. Upon receipt of payment for the shares to be purchased pursuant to the Option or, if applicable, the shares to be delivered pursuant to the election of an alternative payment method, the Company will deliver or cause to be delivered to the Optionee, to any other person exercising this Option, or to a broker or dealer if the method of payment specified in clause (ii) of Section 6.4 of the Plan is elected, a certificate or certificates for the number of shares with respect to which this Option is being exercised, registered in the name of the Optionee or other person exercising the Option, or if appropriate, in the name of such broker or dealer; provided, however, that if any law or regulation or order of the Securities and Exchange Commission or other body having jurisdiction over the exercise of this Option will require the Company or Optionee (or other person exercising this Option) to take any action in connection with the shares then being purchased, the delivery of the certificate or certificates for such shares may be delayed for the period necessary to take and complete such action.

4. **ACQUISITION FOR INVESTMENT.** This Option is granted on the condition that the acquisition of the Option Shares hereunder will be for the account of the Optionee (or other person exercising this Option) for investment purposes and not with a view to resale or distribution, except that such condition will be inoperative if the Option Shares are registered under the Securities Act of 1933, as amended, or if in the opinion of counsel for the Company such shares may be resold without registration. At the time of any exercise of the Option, the Optionee (or other person exercising this Option) will execute such further agreements as the Company may require to implement the foregoing condition and to acknowledge the Optionee’s (or such other person’s) familiarity with restrictions on the resale of the Option Shares under applicable securities laws.

5. **DISPOSITION OF SHARES.** The Optionee or any other person who may exercise this Option will notify the Company within seven (7) days of any sale or other transfer of any Option Shares, and the Company may place a legend on the Option Shares to such effect. If any class of equity securities of the Company is registered pursuant to section 12 of the Securities Exchange Act of 1934, as amended, and the Optionee or any other person who may exercise this Option is subject to section 16 of that Act by virtue of such Optionee’s or person’s relationship to the Company, the Optionee or other person exercising this Option agrees not to sell or otherwise dispose of any Option Shares unless at least six (6) months have elapsed from the Effective Date.

6. **WITHHOLDING.** As a condition to the issuance of any of the Shares under this Option, Optionee or any person who may exercise this Option authorizes the Company to withhold in accordance with applicable law from any salary, wages or other compensation for services payable by the Company to or with respect to Optionee any and all taxes required to be withheld by the Company under federal, state or local law as a result of such Optionee's or such person's receipt or disposition of Shares purchased under this Option. If, for any reason, the Company is unable to withhold all or any portion of the amount required to be withheld, Optionee (or any person who may exercise this Option) agrees to pay to the Company upon exercise of this Option an amount equal to the withholding required to be made less the amount actually withheld by the Company.

7. **FORFEITURE.** If Optionee's Service is terminated for Cause, this Option (whether vested or unvested) shall immediately terminate and cease to be exercisable. If shares have been delivered to the Optionee upon exercise of this Option, then the shares so issued shall be forfeited and returned to the Company.

8. **GENERAL.** This Agreement will be construed as a contract under the laws of the State of Ohio without reference to Ohio's choice of law rules. It may be executed in several counterparts, all of which will constitute one Agreement. It will bind and, subject to the terms of the Plan, benefit the parties and their respective successors, assigns, and legal representatives.

IN WITNESS WHEREOF, the Company and the Optionee have executed this Agreement as of the date first above written.

**Rocky Brands, Inc.
Restricted Stock Unit Agreement**

This Restricted Stock Unit Agreement (this “**Agreement**”) is made and entered into as of _____ (the “**Grant Date**”) by and between Rocky Brands, Inc., an Ohio corporation (the “**Company**”) and _____ (the “**Grantee**”).

WHEREAS, the Company has adopted the 2014 Omnibus Incentive Plan (the “**Plan**”) pursuant to which awards of Restricted Stock Units may be granted; and

WHEREAS, the Committee has determined that it is in the best interests of the Company and its shareholders to grant the award of Restricted Stock Units provided for herein.

NOW, THEREFORE, the parties hereto, intending to be legally bound, agree as follows:

1. Grant of Restricted Stock Units.

1.1 Pursuant to Article VIII of the Plan, the Company hereby issues to the Grantee on the Grant Date an Award consisting of, in the aggregate, _____ Restricted Stock Units (the “**RSUs**”). Each RSU represents the right to receive one share of Common Stock, subject to the terms and conditions set forth in this Agreement and the Plan. Capitalized terms that are used but not defined herein have the meaning ascribed to them in the Plan.

1.2 The RSUs shall be credited to a separate account maintained for the Grantee on the books and records of the Company (the “**Account**”). All amounts credited to the Account shall continue for all purposes to be part of the general assets of the Company.

2. Consideration. The grant of the RSUs is made in consideration of the services to be rendered by the Grantee to the Company.

3. Vesting.

3.1 Except as otherwise provided herein, provided that the Grantee remains in Continuous Service through the applicable vesting date, the RSUs will vest in accordance with the following schedule (the period during which restrictions apply, the “**Restricted Period**”):

Vesting Date	Total Percentage of Restricted Stock Units
	25%
	50%
	75%
	100%

Once vested, the RSUs become “**Vested Units.**”

3.2 The foregoing vesting schedule notwithstanding, and unless determined otherwise in the Committee’s sole discretion, if the Grantee’s Service terminates for any reason at any time before all of his or her RSUs have vested, the Grantee’s unvested RSUs shall be automatically forfeited upon such termination of Service and neither the Company nor any Affiliate shall have any further obligations to the Grantee under this Agreement.

4. Restrictions. Subject to any exceptions set forth in this Agreement or the Plan, during the Restricted Period and until such time as the RSUs are settled in accordance with **Section 6**, the RSUs or the rights relating thereto may not be assigned, alienated, pledged, attached, sold or otherwise transferred or encumbered by the Grantee. Any attempt to assign, alienate, pledge, attach, sell or otherwise transfer or encumber the RSUs or the rights relating thereto shall be wholly ineffective and, if any such attempt is made, the RSUs will be forfeited by the Grantee and all of the Grantee’s rights to such units shall immediately terminate without any payment or consideration by the Company.

5. Rights as Shareholder.

5.1 The Grantee shall not have any rights of a shareholder with respect to the shares of Common Stock underlying the RSUs unless and until the RSUs vest and are settled by the issuance of such shares of Common Stock.

5.2 Upon and following the settlement of the RSUs, the Grantee shall be the record owner of the shares of Common Stock underlying the RSUs unless and until such shares are sold or otherwise disposed of, and as record owner shall be entitled to all rights of a shareholder of the Company (including voting rights).

6. Settlement of Restricted Stock Units.

6.1 Subject to **Section 9** hereof, promptly following the vesting date, issue and deliver to the Grantee the number of shares of Common Stock equal to the number of Vested Units.

6.2 If the Grantee is deemed a “specified employee” within the meaning of Section 409A of the Code, as determined by the Committee, at a time when the Grantee becomes eligible for settlement of the RSUs upon his “separation from service” within the meaning of Section 409A of the Code, then to the extent necessary to prevent any accelerated or additional tax under Section 409A of the Code, such settlement will be delayed until the earlier of: (a) the date that is six months following the Grantee’s separation from service and (b) the Grantee’s death.

7. No Right to Continued Service. Neither the Plan nor this Agreement shall confer upon the Grantee any right to be retained in any position, as an Employee, Consultant or Director of the Company. Further, nothing in the Plan or this Agreement shall be construed to limit the discretion of the Company to terminate the Grantee's Service at any time, with or without Cause.

8. Adjustments. If any change is made to the outstanding Common Stock or the capital structure of the Company, if required, the RSUs shall be adjusted or terminated in any manner as contemplated by Section 4.4 of the Plan.

9. Tax Liability and Withholding.

9.1 The Grantee shall be required to pay to the Company, and the Company shall have the right to deduct from any compensation paid to the Grantee pursuant to the Plan, the amount of any required withholding taxes in respect of the RSUs and to take all such other action as the Committee deems necessary to satisfy all obligations for the payment of such withholding taxes. The Committee may permit the Grantee to satisfy any federal, state or local tax withholding obligation by any of the following means, or by a combination of such means:

(a) tendering a cash payment.

(b) authorizing the Company to withhold shares of Common Stock from the shares of Common Stock otherwise issuable or deliverable to the Grantee as a result of the vesting of the RSUs; *provided, however*, that no shares of Common Stock shall be withheld with a value exceeding the minimum amount of tax required to be withheld by law.

(c) delivering to the Company previously owned and unencumbered shares of Common Stock.

9.2 Notwithstanding any action the Company takes with respect to any or all income tax, social insurance, payroll tax, or other tax-related withholding (**Tax-Related Items**), the ultimate liability for all Tax-Related Items is and remains the Grantee's responsibility and the Company (a) makes no representation or undertakings regarding the treatment of any Tax-Related Items in connection with the grant, vesting or settlement of the RSUs or the subsequent sale of any shares; and (b) does not commit to structure the RSUs to reduce or eliminate the Grantee's liability for Tax-Related Items.

10. Forfeiture Conditions. Notwithstanding the foregoing, in the event of termination of Service for Cause, (i) any unvested Restricted Stock Units shall be forfeited immediately, and (ii) if shares of Common Stock have been delivered to the Grantee in settlement of Vested Units, then the shares of Common Stock so issued shall be forfeited and returned to the Company.

11. Compliance with Law. The issuance and transfer of shares of Common Stock shall be subject to compliance by the Company and the Grantee with all applicable requirements of federal and state securities laws and with all applicable requirements of any stock exchange on which the Company's shares of Common Stock may be listed. No shares of Common Stock shall be issued or transferred unless and until any then applicable requirements of state and federal laws and regulatory agencies have been fully complied with to the satisfaction of the Company and its counsel.

12. Notices. Any notice required to be delivered to the Company under this Agreement shall be in writing and addressed to the Chief Financial Officer of the Company at the Company's principal corporate offices. Any notice required to be delivered to the Grantee under this Agreement shall be in writing and addressed to the Grantee at the Grantee's address as shown in the records of the Company. Either party may designate another address in writing (or by such other method approved by the Company) from time to time.

13. Governing Law. This Agreement will be construed and interpreted in accordance with the laws of the State of Ohio without regard to conflict of law principles.

14. Interpretation. Any dispute regarding the interpretation of this Agreement shall be submitted by the Grantee or the Company to the Committee for review. The resolution of such dispute by the Committee shall be final and binding on the Grantee and the Company.

15. Restricted Stock Units Subject to Plan. This Agreement is subject to the Plan as approved by the Company's shareholders. The terms and provisions of the Plan as it may be amended from time to time are hereby incorporated herein by reference. In the event of a conflict between any term or provision contained herein and a term or provision of the Plan, the applicable terms and provisions of the Plan will govern and prevail.

16. Successors and Assigns. The Company may assign any of its rights under this Agreement. This Agreement will be binding upon and inure to the benefit of the successors and assigns of the Company. Subject to the restrictions on transfer set forth herein, this Agreement will be binding upon the Grantee and the Grantee's beneficiaries, executors, administrators and the person(s) to whom the RSUs may be transferred by will or the laws of descent or distribution.

17. Severability. The invalidity or unenforceability of any provision of the Plan or this Agreement shall not affect the validity or enforceability of any other provision of the Plan or this Agreement, and each provision of the Plan and this Agreement shall be severable and enforceable to the extent permitted by law.

18. Discretionary Nature of Plan. The Plan is discretionary and may be amended, cancelled or terminated by the Company at any time, in its discretion. The grant of the RSUs in this Agreement does not create any contractual right or other right to receive any RSUs or other Awards in the future. Future Awards, if any, will be at the sole discretion of the Company. Any amendment, modification, or termination of the Plan shall not constitute a change or impairment of the terms and conditions of the Grantee's employment with the Company.

19. Amendment. The Committee has the right to amend, alter, suspend, discontinue or cancel the RSUs, prospectively or retroactively; *provided, that*, no such amendment shall adversely affect the Grantee's material rights under this Agreement without the Grantee's consent.
20. Section 409A. This Agreement is intended to comply with Section 409A of the Code or an exemption thereunder and shall be construed and interpreted in a manner that is consistent with the requirements for avoiding additional taxes or penalties under Section 409A of the Code. Notwithstanding the foregoing, the Company makes no representations that the payments and benefits provided under this Agreement comply with Section 409A of the Code and in no event shall the Company be liable for all or any portion of any taxes, penalties, interest or other expenses that may be incurred by the Grantee on account of non-compliance with Section 409A of the Code.
21. No Impact on Other Benefits. The value of the Grantee's RSUs is not part of his or her normal or expected compensation for purposes of calculating any severance, retirement, welfare, insurance or similar employee benefit.
22. Counterparts. This Agreement may be executed in counterparts, each of which shall be deemed an original but all of which together will constitute one and the same instrument. Counterpart signature pages to this Agreement transmitted by facsimile transmission, by electronic mail in portable document format (.pdf), or by any other electronic means intended to preserve the original graphic and pictorial appearance of a document, will have the same effect as physical delivery of the paper document bearing an original signature.
23. Acceptance. The Grantee hereby acknowledges receipt of a copy of the Plan and this Agreement. The Grantee has read and understands the terms and provisions thereof, and accepts the RSUs subject to all of the terms and conditions of the Plan and this Agreement. The Grantee acknowledges that there may be adverse tax consequences upon the vesting or settlement of the RSUs or disposition of the underlying shares and that the Grantee has been advised to consult a tax advisor prior to such vesting, settlement or disposition.

PSU Agreement

This PSU Agreement (this "**Agreement**") is made and entered into as of _____ (the "**Grant Date**") by and between Rocky Brands, Inc., an Ohio corporation (the "**Company**") and _____ (the "**Grantee**").

WHEREAS, the Company has adopted the 2014 Omnibus Incentive Plan (the "**Plan**") pursuant to which PSUs may be granted; and

WHEREAS, the Committee has determined that it is in the best interests of the Company and its shareholders to grant the award of PSUs provided for herein.

NOW, THEREFORE, the parties hereto, intending to be legally bound, agree as follows:

1. **Grant of Performance Share Units.** Pursuant to Article X of the Plan, the Company hereby grants to the Grantee an Award for a maximum of _____ Performance Share Units (the "**PSUs**") represents the right to receive one share of Common Stock, subject to the terms and conditions set forth in this Agreement and the Plan. The number of PSUs that the Grantee actually earns for the Performance Period (up to a maximum of _____ will be determined by the level of achievement of the Performance Goal(s) in accordance with Exhibit 1 attached hereto. Capitalized terms that are used but not defined herein have the meanings ascribed to them in the Plan.

2. **Performance Period.** For purposes of this Agreement, the term "Performance Period" shall be the period commencing on _____ and ending on _____.

3. **Performance Goal(s).**

3.1 The number of PSUs earned by the Grantee for the Performance Period will be determined at the end of the Performance Period based on the level of achievement of the Performance Goal(s) in accordance with Exhibit I. All determinations of whether Performance Goals have been achieved, the number of PSUs earned by the Grantee, and all other matters related to this **Section 3** shall be made by the Committee in its sole discretion.

3.2 Promptly following completion of the Performance Period, the Committee will review and certify in writing (a) whether, and to what extent, the Performance Goal(s) for the Performance Period has/have been achieved, and (b) the number of PSUs that the Grantee shall earn, if any, subject to compliance with the requirements of **Section 4**. Such certification shall be final, conclusive and binding on the Grantee, and on all other persons, to the maximum extent permitted by law.

4. Vesting of Performance Share Units. The PSUs are subject to forfeiture until they vest. Except as otherwise provided herein, the PSUs will vest and become nonforfeitable on the date the Committee certifies the achievement of the Performance Goal(s) in accordance with Section 3.2, subject to (a) the achievement of the minimum threshold Performance Goal(s) for payout set forth in Exhibit I attached hereto, and (b) unless otherwise determined by the Committee in its sole discretion, the Grantee's Continuous Service from the Grant Date through the last day of the Performance Period. The number of PSUs that vest and become payable under this Agreement shall be determined by the Committee based on the level of achievement of the Performance Goal(s) set forth in Exhibit I and shall be rounded to the nearest whole PSU.
5. Termination of Continuous Service. Except as otherwise expressly provided in this Agreement, and unless otherwise determined in the Committee's sole discretion, if the Grantee's Continuous Service terminates for any reason at any time before all of his or her PSUs have vested, the Grantee's unvested PSUs shall be automatically forfeited upon such termination of Continuous Service and neither the Company nor any Affiliate shall have any further obligations to the Grantee under this Agreement.
6. Payment of Performance Share Units. Payment in respect of the PSUs earned for the Performance Period shall be made in shares of Common Stock and shall be issued to the Grantee as soon as practicable following the vesting date. The Company shall (a) issue and deliver to the Grantee the number of shares of Common Stock equal to the number of vested PSUs, and (b) enter the Grantee's name on the books of the Company as the shareholder of record with respect to the shares of Common Stock delivered to the Grantee.
7. Transferability. Subject to any exceptions set forth in this Agreement or the Plan, the PSUs or the rights relating thereto may not be assigned, alienated, pledged, attached, sold or otherwise transferred or encumbered by the Grantee, except by will or the laws of descent and distribution, and upon any such transfer by will or the laws of descent and distribution, the transferee shall hold such PSUs subject to all of the terms and conditions that were applicable to the Grantee immediately prior to such transfer.
8. Rights as Shareholder.
- 8.1 The Grantee shall not have any rights of a shareholder with respect to the shares of Common Stock underlying the PSUs, including, but not limited to, voting rights.
- 8.2 Upon and following the vesting of the PSUs and the issuance of shares, the Grantee shall be the record owner of the shares of Common Stock underlying the PSUs unless and until such shares are sold or otherwise disposed of, and as record owner shall be entitled to all rights of a shareholder of the Company (including voting and dividend rights).
9. No Right to Continued Service. Neither the Plan nor this Agreement shall confer upon the Grantee any right to be retained in any position, as an Employee, Consultant or Director of the Company. Further, nothing in the Plan or this Agreement shall be construed to limit the discretion of the Company to terminate the Grantee's Continuous Service at any time, with or without Cause.

10. Adjustments. If any change is made to the outstanding Common Stock or the capital structure of the Company, if required, the PSUs shall be adjusted or terminated in any manner as contemplated by Section 4.4 of the Plan.

11. Tax Liability and Withholding.

11.1 The Grantee shall be required to pay to the Company, and the Company shall have the right to deduct from any compensation paid to the Grantee pursuant to the Plan, the amount of any required withholding taxes in respect of the PSUs and to take all such other action as the Committee deems necessary to satisfy all obligations for the payment of such withholding taxes. The Committee may permit the Grantee to satisfy any federal, state or local tax withholding obligation by any of the following means, or by a combination of such means:

(a) tendering a cash payment;

(b) authorizing the Company to withhold shares of Common Stock from the shares of Common Stock otherwise issuable or deliverable to the Grantee as a result of the vesting of the PSUs; *provided, however*, that no shares of Common Stock shall be withheld with a value exceeding the minimum amount of tax required to be withheld by law; or

(c) delivering to the Company previously owned and unencumbered shares of Common Stock.

11.2 Notwithstanding any action the Company takes with respect to any or all income tax, social insurance, payroll tax, or other tax-related withholding ("**Tax-Related Items**"), the ultimate liability for all Tax-Related Items is and remains the Grantee's responsibility and the Company (a) makes no representation or undertakings regarding the treatment of any Tax-Related Items in connection with the grant, vesting or settlement of the PSUs or the subsequent sale of any shares, and (b) does not commit to structure the PSUs to reduce or eliminate the Grantee's liability for Tax-Related Items.

12. Forfeiture Conditions. Notwithstanding the foregoing, in the event of termination of Service for Cause, (i) any unvested Restricted Stock Units shall be forfeited immediately, and (ii) if shares of Common Stock have been delivered to the Grantee in settlement of Vested Units, then the shares of Common Stock so issued shall be forfeited and returned to the Company.

13. Compliance with Law. The issuance and transfer of shares of Common Stock in connection with the PSUs shall be subject to compliance by the Company and the Grantee with all applicable requirements of federal and state securities laws and with all applicable requirements of any stock exchange on which the Company's shares of Common Stock may be listed. No shares of Common Stock shall be issued or transferred unless and until any then applicable requirements of state and federal laws and regulatory agencies have been fully complied with to the satisfaction of the Company and its counsel.

14. Notices. Any notice required to be delivered to the Company under this Agreement shall be in writing and addressed to the Chief Financial Officer of the Company at the Company's principal corporate offices. Any notice required to be delivered to the Grantee under this Agreement shall be in writing and addressed to the Grantee at the Grantee's address as shown in the records of the Company. Either party may designate another address in writing (or by such other method approved by the Company) from time to time.

15. Governing Law. This Agreement will be construed and interpreted in accordance with the laws of the State of Ohio without regard to conflict of law principles.

16. Interpretation. Any dispute regarding the interpretation of this Agreement shall be submitted by the Grantee or the Company to the Committee for review. The resolution of such dispute by the Committee shall be final and binding on the Grantee and the Company.

17. Performance Share Units Subject to Plan. This Agreement is subject to the Plan as approved by the Company's shareholders. The terms and provisions of the Plan as it may be amended from time to time are hereby incorporated herein by reference. In the event of a conflict between any term or provision contained herein and a term or provision of the Plan, the applicable terms and provisions of the Plan will govern and prevail.

18. Successors and Assigns. The Company may assign any of its rights under this Agreement. This Agreement will be binding upon and inure to the benefit of the successors and assigns of the Company. Subject to the restrictions on transfer set forth herein, this Agreement will be binding upon the Grantee and the Grantee's beneficiaries, executors, administrators and the person(s) to whom the PSUs may be transferred by will or the laws of descent or distribution.

19. Severability. The invalidity or unenforceability of any provision of the Plan or this Agreement shall not affect the validity or enforceability of any other provision of the Plan or this Agreement, and each provision of the Plan and this Agreement shall be severable and enforceable to the extent permitted by law.

20. Discretionary Nature of Plan. The Plan is discretionary and may be amended, cancelled or terminated by the Company at any time, in its discretion. The grant of the PSUs in this Agreement does not create any contractual right or other right to receive any PSUs or other Awards in the future. Future Awards, if any, will be at the sole discretion of the Company. Any amendment, modification, or termination of the Plan shall not constitute a change or impairment of the terms and conditions of the Grantee's employment with the Company.

21. Amendment. The Committee has the right to amend, alter, suspend, discontinue or cancel the PSUs, prospectively or retroactively *provided, that*, no such amendment shall adversely affect the Grantee's material rights under this Agreement without the Grantee's consent.

22. Section 162(m). All payments under this Agreement are intended to constitute “qualified performance-based compensation” within the meaning of Section 162(m) of the Code. This Award shall be construed and administered in a manner consistent with such intent.

23. Section 409A. This Agreement is intended to comply with Section 409A of the Code or an exemption thereunder and shall be construed and interpreted in a manner that is consistent with the requirements for avoiding additional taxes or penalties under Section 409A of the Code. Notwithstanding the foregoing, the Company makes no representations that the payments and benefits provided under this Agreement comply with Section 409A of the Code and in no event shall the Company be liable for all or any portion of any taxes, penalties, interest or other expenses that may be incurred by the Grantee on account of non-compliance with Section 409A of the Code.

24. No Impact on Other Benefits. The value of the Grantee’s PSUs is not part of his or her normal or expected compensation for purposes of calculating any severance, retirement, welfare, insurance or similar employee benefit.

25. Counterparts. This Agreement may be executed in counterparts, each of which shall be deemed an original but all of which together will constitute one and the same instrument. Counterpart signature pages to this Agreement transmitted by facsimile transmission, by electronic mail in portable document format (.pdf), or by any other electronic means intended to preserve the original graphic and pictorial appearance of a document, will have the same effect as physical delivery of the paper document bearing an original signature.

26. Acceptance. The Grantee hereby acknowledges receipt of a copy of the Plan and this Agreement. The Grantee has read and understands the terms and provisions thereof, and accepts the PSUs subject to all of the terms and conditions of the Plan and this Agreement. The Grantee acknowledges that there may be adverse tax consequences upon the vesting or settlement of the PSUs or disposition of the underlying shares and that the Grantee has been advised to consult a tax advisor prior to such vesting, settlement or disposition.

CERTIFICATION PURSUANT TO EXCHANGE ACT RULES 13a-14(a) AND 15d-14(a) OF THE CHIEF EXECUTIVE OFFICER

I, David N. Sharp, certify that:

1. I have reviewed this annual report on Form 10-K of Rocky Brands, Inc.;
2. Based on my knowledge, this report does not contain any untrue statement of a material fact or omit to state a material fact necessary to make the statements made, in light of the circumstances under which such statements were made, not misleading with respect to the period covered by this report;
3. Based on my knowledge, the financial statements, and other financial information included in this report, fairly present in all material respects the financial condition, results of operations and cash flows of the registrant as of, and for, the periods presented in this report;
4. The registrant's other certifying officers and I are responsible for establishing and maintaining disclosure controls and procedures (as defined in Exchange Act Rules 13a-15(e) and 15d-15(e)) and internal control over financial reporting (as defined in Exchange Act Rules 13a-15(f) and 15d-15(f)) for the registrant and have:
 - (a) designed such disclosure controls and procedures, or caused such disclosure controls and procedures to be designed under our supervision, to ensure that material information relating to the registrant, including its consolidated subsidiaries, is made known to us by others within those entities, particularly during the period in which this annual report is being prepared;
 - (b) designed such internal control over financial reporting, or caused such internal control over financial reporting to be designed under our supervision, to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles;
 - (c) evaluated the effectiveness of the registrant's disclosure controls and procedures and presented in this report our conclusions about the effectiveness of the disclosure controls and procedures, as of the end of the period covered by this report based on such evaluation; and
 - (d) disclosed in this report any change in the registrant's internal control over financial reporting that occurred during the registrant's most recent fiscal quarter (the registrant's fourth quarter in the case of an annual report) that has materially affected, or is reasonably likely to materially affect, the registrant's internal control over financial reporting;
5. The registrant's other certifying officers and I have disclosed, based on our most recent evaluation of internal control over financial reporting, to the registrant's auditors and the audit committee of registrant's board of directors (or persons performing the equivalent functions):
 - (a) all significant deficiencies and material weaknesses in the design or operation of internal control over financial reporting which are reasonably likely to adversely affect the registrant's ability to record, process, summarize and report financial information; and
 - (b) any fraud, whether or not material, that involves management or other employees who have a significant role in the registrant's internal control over financial reporting.
